During the 4th Quarter, FY 2011, 56 places of employment were placed in the Rule 32 Program. Employers are identified for the Rule 32 Program if they have a higher-than expected number of compensable claims for their industry group. Employers placed in this program are encouraged to work with their workers' compensation insurance carrier, in-house staff, or other professional safety sources to develop management tools which will help them run safer workplaces and minimize workers' compensation costs through the use of such tools as return-to-work programs, drug-free workplace programs, claims management, etc.

During the 4th Quarter, FY 2011,44 employers successfully completed the Rule 32 Program.

Quarterly Report July 31, 2011

# MEDICAL COST CONTAINMENT DIVISION

In the last quarter the following activities occurred regarding these rules:

#### **Rule 30**

**Rule 30** was revised effective May 15, 2000. The AWCC adopted the Medicare RBRVS Medical Fee Schedule with Arkansas specific reimbursement multipliers. The new Medical Fee Schedule is available electronically from the AWCC Home Page. Since the Medical Fee Schedule is available electronically, we are no longer printing a medical fee schedule.

#### Administrative Review

**Rule 30** contains an **Administrative Review Process**. This process allows providers or carriers to request assistance from the Medical Cost Containment Division regarding disputes. Each administrative review requested consists of an investigation, desk audit by department staff, and the issuance of an order, which determines the disputed issue. During this quarter there were 12 review requests processed, four (4) review requests granted, and 26 orders issued. The ongoing issues in dispute consist of nonpayment, untimely payment, penalty request, and reimbursement disputes.

#### **Balance Billing**

**Rule 30** also contains a prohibition against **balance billing** by providers. The balance billing process involves: receipt of an allegation of balance billing by a claimant, carrier, employer, self-insured, etc.; notice being sent to all involved parties; an investigation; an audit; and a determination order being issued. During this quarter, the MCCD received no balance billing allegations.

#### Investigations

Investigations: There were approximately 156 investigations conducted this quarter.
