Original:		579,960.00	The Arkansas GIS Office is contracted to the Arkansas 911 Board to perform tasks necessary for the creation and maintenance of Next Generation 911 (NG911) compatible GIS data as identified in the Arkansas State 911 Plan. More specifically, those tasks include creating accurate statewide public safety answering point (PSAP) boundary data, identifying additional GIS data layers not currently maintained statewide and implementing a plan for the creation and maintenance of those data layers in accordance with the NENA NG911 data model, and identifying and implementing overall data maintenance procedures. To accomplish these objectives, GIS office in-house staff will coordinate with local jurisdictions and data authorities directly and perform a certain level of data processing. It is anticipated that successful execution of this project will involve a significant investment of time into person to person interaction with local PSAP staff. Contract staff will primarily be focused on data processing
