For purposes of this section, the following definitions apply:

- a. "Average direct care hours per resident day" means the total number of hours of direct care services provided by direct care staff in a month, divided by the number of calendar days in that month, and the facility's average daily resident census for that month.

However, the meaning of "direct care services" does not include food preparation, laundry, housekeeping, or other maintenance of a nursing facility's physical environment.
- d. "Direct care staff" means a person who provides any direct care services to a nursing facility resident through interpersonal contact with residents or resident care management, including without limitation a licensed nurse; nurse aide; medication assistant; physician; physician assistant; licensed physical or occupational therapist or licensed therapy assistant; registered respiratory therapist; licensed speech-language pathologist; infection preventionist; and other healthcare professionals licensed or certified in the state of Arkansas.

- a. As a condition of licensure by the department, a nursing facility, except a private pay-only nursing facility, shall be certified to participate in the federal Medicare program as a skilled nursing facility, or in the Arkansas Medicaid program as a nursing facility, or in both.
- b. As a condition of licensure by the department, a private pay-only nursing facility shall (1) comply with all state requirements applicable to a private pay-only nursing facility, including rules promulgated by the department, and (2) cooperate with department audits, inspections, and document requests.

520.3 Consistency with Federal Requirements

- a. Under 42 U.S.C. 1395i-3 and 42 U.S.C. 1396r, a certified nursing facility (1) is subject to federal requirements of participation and (2) must demonstrate substantial compliance with applicable federal requirements to receive and maintain certification necessary to participate in Medicaid, Medicare, or both.
- b. As required under Arkansas Code § 20-10-1402(d)(2), department rules applicable to certified nursing facilities (1) apply to conditions and processes of state licensure and (2) may not exceed or duplicate federal requirements of participation, including staffing and data reporting requirements, except average direct care hours per resident day requirements under Arkansas Code § 20-10-1402(a)(2) and (b).

520.4 Average Direct Care Hours Per Resident Day; Certified Nursing Facilities

- a. Each certified nursing facility shall:

1. Provide each month direct care services by direct care staff equivalent to at least three and thirty-six hundredths (3.36) average direct care hours per resident day; and
 2. On or before the fifteenth day of each month, a certified nursing facility shall report electronically to the department the facility's actual average direct care hours per resident day for the prior month.
- b. Hours used in determining actual average direct care hours per resident day for each month shall be:
1. Consistent with the certified nursing facility's final staffing data submission to the federal direct care data system for the applicable quarter, and
 2. Based on all direct care services labor categories and all direct care staff job codes specified in the most recent CMS instructions for the federal direct care data system.
- c. If necessary to correct one (1) or more of the three (3) monthly reports following data validation and based on the final staffing data reported to the federal direct care data system for the applicable quarter, the facility shall promptly file an amended monthly report(s) with the department within fifteen (15) days of the federal direct care data system reporting deadline for the quarter.
- d. The monthly reports shall show the following information:
1. The full name and license number of the reporting nursing facility.
 2. The month and year for which the report is provided and whether the report is an original or amended report for that month.
 3. For each direct care job code for which the facility had staff (employed, contracted, agency, or consultants) providing any direct care services in the month, the total number of direct care hours by all staff in that job code combined. For example, for the certified nurse aide (CNA) job code, the report would show (a) the aggregate total of all direct care hours provided by all the facility's CNAs combined and (b) not the granular information, such as hours by individual staff person, reported to the federal direct care data system.
 4. Grand total of direct care services hours provided in the month.
 5. The number of calendar days in the monthly reporting period.
 6. Average daily resident census for the month (the sum of the total of each daily resident census for all days in the month divided by the number of calendar days in the month).
 7. The average direct care hours per resident day for the month (the grand total of direct care services hours provided in the month divided by the average daily resident census for the month).

