# SECTION II - ARKANSAS INDEPENDENT ASSESSMENT (ARIA) CONTENTS

**TOC** required

200.000 **OVERVIEW** 

201.000 Arkansas Independent Assessment (ARIA) System Overview

11-1-18

The Arkansas Independent Assessment (ARIA) system is comprised of several parts that are administered through separate steps for each eligible Medicaid individual served through one of the state's waiver programs, or state plan personal care services. The purpose of the ARIA system is to perform a functional-needs assessment to assist in the development of an individual's Person Centered Service Plan (PCSP), personal care services plan. As such, it assesses an individual's capabilities and limitations in performing activities of daily living such as bathing, toileting and dressing. It is not a medical diagnosis, although the medical history of an individual is an important component of the assessment as a functional deficiency may be caused by an underlying medical condition. In the case of an individual in need of behavioral health services, or waiver services administered by the Division of Developmental Services (DDS), the independent assessment does not determine whether an individual is Medicaid eligible as that determination is made prior to and separately from the assessment of an individual.

Federal statutes and regulations require states to use an independent assessment for determining eligibility for certain services offered though Home and Community Based Services (HCBS) waivers. It is also important to Medicaid beneficiaries and their families that any type of assessment is based on tested and validated instruments that are objective and fair to everyone. In 2017, Arkansas selected the ARIA system which is being phased in over time among different population groups. When implemented for a population, the ARIA system replaces and voids any previous IA systems.

The ARIA system is administered by a vendor under contract with the Arkansas Department of Human Services (DHS). The basic foundation of the ARIA system is MnCHOICES, a comprehensive functional assessment tool originally developed by state and local officials in Minnesota for use in assessing the long-term services and supports (LTSS) needs of elderly individuals. Many individuals with developmental disabilities (DD)/intellectual disabilities (ID) and individuals with severe behavioral health needs also have LTSS needs. Therefore, the basic MnCHOICES tool has common elements across the different population groups. DHS and its vendor further customized MnCHOICES to reflect the Arkansas populations.

ARIA is administered by professional assessors who have successfully completed the vendor's training curriculum. The assessor training is an important component of ensuring the consistency and validity of the tool. The assessment tool is a series of more than 300 questions that might be asked during an interview conducted in person. The interview may include family members and friends as well as the Medicaid beneficiary. How a question is answered may trigger another question. Responses are weighted based on the service needs being assessed. The MnChoices instrument is computerized and uses computer program language based on logic (an algorithm) to generate a tier assignment for each individual. An algorithm is simply a sequence of instructions that will produce the exact same result in order to ensure consistency and eliminate any interviewer bias.

The results of the assessment are provided to the individual and program staff at DHS. The results packet includes the individual's tier result, scores, and answers to all questions asked during the IA. Click here to see an example results packet. Individuals have the opportunity to review those results and may contact the appropriate division for more information on their

individual results, including any explanations for how their scores were determined. Depending upon which program the individual participates in, the results may also be given to service providers. The results will assign an individual into a tier which subsequently is used to develop the individual's PCSP. The tiers and tiering logic are defined by DHS and are specific to the population served (personal care, DD/ID, BH). DHS and the vendor provide internal quality review of the IA results as part of the overall process. The tier definitions for each population group/waiver group are available in the respective section of this Manual. In the case of an individual whose services are delivered through the Provider-led Arkansas Shared Savings Entity (PASSE), the tier is used in the determination of the actuarially sound global payment made to the PASSE. Beginning January 1, 2019, each PASSE is responsible for its network of providers and payments to providers are based on the negotiated payment arrangements.

For beneficiaries receiving state plan personal care, the IA determines initial eligibility for services, then is used to inform the amount of services the beneficiary is to receive.

For clients who receive HCBS services, the IA results are used to develop the PCSP with the individual Medicaid beneficiary. The Medicaid beneficiary (or a parent or guardian on the individual's behalf) will sign the PCSP. Depending upon which program the individual participates in, department staff or a provider is responsible for ensuring the PCSP is implemented. The DHS ARIA vendor does not participate in the development of the PCSP, nor in the provision of services under the approved plan.

