OPTIMIZING BUILDING PERFORMANCE

ENTEGRITYABOUT US

Entegrity is an Energy Services Company specializing in the implementation of energy conservation and renewable energy projects. Entegrity is uniquely qualified to deliver innovative and sustainable solutions to OPTIMIZE BUILDING PERFORMANCE.

- Energy Savings Performance Contracting
- Solar / Renewable Energy
- LED Lighting
- Commissioning & Retro-Commissioning
- Building Envelope & Building Testing
- Water Conservation
- Energy Auditing & Energy Modeling
- Sustainability Consulting

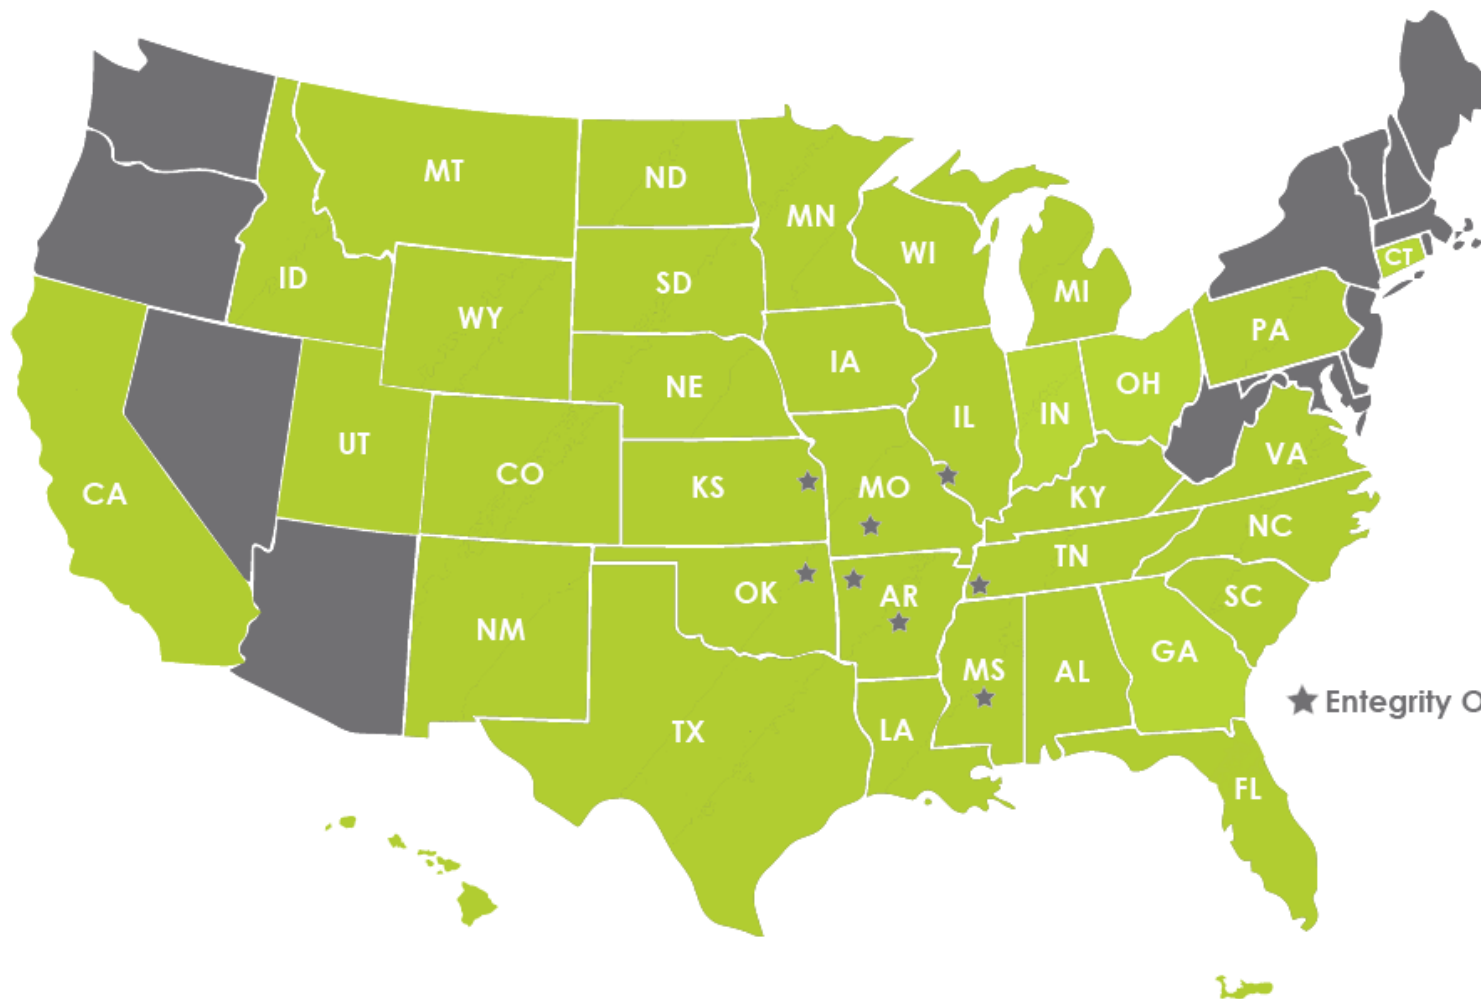

GEOGRAPHICAL PRESENCE

30+

Entegrity has completed projects in more than 30 States and the Cayman Islands.