8. For the month, the difference between the actual average direct care hours per resident day and the three and thirty-six hundredths (3.36) average direct care hours per resident day standard required under Arkansas Code § 20-10-1402(a)(2), with an indication of whether the actual hours provided met or exceeded the standard or did not meet the standard.
- e. The monthly reporting under this section is not intended to duplicate or exceed the comprehensive federal direct care data system, require reporting at the level of detail required by the federal direct care data system, or require reporting not otherwise necessary to meet Arkansas Code § 20-10-1402(b).
- f. Consistent with Arkansas Code § 20-10-1402(e), this section does not require or advise any specific or minimum number of nursing staff hours, direct care staff hours, or hours of other services for any nursing facility resident. The services an individual resident receives is based on baseline and comprehensive, person-centered care plans required under 42 CFR § 483.21 and are governed by the services and staffing-related requirements in 42 CFR Part 483 Subpart B.
- g. To ensure compliance with the requirements of this subsection, the department may:
 1. Audit the monthly reports and request documentation from a certified nursing facility;
 2. Review a facility's quarterly submissions to federal direct care data system;
 3. Compare a facility's monthly reports under this subsection with its corresponding quarterly submissions to the federal direct care data system;
 4. Review the results of federal audits of facility submissions to the federal direct care data system; and
 5. Request demonstrations of the vendor payroll and other systems nursing facilities commonly use to report direct care hours.

520.5 Average Direct Care Hours Per Resident Day; Private Pay-Only Nursing Facilities

- a. Each private pay-only nursing facility shall:
 1. Provide each month direct care services by direct care staff equivalent to at least three and thirty-six hundredths (3.36) average direct care hours per resident day; and
 2. On or before the fifteenth day of each month, report electronically to the department the facility's actual average direct care hours per resident day for the prior month.
- b. In determining and reporting direct care hours as required:
 1. A private pay-only facility shall follow the same or substantially comparable process required of certified nursing facilities under sub-section 520.4. The

process is the same, except a private pay-only facility would not formally submit data to the federal direct care data system.

2. Unless the department approves an alternative, the private pay-only facility shall:
 - (a) Use the same or substantially comparable payroll and time tracking system capabilities or software that certified nursing facilities use to support reporting to the federal direct care data system and preparation of monthly reports under subsection 520.4;
 - (b) Produce and provide to the department quarterly direct care staffing reports consistent with the detailed quarterly reports that certified nursing facilities are required to submit to the federal direct care data system; and
 - (c) Report direct care staffing hours to the federal direct care data system when the Centers for Medicare and Medicaid Services subsequently permits non-certified licensed nursing facilities to use the system.
3. A process or system is substantially comparable if it records the same data or information and has the same capabilities or software as the federal reporting system.
- c. The department may audit these monthly reports and request documentation from the private pay-only facility to ensure compliance with the requirements of this subsection.

520.6 Certified Medication Assistants

- a. Any licensed nursing facility may elect to use certified medication assistants (medication assistants-certified) to perform the delegated nursing function of medication administration and related tasks under the supervision of a licensed nurse on the premises and consistent with the medication assistant rules of the Arkansas Board of Nursing.
- b. A person who is both a certified medication assistant and certified nurse aide may perform both functions in a nursing facility.

520.7 Modern Staffing Practices Supported

- a. A licensed nursing facility may:
 1. Engage the services of direct care staff and other personnel on a full-time or part-time basis and through employment, contracting, and staffing agencies, or any combination thereof;
 2. Use fixed schedules, flex-time, rotating shifts, split shifts, compressed workweeks, and other alternative staffing schedules; and
 3. Use the universal worker model and assign other tasks to some or all certified nurse aides, (such as food service, laundry, and housekeeping) in addition to their direct care responsibilities;

- (a) The universal worker option applies to both traditional and home-style type nursing facilities.
- (b) For certified nurse aides serving as universal workers, the facility must ensure that direct care and non-direct care hours are properly differentiated for monthly reports under subsections 520.4 and 520.5 and quarterly reporting to the federal direct care data system.
- b. Without limitation under department rules or need of a waiver or permission from the department, a licensed nursing facility may engage in any staffing-related practice permitted under federal requirements of participation.

520.8 Posting of Staffing Information

Each licensed nursing facility shall comply with the information posting requirements of 42 CFR § 483.35.

520.9 Waivers and Variances

- a. In the event of a public health emergency, natural disaster, other major emergency, or severe labor shortage, the department may temporarily waive the average direct care hours per resident day standard in subsections 520.4 and 520.5 for any certified facility in a county or the state.
- b. In the event of a public health emergency, a natural disaster, or other emergency declared by the Governor or the U.S. Secretary of Health and Human Services, the department may issue a temporary waiver or variance of any rule (including any staffing-related rule) that it determines reasonable and necessary under one (1) or more of the following circumstances:
 - 1. For licensed nursing facilities and ICFs-IID to (a) provide resident care; (b) protect the health and safety of residents, staff, and visitors; (c) meet staffing needs; (d) meet new federal requirements or guidance; (e) coordinate care delivery and emergency response with hospitals, physicians, other providers, and public health or emergency management authorities; or (f) adopt alternative staffing, practices, procedures, or technology; or
 - 2. In response to any federal waiver or requirement modification issued under 42 U.S.C. 1320b-5, 42 CFR Part 483, or other federal authority.
- c. A request for a waiver or variance must be made in writing by a licensed nursing facility to the division director. The request must contain details of the reason for the waiver or variance and the potential impact to the facility if said waiver or variance is not granted.
- d. The department may approve or deny a waiver or variance request at its discretion. Approvals and denials must be made in writing.
- e. The department may extend or renew an approved waiver or variance and may impose such conditions it deems necessary to (1) protect the health and safety of facility