There are four key features of every Medicaid home and community based services (HCBS) waiver:

- A. It is an alternative to care in an institutional setting (hospital, nursing home, intermediate care facility for individuals with developmental disabilities), therefore the individual must require a level of services and supports that would otherwise require that the individual be admitted to an institutional setting;
- B. The state must assure that the individual's health and safety can be met in a non-institutional setting;
- C. The cost of services and supports is cost effective in comparison to the cost of care in an institutional setting; and,
- D. The PCSP should reflect the preferences of the individual and must be signed by the individual or their designee.

The PCSP, as agreed to by the Medicaid beneficiary, therefore represents the final decision for setting the amount, duration and scope of HCBSs for that individual.

## 201.100 Developmental Screen Overview

11-1-18

Additionally, the vendor will perform developmental screens for children seeking admission into an Early Intervention Day Treatment (EIDT) program, the successor program to Developmental Day Treatment Clinic Services (DDTCS) and Child Health Management Services (CHMS) described in Act 1017 of 2013. Ark. Code Ann. § 20-48-1102. The implementation of the screening process supports Arkansas Medicaid's goal of using a tested and validated assessment tool that objectively evaluates an individual's need for services.

The developmental screen is the Battelle Developmental Inventory screening tool, which is a norm-referenced tool commonly used in the field to screen children for possible developmental delays. The state has established a broad baseline and will use this tool to screen children to determine if further evaluation for services is warranted. The screening results can also be used by the EIDT provider to further determine what evaluations for services a child should receive.

All Assessors who perform IAs or developmental screens on behalf of the vendor must meet the following qualifications:

- A. At least one-year experience working directly with the population with whom they will administer the assessment
- B. Have the ability to request and verify information from individuals being assessed
- C. Culturally sensitive to individuals assessed
- D. Have the necessary knowledge, skills and abilities to successfully perform and manage Independent Assessments including organization, time management, ability to address difficult questions and problematic individuals, effective communication, and knowledge of adult learning strategies
- E. Linguistically competent in the language of the individual being assessed or in American Sign Language or with the assistance of non-verbal forms of communication, including assistive technology and other auxiliary aids, as appropriate to the individual assessed or use the services of a telephonic interpreter service or other equivalent means to conduct assessments
- F. Verify the information received from the individual and the individual's family members, caregivers, and/or guardians by cross-referencing all available information
- G. SHALL NOT be related by blood or marriage to the individual or to any paid caregiver of the individual, financially responsible for the individual empowered to make financial or health-related decision on behalf of the individual, and would not benefit financially from the provision of assessed needs

203.000 Appeals 11-1-18

Appeal requests for the ARIA system must adhere to the policy set forth in the Medicaid Provider Manual Section 160.000 Administrative Reconsideration and Appeals which can be accessed at <a href="https://medicaid.mmis.arkansas.gov/Provider/Docs/all.aspx.">https://medicaid.mmis.arkansas.gov/Provider/Docs/all.aspx.</a>

204.000 Severability 11-1-18

Each section of this manual is severable from all others. If any section of this manual is held to be invalid, illegal or unenforceable, such determination shall not affect the validity of other sections in this manual and all such other sections shall remain in full force and effect. In such an event, all other sections shall be construed and enforced as if this section has not been included therein.

## 210.000 BEHAVIORAL HEALTH SERVICES

## 210.100 Referral Process 11-1-18

Independent Assessment (IA) referrals are initiated by Behavioral Health (BH) Service providers identifying a beneficiary who may require services in addition to behavioral health counseling services and medication management. Requests for functional assessment shall be transmitted to the Department of Human Services (DHS) or its designee. Supporting documentation related to treatment services necessary to address functional deficits may be provided.

DHS or its designee will review the request and make a determination to either:

A. Finalize a referral and sent it to the vendor for a BH IA

- B. Provide notification to the requesting BH service provider that more information is needed
- C. Provide notification to the requesting entity

Reassessments will occur annually, unless a change in circumstances requires a new assessment.

## 210.200 Assessor Qualifications

11-1-18

In addition to the qualifications listed in Section 102.000, BH assessors must have a four (4) year Bachelor's degree or be a Registered Nurse with at least one year of mental health experience.

## 210.300 Tiering

11-1-18

## A. Tier definitions:

- 1. Tier 1 means the score reflected that the individual can continue Counseling and Medication Management services but is not eligible for the additional array of services available in Tier 2 or Tier 3
- 2. Tier 2 means the score reflected difficulties with certain behaviors allowing eligibility for a full array of non-residential services to help the beneficiary function in home and community settings and move towards recovery.
- 3. Tier 3 means in the score reflected difficulties with certain behaviors allowing eligibility for a full array of services including 24 hours a day/7 days a week residential services, to help the beneficiary move towards reintegrating back into the community.

