1 their pay;

2 (2) Buy all necessary material and implements;

3 (3) Sell material or implements on hand which may not be
4 necessary for the completion of the improvement; and

5 (4) Make all such contracts in the prosecution of the work as may
6 best subserve the public interest.

7 (d) It shall be the duty of a board to have the amount of work done by
8 any contractor estimated, from time to time as may be desirable, by the
9 engineer selected by the board. The board shall draw its warrants in favor of
10 the contractor for not more than ninety percent (90%) of the amount of work so
11 reported, reserving the remainder until it has been ascertained that the work
12 has been completed according to contract and is free from liens."

14 SECTION 2. Arkansas Code 14-121-412 is amended to read as follows:

15 "§ 14-121-412. District continuance - Additional levy.

16 (a) The district shall not cease to exist upon the completion of its
17 drainage system but shall continue to exist for the purpose of preserving the
18 system, of keeping the ditches clear from obstruction, and of extending,
19 widening, or deepening the ditches from time to time as it may be found
20 advantageous to the district.

21 (b) To this end the commissioners may from time to time apply to the
22 county court for the levying of additional taxes. The taxes may be levied as a
23 flat tax per acre. Upon the filing of the petition, notice shall be published
24 by the clerk for two (2) weeks in a newspaper published in each of the
25 counties in which the district embraces land. Any property owner seeking to
26 resist the additional levy may appear at the next regular, special, or
27 adjourned term of the county court or adjourned day of the court and urge his
28 objections thereto. Either the property owners or the commissioners may appeal
29 from the finding of the county court."