residents and staff, (2) meet federal requirements or guidance, or (3) best meet the intended purpose of the waiver or variance.

520 MINIMUM DIRECT-CARE STAFFING REQUIREMENTS

520.1 DEFINITIONS

For purposes of this rule, and unless otherwise specified herein, the following definitions shall apply. The following definitions are independent of, and in no way are intended to modify, amend or otherwise change, the definitions set forth in the Reimbursement Methodology.

520.1.1 *Direct-care staff* means any licensed or certified nursing staff who provides direct, hands-on care to residents in a nursing facility. *Direct-care Staff* shall not include therapy personnel or individuals acting as Director of Nursing for a facility.

520.1.2 *Midnight census* means the number of residents occupying nursing home beds in a nursing facility at midnight of each day.

520.1.3 *Day shift* means the period of 7:00 a.m. to 3:00 p.m.; or, in the event of flex staffing, the first shift to begin after midnight.

520.1.4 *Evening shift* means the period of 3:00 p.m. to 11:00 p.m.; or, in the event of flex staffing, the second shift to begin after midnight.

520.1.5 *Night shift* means the period of 11:00 p.m. to 7:00 a.m.; or, in the event of flex staffing, the third shift to begin after midnight.

520.1.6 *Therapy personnel* shall include certified or licensed Medicare Part A Therapy personnel when they are performing, or billing for, Medicare Part A therapy services.

520.1.7 *Flex staffing* means the ability to vary the beginning and ending hours of a shift from the times set forth in **520.1.3** through **520.1.5**.

520.1.8 *Pattern of failure* means a facility did not meet the minimum staffing requirements for more than twenty percent (20%) of the total number of shifts for any one month.

520.1.9 *Resident census* means the midnight census as defined in **520.1.2** taken prior to the shift in question.

520.2 RATIO OF DIRECT-CARE STAFF TO RESIDENTS—COMPUTATION

520.2.1 Minimum staffing computations shall be performed using the following method:

Step 1—Determine the midnight census for the date the shift begins.

Step 2—Divide the census by the ratio of direct-care staff required for the shift being computed. The result will be the ***total number of direct-care staff required for the shift.***

Step 3—Divide the census by the required ratio of licensed personnel for the shift being computed. The result will be the ***total number of licensed direct-care staff required for the shift.***

Step 4—Subtract the results of Step 3 from the results of Step 2. The result will be the ***total number of remaining direct-care staff required for the shift.***

520.2.2 All computations shall be carried to the hundredth place. If the computations result in other than a whole number of direct-care staff for a shift, the number shall be rounded up to the next whole number when the computation, carried to the hundredth place, is fifty-one hundredths (.51) or higher.

520.2.3 Facilities shall have no less than one (1) licensed personnel per shift for direct-care staff as of July 1, 2001.

520.3 MINIMUM DIRECT-CARE STAFF RATIOS

5.20.3.1 Beginning October 1, 2003, facilities shall maintain the following direct-care staff to resident ratios:

520.3.1.1 Day Shift: One (1) direct-care staff to every six (6) residents; of which there shall be one (1) licensed nurse to every forty (40) residents.

520.3.1.2 Evening Shift: One (1) direct-care staff to every nine (9) residents; of which there shall be one (1) licensed nurse to every forty (40) residents.

520.3.1.3 Night Shift: One (1) direct-care staff to every fourteen (14) residents; of which there shall be one (1) licensed nurse to every eighty (80) residents.

Beginning October 1, 2003

Example The facility has a census of eighty-two (82) residents as of midnight on December 10, 2003, and is computing the required direct-care staff for the day shift of December 11, 2003. The day shift has a direct-care staff to resident ratio of one (1) direct-care staff to every six (6) residents, of which there shall be one (1) licensed staff member to every forty (40) residents.

