

HOUSE AMENDMENT 1 TO sb346.

adding the following language after the word and punctuation "sulfide." on line 23 of page 1:

"Before the commission proposes an ambient standard or regulatory mechanism concerning hydrogen sulfide that will result in more stringent or restrictive control provisions than are currently provided by department permitting practices, the commission shall direct the department to prepare, with the assistance and cooperation of state agencies with appropriate expertise, a cost/benefit analysis justifying more stringent or restrictive operating conditions. The analysis will include, but not be limited to, the benefit to the public health and the preservation of environmental quality, and the cost to the regulated community and the department. The conclusions of this analysis shall be included in any public notice of the proposed rule making, and shall be subject to public comment."
