"SECTION 1. Legislative purpose.

(a) The General Assembly declares that this act is necessary to enhance the delivery of services to the people of Arkansas in an effective and efficient manner; to provide for administrative cost savings in the delivery of these services by combining overlapping functions and eliminating duplications of functions of state government; and to achieve the grouping of state agencies into ten (10) departments primarily according to function in order to facilitate an increase in efficiency and reduction of administrative costs.

(b) It is the intent of the General Assembly to provide for an orderly transfer of powers, duties, and functions of the various state agencies to the ten (10) departments with a minimum of disruption of governmental services and functions and with a minimum of expense.

(c) This act shall be liberally construed to achieve the purposes stated in this act.

SECTION 2. (A) Rulemaking, regulation, licensing, and registration;

(B) The promulgation of rules, rates, regulations, and standards; and

(C) The rendering of findings, orders, and adjudications.

(2) The transferred department, institution, agency, or part thereof, shall exercise these powers, authorities, duties, and functions independently of the secretary of the principal agency into which it has been

transferred.

(b) Following a type 1 transfer, the members of any statutory board or commission so transferred, and their successors, shall continue to be selected in the manner and serve for the terms provided by the state law applicable to the board or commission as the law may from time to time be amended.

(f) Nothing in this act shall be deemed to alter the manner of selection or the length of the term of service for any position where state law provides that the Governor shall appoint or select the person occupying the position. For any person occupying a position on the effective date of this act as a result of a Governor's appointment, nothing in this act shall be deemed to alter that person's continued employment in that position or to alter the length of that person's current term.

SECTION 3. (a) For the purposes of this act, a type 2 transfer means

SECTION 15. EMERGENCY CLAUSE. It is found and determined by the General Assembly that there is an urgent need for additional funding for public education, prisons, health care, and other essential government services; that every effort must be made to use current resources as efficiently and effectively as possible to provide the maximum possible funding for these essential government services; that there are significant opportunities for savings in the cost of operating state government by combining offices and eliminating duplicate functions; that this act is designed to reorganize the executive branch of Arkansas state government and consolidate governmental operations into ten (10) principal departments responsible for providing services to the citizens of this state; that the reorganization will result in more efficient use of current state resources through the elimination of duplicate administrative functions; and that the consolidation will reduce the administrative costs of operating state government and allow additional current resources to be used to fund public education, prisons, health care, and other essential government services. Therefore, an emergency is declared to exist and this act being necessary for the preservation of the public peace, health and safety shall become effective on:

(1) The date of its approval by the Governor;

(2) If the bill is neither approved nor vetoed by the Governor, the expiration of the period of time during which the Governor may veto the bill; or