Step 1: Census of 82

Step 2: $82 \div 6 = 13.67$ [Round to 14; total number of direct-care staff required]

Step 3: $82 \div 40 = 2.05$ [Round to 2; number of licensed direct-care staff required]

Step 4: $14 - 2 = 12$ [Number of remaining direct-care staff required]

Total number of direct care staff for the day shift: 14
Total number of licensed direct care staff for the day shift: 2
Total number of remaining direct care staff for the day shift: 12

Example The facility has a census of ninety seven (97) residents as of midnight on January 3, 2004, and is computing the required direct care staff for the evening shift. The evening shift has a direct care staff to resident ratio of one (1) direct care staff to every nine (9) residents, of which there shall be one (1) licensed staff member to every forty (40) residents.

Step 1 — Census of 97

Step 2 — $97 \div 9 = 10.77$ [Round to 11; total number of direct care staff required]

Step 3 — $97 \div 40 = 2.42$ [Round to 2; number of licensed direct care staff required]

Step 4 — $11 - 2 = 9$ [Number of remaining direct care staff required]

Total number of direct care staff for the evening shift: 11
Total number of licensed direct care staff for the evening shift: 2
Total number of remaining direct care staff for the evening shift: 9

Example The facility has a census of one hundred forty two (142) residents as of midnight on December 7, 2003, and is computing the required direct care staff for the night shift. The night shift has a direct care staff to resident ratio of one (1) direct care staff to every fourteen (14) residents, of which there shall be one (1) licensed staff member to every eighty (80) residents.

Step 1 — Census of 142

Step 2 — $142 \div 14 = 10.14$ [Round to 10; total number of direct care staff]

Step 3 — $142 \div 80 = 1.77$ [Round to 2; number of licensed direct care staff]

Step 4 — $10 - 2 = 8$ [Number of remaining direct care staff]

Total number of direct care staff for the night shift: 10
Total number of licensed direct care staff for the night shift: 2
Total number of remaining direct care staff for the night shift: 8

520.4 — EXCEPTIONS TO MINIMUM STAFFING RATIOS

520.4.1 Upon an increase in a facility's resident census, the facility shall be exempt from any corresponding increase in staffing ratios for a period of nine (9) consecutive shifts beginning with the first shift following the midnight census for the date of the expansion of the resident census.

520.4.2 When residents are relocated or transferred from facilities due to natural disaster, emergency or as a result of state or federal action, the Department of Human Services may waive, for a period of no more than three (3) months from the date of transfer, some or all of any required increase in direct care

staff for the facility or facilities to whom the residents are relocated or transferred. Waivers will only be granted for good cause shown, and upon telephone, facsimile or written request. A grant of a waiver is within the sole discretion of the Office of Long Term Care. Facilities may apply for a waiver by writing the Director of the Office of Long Term Care. The written request should state, at a minimum:

- a. The date of the transfer for each resident;
- b. The number of residents transferred for each date in which residents were received from another facility;
- c. The anticipated date by which the facility will be able to meet the increased number of minimum staff for the total number of residents of the entire facility, including all residents received in transfer;
- d. The name of the facility from which the residents were transferred; and
- e. A brief explanation as to why the facility's staffing cannot be increased prior to the anticipated increase date set out in c, above.

520.5 STAFFING REPORTS

520.5.1 By the fifth (5th) day of each month, each nursing facility or nursing home shall submit a written report of all shifts for the preceding month to the Office of Long Term Care, utilizing form **DMS-718**.

520.5.2 In addition, each report shall designate the shifts in which minimum staffing standards were not met, as set forth in form **DMS-718**.

520.6 FLEX STAFFING

520.6.1 Flex staffing permits facilities to vary the beginning and ending hours for shifts, so that facilities may maximize staff time to the benefit of residents. Regardless whether a facility employs shifts of greater duration than specified in these rules—such as ten (10) or twelve (12) hour shifts—for purposes of computing minimum staffing ratios the facility shall base their computations on three shifts of equal length. Facilities can, however, designate that their shifts will begin earlier or later than specified in Sections **520.1.3** through **520.1.5**.

520.6.2 When facilities utilize flex staffing, the shifts must meet the staffing requirements set forth herein for the entire period of the shift. As way of example only, if a facility begins a shift at 5:30 a.m., the minimum staffing requirements for that shift, which would end at 1:30, would be minimum staffing requirements for the Day Shift as set forth in Sections **520.1.3** through **520.1.5**, and those minimums must be maintained throughout the entire shift.