## B. Tier Logic

1. Beneficiaries age 18 and over

	Tier 1 – Counseling and Medication Management Services	Tier 2 – Counseling, Medication Management, and Support Services	Tier 3 – Counseling, Medication Management, Support, and Residential Services
		Criteria that will Trigger Tiers	
	Does not meet criteria of Tier 2 or Tier 3	Mental Health Diagnosis Score of 4	Mental Health Diagnosis Score of 4
		AND	AND
		Intervention Score of 1 or 2 in any ONE of the following Psychosocial Subdomains:	Intervention Score of 3 or 4 in any ONE of the following Psychosocial Subdomains:
_		Injurious to Self	Injurious to Self

## 210.400 Possible Outcomes

11-1-18

- A. For a beneficiary receiving a Tier 1 determination:
  - 1. Eligible for Counseling and Medication Management services and may continue Tier 1 services with a certified behavioral health service provider.
  - 2. Not eligible for Tier 2 or Tier 3 services.
  - 3. Not eligible for auto-assignment to a Provider-led Arkansas Shared Savings Entity (PASSE) or to continue participation with a PASSE.
- B. For a beneficiary receiving a Tier 2 determination:
  - 1. Eligible for services contained in Tier 1 and Tier 2.
  - 2. Not eligible for Tier 3 services.
  - 3. Eligible for auto-assignment to a PASSE or to continue participation with a PASSE.

- a. On January 1, 2019, the PASSE will receive a PMPM that corresponds to the determined rate for the assigned tier.
- b. The PASSE will be responsible for providing care coordination an assisting the beneficiary in accessing all needed services and, after January 1, 2019, for providing those services.
- C. For a beneficiary receiving a Tier 3 determination:
  - 1. Eligible for services contained in Tier 1, Tier 2 and Tier 3.
  - 2. Eligible for auto-assignment to a PASSE or to continue participation with a PASSE.
    - a. On January 1, 2019, the PASSE will receive a PMPM that corresponds to the determined rate for the assigned tier.
    - b. The PASSE will be responsible for providing care coordination and assisting the beneficiary in accessing all needed services and, after January 1, 2019, for ensuring those services are provided.

## 220.000 DEVELOPMENTAL / INTELLECTUAL DISABILITIES SERVICES

#### 220.100 Independent Assessment Referral Process

11-1-18

- A. Independent Assessment (IA) referrals are initiated by the Division of Developmental Disabilities (DDS) when a beneficiary has been determined, at one time, to meet the institutional level of care. DDS will send the referral for a Developmental Disabilities (DD) Assessment to the current IA Vendor. DDS will make IA referrals for the following populations:
  - 1. Clients receiving services under the Community and Employment Supports (CES) 1915(c) Home and Community Based Services Waiver.
  - 2. Clients on the CES Waiver Waitlist.
  - 3. Clients applying for or currently living in a private Intermediate Care Facility (ICF) for individuals with intellectual or developmental disabilities.
  - 4. Clients who are applying for placement at a state-run Human Development Center (HDC).
- To continue to receive services within these populations, all individuals referred will have to undergo the Independent Assessment.
- B. All populations, except for those served at an HDC, will be reassessed every three (3) years.
  - 1. An individual can be reassessed at any time if there is a change of circumstances that requires a new assessment.
  - 2. Individuals in an HDC will be assessed or reassessed if they are seeking transition into the community.

#### 220.200 Assessor Qualifications

11-1-18

In addition to the qualifications listed in Section 202.000, DD assessors must have at least twoyears' experience with the ID/DD population and meet the qualifications of a Qualified Developmental Disability Professional (QDDP).

220.300 Tiering 11-1-18

## A. Tier Definitions:

- 1. Tier 2 means that the beneficiary scored high enough in certain areas to be eligible for paid services and supports.
- 2. Tier 3 means that the beneficiary scored high enough in certain areas to be eligible for the most intensive level of services, **including 24 hours a day/7 days a week** paid supports and services.

