28
          No turnpike project shall be undertaken:
          (1) Unless and until the turnpike project involved shall have been
29
30
    thoroughly studied with respect to traffic, engineering, costs, and
31
     financing; and
32
           (2) Unless the authority makes, by resolution duly entered in the
33
    records of the authority, a determination based upon study that:

```

financed from the proceeds of revenue bonds and other available funds;

(C) Projected revenues, exclusive of turnpike gasoline tax revenues, to be derived from operation of the turnpike project involved as reflected by the study and determination of the authority required by this section will be sufficient, together with any other funds available for the purpose, to provide for operation and maintenance expenses and to cover not less than eighty percent (80%) of the projected debt service on revenue bonds to be issued, as reflected by the study and determination of the authority required by this section; and

(D) Projected revenues, including turnpike gasoline tax revenues, derived from operation of the turnpike project involved as reflected by the study and determination of the authority required by this section will be sufficient, together with any other funds available for the purpose, to provide for operation and maintenance expenses and to cover not less than one hundred percent (100%) of the projected debt service on revenue bonds to be issued, as reflected by the study and determination of the authority required by this section.

27-71-209. Powers and duties - Turnpike projects.

(a) In connection with the construction of any turnpike project, the authority is authorized to construct grade separations at intersections of any turnpike project with public highways and to change and adjust the lines and grades of public highways so as to accommodate the highway to the design of the grade separation. The cost of grade separations and any damages incurred in connecting and adjusting the lines and grades of public highways shall be ascertained and paid by the authority as part of the cost of the turnpike project involved.

(b) If the authority shall find it necessary to change the location of any portion of a public highway, it shall cause the highway to be reconstructed at such location as the authority shall deem most favorable and at least of substantially the same type construction and substantially as good a condition as the public highway was in immediately prior to the reconstruction. The cost of the reconstruction and any damages incurred in connection with the changing of the location of the public highway shall be ascertained and paid by the authority as a part of the project costs. However, the authority shall not change the location of any portion of a

public highway subject to the exclusive jurisdiction of a county court without the prior approval of the county court involved.

- (c) Any public highway affected by the construction of a turnpike project may be vacated or relocated by the authority in the manner now or hereafter provided by law for the vacation or relocation of public roads in the State of Arkansas, and any damages awarded on account thereof shall be paid by the authority as part of the project costs.
- (d) The authority and its authorized agents and employees may enter upon any lands, waters, and premises in the State of Arkansas for the purpose of making surveys, soundings, drillings, and examinations as they may deem necessary or desirable for the purposes of carrying out the authority conferred by this chapter. These entries shall not be deemed trespasses, nor shall entries for those purposes be deemed entries under any condemnation proceedings which may then be pending. The authority shall make reimbursement to the owners for any actual damage resulting to any lands, waters, and premises as a result of these activities, and these reimbursements shall be part of the project costs.
- (e) Whenever the authority shall determine that it is necessary for transmission facilities, such as tracks, pipes, mains, conduits, cables, wires, towers, poles, and other equipment and appliances of whatever nature existing or used in connection with public and private utilities, pipeline companies, or pipeline operators, which now are, or hereafter may be, located in, on, along, over, or under any turnpike project, to be relocated in such turnpike project, or be removed from the turnpike project, the owner or operator of the transmission facilities shall relocate or remove them in accordance with the order of the authority. However, the cost and expenses of relocation or removal, including the cost of installing facilities in a new location or locations, and the cost of any lands, or any rights or interest in lands, and any other rights, acquired to accomplish relocation or removal, shall be ascertained and paid by the authority as part of the project costs.
- (f) The State of Arkansas consents to the use by the authority of all lands and interest in lands owned by it, including lands lying under water, which are deemed by the authority to be necessary for the construction or operation of any turnpike project.