5.20.6.3 ~~The Office of Long Term Care shall be notified in writing when a facility implements a flex staffing schedule. The written notice shall state the beginning and ending hours of each shift under the flex staffing.~~

5.20.7 PENALTIES

~~Violations of these rules shall be punishable in accordance with Ark. Code Ann. § 20-10-1407 and 20-10-1408.~~

5.20.8 RESIDENT CARE NEEDS AND INCREASES IN STAFFING

~~The staffing standards set forth in Section 520.3 are *minimum* requirements that facilities must meet at all times, except as provided herein. In the event that the Office of Long Term Care determines that sufficient personnel are not employed or available to meet resident care needs, the Office of Long Term Care may require the facility to either increase staff on a per shift basis or reduce resident census. In such cases, the Office of Long Term Care will notify the facility in writing of its determination, including the basis for the determination. In addition, the Office of Long Term Care will state the number of additional staff that must be employed or available and the date by which the additional staff must be employed or available; the amount by which the resident census must be reduced and the date by which that reduction must be achieved; or both.~~

~~In the event that the Director of the Office of Long Term Care determines that minimum staffing standards should be increased pursuant to Ark. Code Ann. § 20-10-1409(b)(2), the Director of the Office of Long Term Care shall certify the determination and any proposed regulatory increases to minimum staffing standards to the Director of the Division of Medical Services, who shall notify the Director of the Department of Human Services and the Legislative Council of the determination, and whether sufficient appropriated funds exist to fund the costs, as defined as direct care costs by the Long Term Care Cost Reimbursement Methodology of the Long Term Care Provider Reimbursement Manual as in effect January 12, 2001, to be incurred by the proposed changes to the minimum staffing standards.~~

~~In no event shall minimum staffing standards be increased unless sufficient appropriated funds exist to fund the costs to be incurred by the proposed increases to minimum staffing standards.~~

MINIMUM STAFFING REPORTING FORM

THIS REPORT MUST BE TYPED. All fields must be completed for each reporting period. Indicate any shift in which minimum staffing requirements were not met by placing an asterisk beside the number of personnel for that shift for each category in which minimum staffing was not met. For example, if minimum staffing was not met for the Day Shift of the third day of the month because of insufficient direct care staff that were not licensed staff, an asterisk would be placed after the numbers in both the Total and Other fields.

For An Act To Be Entitled

AN ACT TO MODERNIZE AND STRENGTHEN NURSING FACILITY STAFFING STANDARDS AND REPORTING REQUIREMENTS; TO ELIMINATE OUTDATED AND EXTRANEIOUS STATE REQUIREMENTS THAT DUPLICATE HIGHLY PROSCRIPTIVE FEDERAL STAFFING AND DATA REPORTING REQUIREMENTS THAT ALL MEDICARE AND MEDICAID NURSING FACILITIES FOLLOW; TO PROVIDE FOR A MINIMUM AVERAGE NUMBER OF DIRECT CARE HOURS PER RESIDENT PER DAY; AND FOR OTHER PURPOSES.

Subtitle

TO MODERNIZE AND STRENGTHEN NURSING FACILITY STAFFING STANDARDS AND REPORTING REQUIREMENTS.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF ARKANSAS:

SECTION 1. DO NOT CODIFY. Legislative findings and intent.

(a) The General Assembly finds that:

(1) Every state-licensed nursing facility certified to participate in the federal Medicare program, the Arkansas Medicaid Program, or both, must adhere to comprehensive, highly proscriptive federal

regulations, which are enforced by both the Centers for Medicare and Medicaid Services and the Department of Human Services in its role under federal law as the state survey agency;

(2) Except for one (1) private pay facility that is subject to state-level regulation only, every licensed nursing facility in this state is Medicare-certified, and all but two (2) are dually certified in the federal Medicare program and the Arkansas Medicaid Program;

(3) Federal requirements include standards, safeguards, and detailed, transparent data reporting on direct care staffing, with modern definitions of direct care services and staffing;

(4) Under federal law, Medicare and Medicaid nursing facilities are required to provide each resident with necessary direct care services based on individual assessments and individual, person-centered care plans, regardless of any requirements on facility staffing levels; and

(5) Current Arkansas laws and Department of Human Services rules on nursing facility staffing practices and staff reporting, which were first adopted decades ago:

(A) Are outdated and extraneous;

(B) Duplicate highly proscriptive federal regulations all nursing facilities must meet to participate in the federal Medicare program or the Arkansas Medicaid Program;

(C) Unnecessarily restrict the use of modern staffing practices permitted under federal regulations; and

(D) Fail to recognize the full range of professions available to care for the complex skilled needs of elderly nursing facility residents, including medication assistants, nurse practitioners, licensed therapists, physician assistants, and infection preventionists.