8

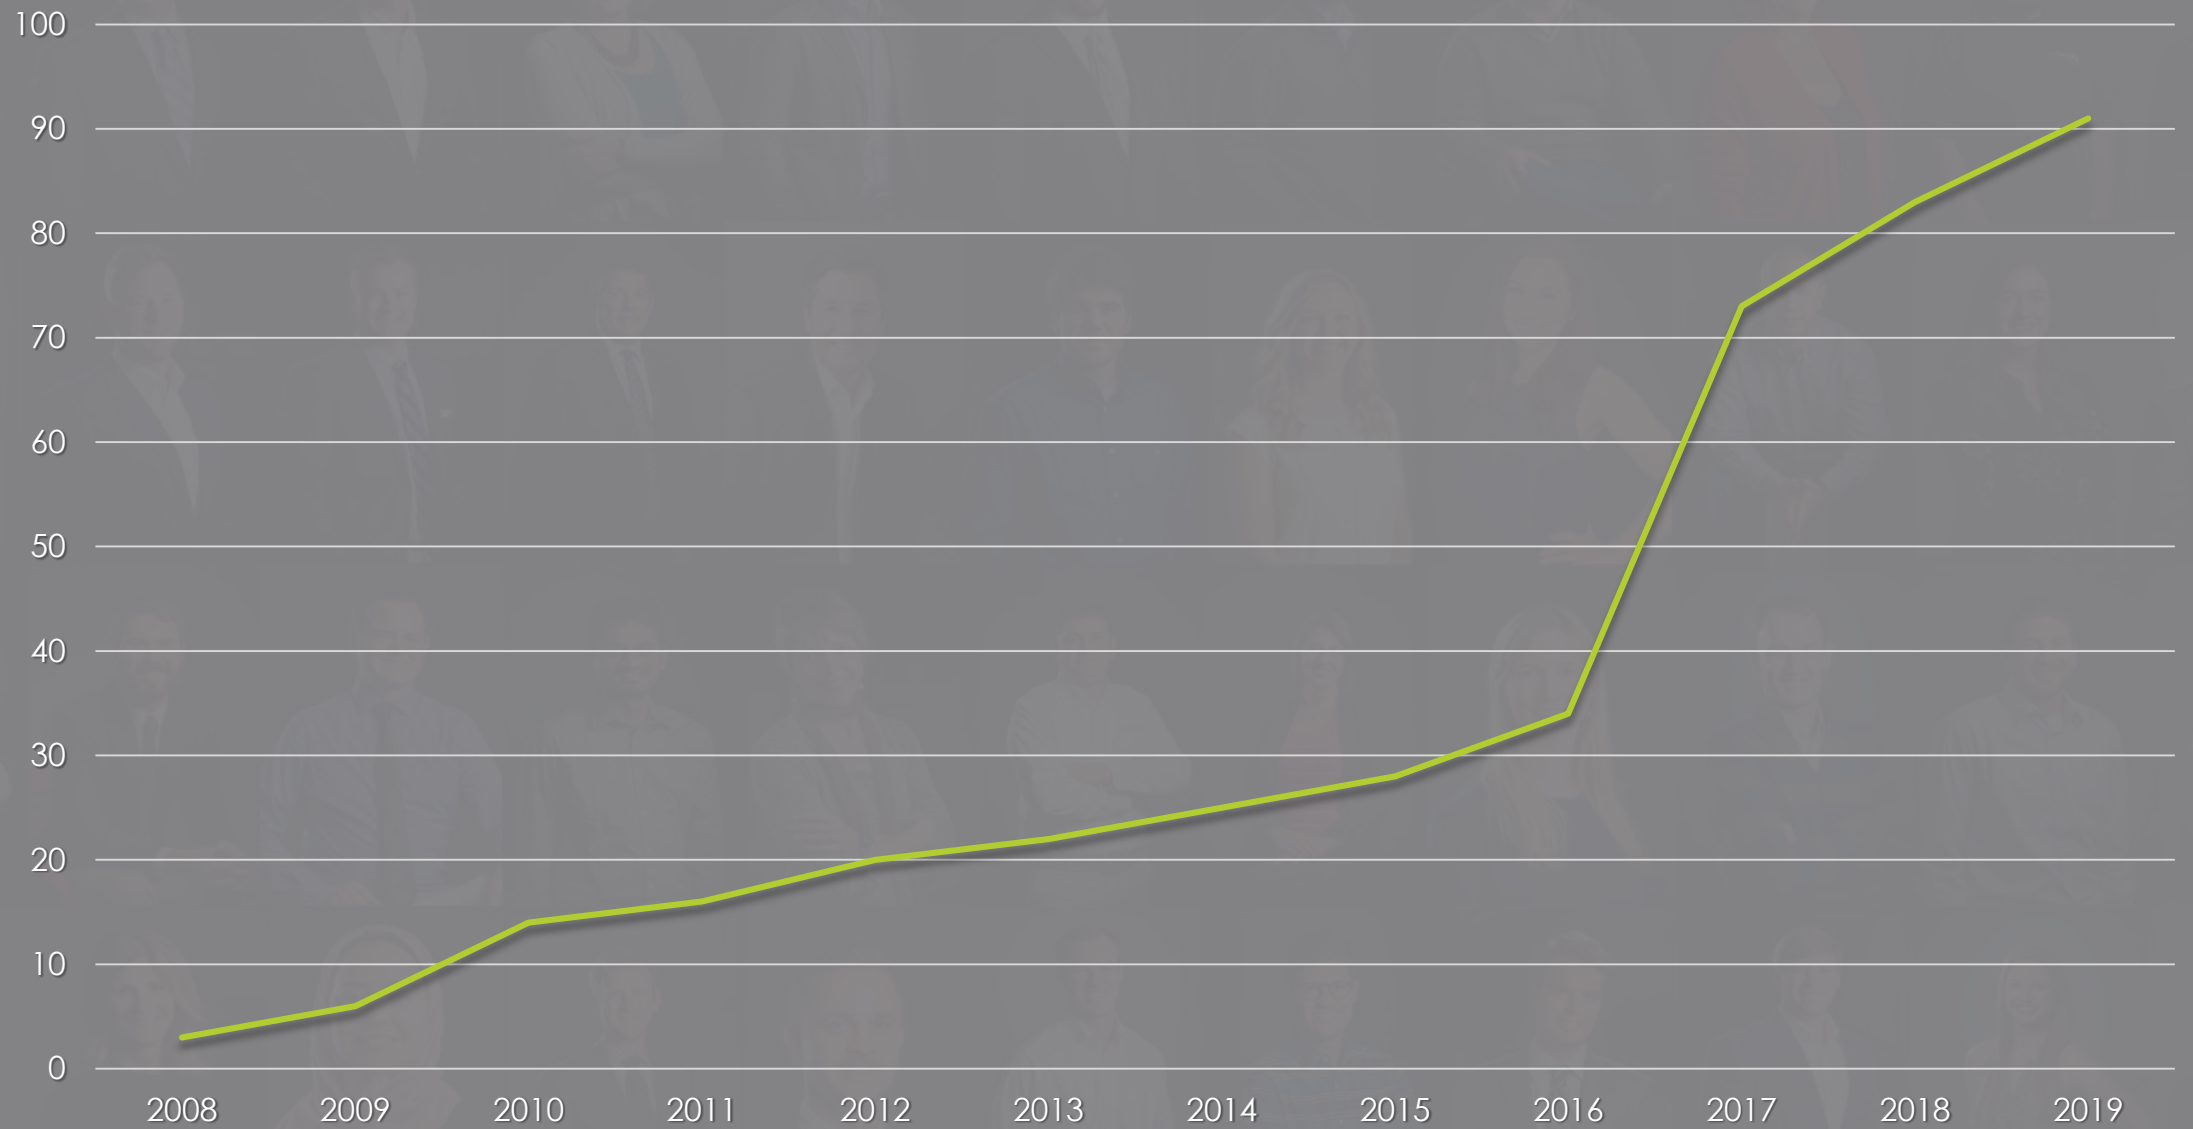

Entegrity has a total of 8 offices across the country.

PROJECT SUMMARY

Batesville School District

- e \$362,100/yr in guaranteed savings
- e \$5.5 Million Contract Amount
- e Measures:
 - e LED Lighting
 - e HVAC
 - e Building Automation System
 - e Building Envelope
 - e Solar

EXAMPLE PROJECTS

BSD solar project is making it rain (money)

Pay raises a direct result of solar windfall

BY MADELINE PYLE

Special to the Guard

The Batesville School District (BSD) made history by becoming the first school district in Arkansas to implement solar power on its campus. Just a year after the school board approved the energy proposal, BSD is already reaping the benefits.

"Currently, Batesville School District has the largest K-12 solar array in the state of Arkansas," Entegrity Regional

Director Rick Vance said. "Annual cost savings for the district exceed \$113,000 due to the solar production."

BSD Superintendent Dr. Michael Hester said that the energy and solar power project could ultimately save the district over \$7 million in 20 years.

In March, the school board voted for a 1.5 percent raise in salaries for certified and classified employees—the largest raise in the school's history,

which was made possible by the project.

Thanks to the money being saved on utilities, Hester said the district will reward teachers who have been with the district for many years.

"We put \$1.2 million into our pay scale for our certified and classified staff this year," said Hester. "We want to start above the state's average [teacher salary] because there's a shortage of teachers, and we need to be able to com-