## B. Tiering Logic:

- 1. DDS Tier Logic is organized by categories of need, as follows:
  - a. Safety: Your ability to remain safe and out of harm's way
  - b. Behavior: behaviors that could place you or others in harm's way
  - c. Self-Care: Your ability to take care of yourself, like bathing yourself, getting dressed, preparing your meals, shopping, or going to the bathroom

Tier 2: Institutional Level of Care	Tier 3: Institutional Level of Care and may need 24 hours a day 7 days a week paid supports and services to maintain current placement

Score of at least 4 in Eating

Score of at least 5 in Bathing

Score of at least 4 in Dressing

Score of at least 3 in Toileting

Score of at least 4 in Mobility

Score of at least 4 in Transfers

C. AND at least one of the following scores:

Caregiving Capacity/Risk Score of >= 10

Caregiving/Natural Supports Score of 7]

IADLs (Meal Preparation, Housekeeping, Finances, Shopping)]

When you see "<u>AND</u>", this means you must have a score in this area <u>AND</u> a score in another area. When you see "<u>OR</u>", this means you must have a score in this area <u>OR</u> a score in another area.

#### 220.300 Possible Outcomes

11-1-18

A. For beneficiaries on the CES Waiver, Waiver Waitlist, or in an ICF:

Both Tier 2 and Tier 3 determinations will result in the beneficiary being eligible for auto-assignment to a PASSE or to continue participation with a PASSE.

- 1. On January 1, 2019, the PASSE will receive a PMPM that corresponds to the determined rate for the assigned tier.
- 2. The PASSE will be responsible for providing care coordination and assisting the beneficiary in accessing all eligible services and, after January 1, 2019, for ensuring those services are delivered.
- B. For beneficiaries seeking admission to an HDC:
  - 1. Tier 2 Determination:
    - a. Not eligible for admission into an HDC, will be conditionally admitted to begin transitioning to community settings.
    - b. Eligible for auto-assignment to a PASSE or to continue participation with a PASSE.
      - i. After January 1, 2019, the PASSE will receive a PMPM that corresponds to the determined rate for the assigned tier.
      - ii. The PASSE will be responsible for providing care coordination and assisting the beneficiary in accessing all eligible services and, after January 1, 2019, for ensuring those services are provided.
  - 2. Tier 3 Determination:
    - a. Eligible for HDC admission.
    - b. Not eligible for auto-assignment to a PASSE or to continue participation with a PASSE, if the client chooses admission to the HDC.
- C. If the beneficiary does not receive a tier on the assessment, the vendor will refer him or her back to DDS for re-evaluation of institutional level of care.

## 220.400 Developmental Screens

11-1-18

All children birth through the eighth birthday, who are seeking initial enrollment or reenrollment in an Early Intervention Day Treatment (EIDT), or the predecessor programs, Developmental Day Treatment Clinic Services (DDTCS) or Child Health Management Services (CHMS) on or after July 1, 2018, must undergo a developmental screen to determine the necessity of further evaluation.

A provider can request that a child be "opted-out" of the screening process. An opt-out request will be approved if:

- A. The child has one of the following diagnoses:
  - 1. Intellectual disability;
  - 2. Epilepsy/Seizure disorder;

- Cerebral palsy;
- 4. Down Syndrome;
- 5. Spina Bifida; or
- 6. Autism Spectrum Disorder
- B. The diagnosis is documented on a record that is signed and dated by a physician.

## 220.410 Battelle Developmental Inventory Screen

11-1-18

- A. The screening tool that will be used by the vendor is the most recent edition of the Battelle Developmental Inventory (BDI) Screening Tool. The BDI screens children in the following five domains: adaptive, personal/social, communication, motor, and cognitive.
- B. Definitions used for the screening process:
  - Cut Score The lowest score a beneficiary could have for that age range and standard deviation in order to pass a particular domain.
  - 2. Pass The child's raw score is higher than the cut score, and the child is not referred for further evaluation
  - 3. Refer The child's raw score is lower than the cut score, and the child is referred for further evaluation of service need
  - 4. Age Equivalent Score The age at which the raw score for a subdomain is typical
  - 5. Raw Score Is the score the child actually received on that domain. It is compared to the cut score to determine if the child receives a pass or refer.
  - 6. Standard Deviation A measurement used to quantify the amount of variation; the standard deviation will be applied to the child's raw score so that their score can be compared to the score of a child with typical development.
- C. The standard deviation of -1.5 will be applied to all raw scores. Any score that is more than 1.5 standard deviations below that of a child with typical development will be referred for further evaluation for EIDT services.
- D. Assessors who administer the Battelle Developmental Inventory screen must meet the qualifications of a DD assessor, listed in Section X20.200 and undergo training specific to administering the tool.