(b) It is the intent of the General Assembly to:

(1) Remove the outdated, extraneous, and duplicative state laws;

(2) Remove the unnecessarily restrictions regarding the use of modern staffing practices permitted under federal regulations; and

(3) Recognize the full range of professions available to care for the complex skilled needs of elderly nursing facility residents.

SECTION 2. Arkansas Code § 20-10-211 is repealed.

~~(b)(1) Except for nursing facilities that the Office of Long-Term Care designates or certifies as Eden Alternative nursing facilities or Green House Project nursing facilities, the staffing standard required by this subchapter shall be the minimum number of direct care staff required by nursing facilities and shall be adjusted upward to meet the care needs of residents.~~

~~(2)(A) The office shall promulgate staffing standards for nursing facilities that the office designates or certifies as Eden Alternative nursing facilities or Green House Project nursing facilities.~~

SECTION 4. Arkansas Code §§ 20-10-1403 through 20-10-1409 are repealed.

~~20-10-1403. Ratio of staff to residents.~~

~~(a) Except for nursing facilities that the Office of Long-Term Care designates as Eden Alternative nursing facilities or Green House Project nursing facilities, all nursing facilities shall maintain the following minimum direct-care staffing to resident ratios:~~

~~(1) One (1) direct-care staff to every six (6) residents for the day shift. Of this direct-care staff, there shall be at least one (1) licensed nurse to every forty (40) residents;~~

~~(2) One (1) direct-care staff to every nine (9) residents for the evening shift. Of this direct-care staff, there shall be at least one (1) licensed nurse to every forty (40) residents; and~~

~~(3) One (1) direct-care staff to every fourteen (14) residents for the night shift. Of this direct-care staff, there shall be at least one (1) licensed nurse to every eighty (80) residents.~~

~~(b)(1) Licensed direct-care staff shall not be excluded from the computation of the ratios of direct-care staff to residents while serving in a staffing capacity that requires less education and training than is commensurate with their professional licensure.~~

~~(2) Licensed direct-care staff who serve in a staffing capacity that requires less education and training than is commensurate with their professional licensure shall not be restricted from providing direct-care services within the scope of their professional licensure in order to be included in the computation of the ratios of direct-care staff to residents.~~

~~(c) Nursing facilities shall provide in-service training to their direct-care staffs pursuant to rules promulgated by the office.~~

~~(d) Upon any expansion of resident census by the facility, the facility shall be exempt from any increase in staffing ratios for a period of nine (9) consecutive shifts from the date of the expansion of resident census.~~

~~(e)(1) The computation of the direct-care minimum staffing ratios shall be carried to the hundredth place.~~

~~(2) If the application of the ratios listed in subsection (a) of this section results in other than a whole number of direct care staff for a shift or shifts, the number of required direct care staff shall be rounded to the next higher whole number when the resulting ratio, carried to the hundredth place, is fifty one hundredths (.51) or higher.~~

~~(3) In no event shall a facility have fewer than one (1) licensed nurse per shift for direct care staff.~~

~~(4) All computations shall be based on the midnight census for the day in which the shift or shifts begin.~~

~~(f)(1) Facilities may vary the starting hour and the ending hour for up to twenty five percent (25%) of the minimum direct care staff of the day shift or the evening shift, or both, to meet resident care needs.~~

~~(2) Before varying the starting hour and the ending hour of direct care staff of the day shift or the evening shift, the facility shall inform the office in writing of:~~

~~(A) The resident care needs to be met by the change in starting and ending times of the shift;~~

~~(B) The number of direct care staff to whom the changes will apply;~~

~~(C) The starting hour and ending hour of the shift for the direct care staff to whom the change will apply; and~~

~~(D) The length of time the variations will be used, if known.~~

~~(3)(A) The facility shall receive written approval from the office before the facility may vary the starting hour and ending hour of a shift for selected direct care staff.~~

~~(B) The office may deny approval upon determination that:~~

~~(i) The reason for the request to vary the starting and ending time of a shift for selected direct care staff does not meet resident care needs;~~