- (g) The power of eminent domain is expressly conferred upon the authority. In the event that any lands or interest therein, determined by the

1 authority to be necessary for any turnpike project, cannot be acquired by 2 negotiation, the authority is authorized to institute condemnation 3 proceedings for the acquisition of the lands or the interest therein desired by the authority. Condemnation proceedings under the power of eminent domain 4 5 may be exercised in the manner now provided for taking private property for 6 rights-of-way for railroads as provided by §§ 18-15-1202 - 18-15-1207 and any 7 amendments hereafter made thereto, or in the manner provided by §§ 18-15-301 - 18-15-307 and any amendments hereafter made thereto, or pursuant to any 8 9 other statutory provisions now in force or hereafter enacted for the exercise 10 of the power of eminent domain by the State of Arkansas or by any of its 11 officers, agencies, or departments. Title to, and all interest in, lands acquired by the authority, by purchase or by condemnation, shall be taken in 12 13 the name of the authority. 14 15 27-71-210. Audit of records and accounts of authority Report. 16 The agency of the State of Arkansas authorized by law to audit the 17 records and accounts of the various state agencies is authorized and directed to audit the records and accounts of the authority and to furnish a copy of 18 the report of the audit to the authority, to the Legislative Council, and to 19 20 the Governor. 21 2.2 SECTION 9. Arkansas Code §§ 27-71-301 through 27-71-308 are repealed. 23 27-71-301. Deposit of revenues. 24 The revenues derived from the turnpike project shall be deposited, as 25 and when received, into a special account or accounts of the Arkansas 26 Turnpike Authority in such depository banks or trust companies as may from 27 time to time be designated by the authority, with the accounts to be 28 appropriately designated to indicate the particular turnpike project 29 involved. 30 31 27-71-302. Use of revenues. 32 The turnpike project revenues are declared to be cash funds restricted 33 in their use and dedicated and to be used solely as authorized in this 34 chapter. The revenues shall be used: 35 (1) To pay the reasonable expenses of maintenance, repair, and operation of the turnpike project or projects involved; 36

(2) To pay as due the debt service on all revenue bonds to which revenues of the project or projects are pledged, including the original issue or issues, bonds issued for reconstruction and extension, and refunding bonds, as in this chapter authorized;

(3) For the establishing or, once established, for maintaining any reserves as provided in the authorizing resolution or the trust indenture;

(4) For the redemption of bonds prior to maturity, if provision is made for redemption, all as shall be specified in detail in the trust indenture, and all indentures supplemental thereto, securing the bonds.

27-71-303. Tolls.

(a) The authority is authorized to fix, revise, charge, and collect tolls for the use of each turnpike project and the different parts or sections thereof and to contract with any person, partnership, association, corporation, or organization desiring the use of any part thereof, including the right of way adjoining the paved portion, for placing thereon telephone, telegraph, electric light or power lines, motor fuel service stations, garages, restaurants, and other facilities, or for any other purpose, and to fix the terms, conditions, rents, and rates of charges for use. However, public utilities, rural cooperatives, political subdivisions, and pipeline companies may construct and maintain crossings of turnpike projects with their facilities, without charge, if the facilities are constructed and maintained in compliance with reasonable requirements of public safety and all costs of restoring the project to as good a condition as it was before being disturbed are paid by the owner of the facilities.

(b) The tolls shall not be subject to supervision or regulation by any other commission, board, bureau, or agency of the State of Arkansas.

27-71-304. Contracts with retail establishments - Bids.

(a) All contracts made by the authority for establishments selling at retail, including, without limitation, motor fuel service stations, garages, and restaurants, shall be made separately for each establishment and shall be made on the basis of the best responsible bid received after advertisement for sealed bids for each separate establishment published not less than once a week for two (2) consecutive weeks with the first publication at least fifteen (15) days prior to the bid date in a newspaper of general circulation

1 throughout the State of Arkansas.
2 (b) The notice shall state

2 (b) The notice shall state the general character of the establishment
3 involved, where plans and specifications may be examined if they are
4 available in connection with the bidding, and the time and place for
5 receiving bids.

(c) Each bid shall specify full information concerning the identity of the bidder and its financial ability, to the extent requested by the authority, to perform if awarded the contract.

(d) The authority may insert other provisions in each notice as it deems appropriate and may reject any and all bids.

27-71-305. Gasoline tax deemed part of project revenues.

(a) Turnpike gasoline tax revenues shall, for all purposes of this chapter, be deemed part of the turnpike project revenues.

(b) It is found and declared by the General Assembly that:

(1) Turnpike gasoline tax revenues are directly related to the construction and operation of turnpike projects and are to be considered as part of the revenues derived from the turnpike project involved rather than taxes as that term is understood for cash funds purposes; and

(2) The procedure set forth in this subchapter is a reasonable and valid method for the determination of turnpike gasoline tax revenues attributable to a turnpike project.

(c) Therefore, upon full and thorough investigation and evaluation of the pertinent facts, it is found and declared that turnpike project revenues as determined by the procedure set forth in this subchapter are, and shall be conclusively treated as, revenues derived from the particular turnpike project involved.

27-71-306. Determination of revenue from gasoline tax.

(a) As part of the study and determination of the authority required by § 27-71-208, the authority shall determine, according to the formula hereinafter set forth, the projected revenues to be derived from the motor fuel taxes, which are the taxes levied and collected under the Motor Fuel Tax Law and the Special Motor Fuels Tax Law, or any similar law or laws hereafter enacted, commonly referred to as the gasoline tax, to be paid on all fuels to be consumed annually on each turnpike project.