## 220.420 Referral Process

11-1-18

- A. BDI referrals are initiated by EIDT providers when a family or guardian is seeking EIDT day habilitation services for a child who may need those service. No EIDT day habilitation or assessment services can be billed until a child is referred for further evaluation by the BDI or is approved for an opt-out, as described in section 220.400. Requests for screens or opt-out requests must be entered at <a href="https://ar-ia.force.com/providerportal/s/">https://ar-ia.force.com/providerportal/s/</a>.
- B. For a request for a BDI screen, the vendor will have fourteen (14) days from the date of the referral to complete the screen. The vendor will schedule at least two days a month to be onsite at each EIDT provider's facility to complete BDIs for all referrals received before the cut-off date. The cut-off date is two (2) business days prior to the scheduled onsite visit by the vendor.
- C. Opt-out requests submitted through the portal link above will be reviewed by DHS staff to determine if it meets the criteria set out in section 220.400 above.
  - 1. If the Opt-Out request is approved by DHS, the vendor will send a results letter to the family indicating that the child may be referred for further evaluation.

2. If the opt-out request is denied by DHS, the referral will be sent out to the vendor so that a BDI can be completed at the next scheduled onsite visit.

## 230.000 PERSONAL CARE SERVICES

#### 230.100 Referral Process

11-1-18

Independent Assessment (IA) referrals are initiated by Personal Care (PC) service providers identifying a beneficiary who may require PC services. After January 1, 2019, individuals who are enrolled in a PASSE will not require a personal care assessment to continue services. Requests for functional assessment shall be transmitted to the Department of Human Services (DHS) or its designee, and will require supporting documentation. Supporting documentation that must be provided include:

- A. A provider completed form that has been provided by DHS; and
- B. A referral form, if it is an initial referral.

DHS or its designee will review the request and make a determination to either:

- A. Finalize a referral and send it to the vendor for a PC IA.
- B. Provide notification to the requesting entity that more information is needed, and that the
- C. PC provider may resubmit the request with the additional information.
- D. Provide notification to the requesting entity the request is denied, for example, if a functional assessment has been performed within the previous ten (10) months and there is no change of circumstances to justify reassessment.

PC IA Reassessments must occur annually, but may occur more frequently if a change of circumstances necessitates such.

## 230.200 Assessor Qualifications

11-1-18

In addition to the qualifications listed in Section 202.000, PC assessors must be a Registered Nurse licensed in the State of Arkansas.

230.300 Tiering 11-1-18

- A. Tiering Definitions:
  - Tier 0 means you did not score high enough in any of the Activities of Daily Living (ADLs) such as Eating, Bathing, Toileting, to meet the state's eligibility criteria for Personal Care Services. A Tier 0 means that you did <u>not</u> need any "hands on assistance" in being able to bathe yourself, feed yourself and dress yourself as examples.
  - 2. Tier 1 means you scored high enough in at least one of the Activities of Daily Living (ADLs) such as Eating, Bathing, Toileting, to be eligible for the state's Personal Care Services. A Tier 1 means that you needed "hands on assistance" to be able to bathe yourself, dress yourself, or feed yourself, as examples.
- B. Tiering Logic

Tier 0	Tier 1
1101 0	

Functional Status (ADLs) Score < 3 in all of the following ADLs: Eating, Bathing, Dressing, Personal Hygiene/Grooming, Mobility, Transferring, Toilet Use/Continence Support, Positioning Score of > = 3 in at least ONE of the following ADLs:

Eating, Bathing, Dressing, Personal Hygiene/Grooming, Mobility, Transferring, Toilet Use/Continence Support, Positioning

#### 230.400 Possible Outcomes

11-1-18

Upon successful completion of an IA, the tier determination will determine eligibility of service levels. Possible outcomes include:

- A. Tier 0 Determination
  - 1. Not currently eligible for Personal Care services.
  - 2. May be reassessed when a change in circumstances necessitates a re-assessment.
- B. Tier 1 Determination
  - 1. Currently eligible for up to 256 units (64 hours) per month of personal care services.
  - 2. The PC IA is submitted to DHS or its designee who reviews it, along with any information submitted by the provider to authorize the set amount of service time per month.

The PC IA is not used to assign clients to a PASSE.