~~(ii) The facility was in a pattern of failure for any month in the three (3) months immediately preceding the request; or~~

~~(iii) The variation will result in a period of more than two (2) hours in which there is less than the minimum required number of direct care staff under subsection (a) of this section.~~

~~(C) The office may revoke approval to vary the starting~~

~~and ending time of a shift for selected direct care staff if the office determines that:~~

~~(i) The approval has resulted in resident care needs being unmet; or~~

~~(ii) The facility is in a pattern of failure.~~

~~(4) If a facility varies the starting and ending times for direct care staff of the day shift or the evening shift, or both, the facility shall be deemed to have met minimum staffing requirements for that shift if the number of direct care staff whose starting and ending times are varied and the number of direct care staff whose starting and ending times are not varied together equal the number of direct care staff required for the shift.~~

~~20-10-1404. Director of nurses.~~

~~(a) In addition to the minimum direct care staffing ratios in § 20-10-1403, each nursing facility shall employ a registered nurse to serve as director of nurses.~~

~~(b)(1) The director shall be a full-time employee and shall be employed for no less than forty (40) hours per week.~~

~~(2) An additional registered nurse shall be employed for a minimum of sixteen (16) hours per week to ensure coverage seven (7) days a week.~~

~~20-10-1405. Services provided.~~

~~(a) An employee designated as a member of the direct care staff shall not be required to provide services such as food preparation, housekeeping, laundry, or maintenance services except as necessary to maintain a safe and sanitary environment.~~

~~(b) Persons employed to provide additional services such as food preparation, housekeeping, laundry, or maintenance services shall not be counted in determining the staffing ratios required by this subchapter unless the persons are qualified to serve as and specifically scheduled in a direct-care capacity.~~

~~(c) A person employed to provide additional services shall count toward the direct care staffing ratios only for the time in which the facility can document that the person provides direct care services.~~

~~20-10-1406.—Posting of personnel numbers.~~

~~(a)(1) Each nursing facility shall post daily at the beginning of each shift in a prominent place within twenty feet (20') of the main entrance of the nursing facility and in a location that is readily accessible and visible to residents and visitors the number of direct care staff on duty at each shift.~~

~~(2) The posting shall consist of a sign-in sheet signed by each staff member as the staff member reports to work, and the staff member shall indicate on the sheet the time of arrival and departure, all halls, wings, or corridors on which the staff member worked or was assigned, and the total number of hours worked.~~

~~(3) The title of the posting shall be printed in a type no smaller than 18 point type.~~

~~(4) Below the posting, the nursing facility shall post a diagram of the facility showing the location of each hall, wing, or corridor.~~

~~(b) The current number of residents shall be posted and filed with the staffing report for the same time period.~~

~~(c) These records shall be filed and saved by the nursing facility until the next survey or for eighteen (18) months, whichever is greater, and these records shall be available for review by any interested person upon a written request.~~

~~20-10-1407.—Report.~~

~~(a)(1) By the fifth day of each month, each nursing facility shall submit a written report of all shifts which failed to meet the minimum staffing requirements of this subchapter during the preceding month to the Office of Long-Term Care.~~

~~(2) Upon determination by the office that a pattern of failure to comply with the provisions of this subchapter has occurred, the nursing facility shall submit to the office on a monthly basis a report stating the ratios of direct care staff to residents for each shift, in addition to the requirements set forth in subdivision (a)(1) of this section.~~

~~(3) Each nursing facility also shall submit copies of all daily staffing logs for the same months for any reports required under subdivision (a)(1) or subsection (b) of this section.~~

~~(b) The failure of a direct care staff member or members to sign the posted sign in sheet in accordance with § 20-10-1406 shall not be considered a violation of the staff-resident ratios set forth in § 20-10-1403 if the facility has other documentation that the staff member or members provided direct care services for the dates and times stated by the facility.~~

~~(c) The failure to meet the requirement regarding the posting of current staff-resident ratios set forth in § 20-10-1406 or the failure to provide staffing reports, logs, or other documentation directly related to minimum staffing standards to the office or the Division of Medical Services of the Department of Human Services is a Class C violation in accordance with § 20-10-205.~~

~~(d) "Pattern of failure" means that a facility did not meet the minimum staffing requirements of this subchapter for more than twenty percent (20%) of the total number of shifts for any one (1) month.~~

