Performance of Students from Consolidated and Non-Consolidated Schools

John Hoy, Assistant Commissioner
Division of Academic Accountability
November 2011

Act 1198 of 2005

This act requires the monitoring of academic progress of students from schools that were consolidated or annexed under Act 60 of the Second Extraordinary Session of the Eighty-Fourth General Assembly.

This act also requires monitoring the academic performance of students in conversion charter schools.

Act 1198 of 2005

- This report compares the performance of consolidated students to non-consolidated students. It also compares the performance of students in conversion charter schools with those not in conversion charter schools. Performance is listed for Benchmark, End of Course and ACT exams by grade and subject, with Combined Population, African American, Hispanic, Caucasian, Economically Disadvantaged and Students with Disabilities subgroups. Progress of consolidated students who were non-proficient is also compared to progress of non-consolidated students were non-proficient.

Limitations

- In order to protect the confidentiality of individual students and due to the small size of the affected districts, this report looked at students in all consolidated schools as one group, and students in non-consolidated schools as one group.