~~(e)(1) The division may perform staffing audits, including random staffing audits, of nursing facilities to determine and ensure compliance with the requirements of this subchapter.~~

~~(2) Facilities shall provide staffing reports, logs, or other documentation upon request of the division.~~

~~20-10-1408. Penalties.~~

~~(a) Upon a determination of a pattern of failure of a facility by the Office of Long-Term Care, the following penalties shall be applied to the facility:~~

~~(1) When the pattern of failure is more than twenty percent (20%) but less than twenty-five percent (25%) of the total number of shifts for any one (1) month, the facility shall be assessed a fine of two thousand five hundred dollars (\$2,500);~~

~~(2) When the pattern of failure is twenty-five percent (25%) or higher but less than thirty percent (30%) of the total number of shifts for any one (1) month, the facility:~~

~~(A) Shall be assessed a fine of five thousand dollars (\$5,000); and~~

~~(B)(i) Shall be prohibited from admitting new residents for a period of at least two (2) weeks beginning the next business day after notification by the office to the facility of the pattern of failure and~~

continuing until the next business day after the facility submits a report establishing that the facility was not in a pattern of failure for the time during which the facility was prohibited from admitting new residents.

(ii) If the office subsequently determines that the facility did not meet the minimum staffing standards requirements as alleged in the report from the facility, the office shall prohibit the facility from admitting new residents for a period of at least two (2) weeks, and continuing until the next business day after the facility submits a new report establishing that the facility was not in a pattern of failure for the time in which the facility was prohibited from admitting new residents;

(3) When the pattern of failure is thirty percent (30%) or higher of the total number of shifts for any one (1) month in a three-month reporting period, the facility:

(A) Shall be assessed a fine of seven thousand five hundred dollars (\$7,500); and

(B)(i) Shall be prohibited from admitting new residents for a period of at least two (2) weeks beginning the next business day after notification by the office to the facility of the pattern of failure and continuing until the next business day after the facility submits a report establishing that the facility was not in a pattern of failure for the time during which the facility was prohibited from admitting new residents.

(ii) If the office subsequently determines that the facility did not meet the minimum staffing standards requirements as alleged in the report from the facility, the office shall prohibit the facility from admitting new residents for a period of at least two (2) weeks and continuing until the next business day after the facility submits a new report establishing that the facility was not in a pattern of failure for the time in which the facility was prohibited from admitting new residents; and

(4) If after five (5) days' notice from the office of the imposition of a denial of new admissions, a facility admits new residents during a period in which the facility is prohibited from admitting new residents, the facility shall be assessed a fine of twenty-five thousand dollars (\$25,000) per new resident admitted.

(b) The penalties stated in this subchapter are supplemental to any provisions in state or federal laws, rules, or regulations.

(c) Appeals from the imposition of any remedy imposed under this

1 ~~subchapter shall be made pursuant to § 20-10-208.~~

2 ~~(d)(1) When residents are relocated from facilities due to natural~~
 3 ~~disaster or as a result of state or federal action, the Department of Human~~
 4 ~~Services may waive some or all of the provisions of §§ 20-10-1403 and 20-10-~~
 5 ~~1404 for facilities to which the residents are relocated.~~

6 ~~(2) Any waiver shall be limited to no more than three (3) months~~
 7 ~~from the date of transfer.~~

10 ~~(a) The staffing standards as set forth in § 20-10-1403 are to be~~
 11 ~~construed as nursing facility staffing standards above the 1989 standards~~
 12 ~~established by the Office of Long-Term Care.~~

13 ~~(b)(1) If the Secretary of the Department of Human Services determines~~
 14 ~~that the reimbursement methodology or available funding is insufficient or~~
 15 ~~unable to pay for the minimum staffing standards under § 20-10-1403, the~~
 16 ~~office, by rule, may modify the requirements of § 20-10-1403 to ensure~~
 17 ~~minimum staffing funds.~~

18 ~~(2) If the Director of the Office of Long-Term Care determines~~
 19 ~~that the minimum staffing standards under § 20-10-1403 or § 20-10-1404 have~~
 20 ~~become insufficient at any time to ensure the health, safety, or welfare of~~
 21 ~~nursing facility residents, by rule, the office may increase minimum staffing~~
 22 ~~standards or otherwise promulgate rules to ensure the health, safety, or~~
 23 ~~welfare of the nursing facility residents.~~

24 ~~(c)(1)(A) If the Director of the Office of Long-Term Care determines~~