1	(b) To determine turnpike gasoline tax revenues, the authority shall
2	divide the total miles projected to be traveled on each turnpike project by
3	Class A vehicles, which include automobiles, except buses, with a capacity of
4	fewer than eight (8) passengers; Class B vehicles, which include truck-type
5	vehicles, except buses, with a factory rating and gross loaded weight of
6	twenty-two thousand five hundred pounds (22,500 lbs) or less; Class C
7	vehicles, which include all vehicles, except buses, with a factory rating in
8	excess of twenty-two thousand five hundred pounds (22,500 lbs) or whose gross
9	loaded weight exceeds twenty-two thousand five hundred pounds (22,500 lbs);
10	and Class D vehicles, which include buses rated and licensed as such, by the
11	average number of miles per gallon of motor fuel consumed by each of those
12	classes of vehicles. To determine the total miles projected to be traveled,
13	the authority shall initially take into consideration the feasibility study
14	and thereafter take into consideration actual usage plus any other known or
15	reasonably anticipated factors affecting or reasonably expected to affect
16	usage. The following consumption rates shall be used:
17	Class A Vehicles10 miles per gallor
18	Class B Vehicles6 miles per gallor
19	Class C Vehicles4 miles per gallor
20	Class D Vehicles5 miles per gallor
21	(c) The amount so determined is designated turnpike gasoline tax
22	revenues.
23	(d) Turnpike gasoline tax revenues shall be determined separately for
24	each turnpike project.
25	(e) The authority may make a new determination at any time, but not
26	more than once in any twelve-month period.
27	
28	27-71-307. Resolution showing gasoline tax revenues - Payment to
29	authority.
30	(a) The determination by the authority of turnpike gasoline tax
31	revenues, as projected, shall be set forth in a resolution of the authority,
32	a certified copy of which shall be filed with the Director of the Department
33	of Finance and Administration.
34	(b) Upon receipt of the resolution, the Director of the Department of
35	Finance and Administration shall pay over to the authority on or before the
36	tenth day of each month, from general gasoline tax receipts, an amount equal

to one-twelfth (1/12) of the annual amount of turnpike gasoline tax revenues, as set forth in such resolution, until there is filed with the Director of the Department of Finance and Administration a certified copy of a resolution setting forth a new determination of annual turnpike project revenues.

(c) After each new resolution is filed, the director shall pay over to the authority, in the manner set forth above, monthly, one-twelfth (1/12) of the newly determined annual amount.

27-71-308. Disposition of revenue.

- (a) Turnpike gasoline tax revenues are declared to be cash funds restricted in their use and dedicated and to be used solely as authorized in this chapter.
- (b) Notwithstanding the provisions of the Arkansas Highway Revenue Distribution Law, § 27-70-201 et seq., or any other law concerning or pertaining to gasoline taxes, the turnpike gasoline tax revenues, subject to the subsequent provisions hereof, shall not be paid into the State Treasury and shall not become part of highway revenues. They shall be paid directly to the authority each month and shall be and become part of the revenues for the turnpike project for which applicable, as in this chapter set forth.
- (c) The amount of the motor fuel taxes paid on fuels consumed on each turnpike project in excess of turnpike gasoline tax revenues shall be and remain highway revenues and be handled as provided in the Arkansas Highway Revenue Distribution Law, § 27-70-201 et seq., or other applicable law at the time controlling highway revenues.
- (d) So long as any bonds are outstanding hereunder, if any changes are made by the General Assembly in motor fuel taxes or in the distribution of highway revenues, they must be such that substantially the same amount of turnpike gasoline tax revenues will be received by the authority as would have been received had there been no changes.
- (e) Anything herein to the contrary notwithstanding, the authority shall adopt a resolution setting forth the facts recited in subdivisions (1) and (2) of this subsection and shall file a certified copy of the resolution with the trustee under the trust indenture and a certified copy with the Director of the Department of Finance and Administration if, at the end of any fiscal year, revenues of any turnpike project exclusive of turnpike gasoline tax revenues allocated to that turnpike project for the fiscal year

1 just ended were sufficient in amount: 2 (1) To cover expenses of maintenance, repair, and operation of 3 that turnpike project for the next fiscal year as estimated by the authority; 4 (2) To pay the debt service on outstanding revenue bonds to 5 which the revenues of that turnpike project are pledged and to comply with 6 any other provisions of the trust indenture pertaining to the maintenance of 7 revenues at specified levels. 8 (f) Upon receipt of the resolution, the Director of the Department of 9 Finance and Administration shall not pay turnpike gasoline tax revenues to 10 the authority for the remainder of the fiscal year in which the resolution is 11 received but shall handle the turnpike gasoline tax revenues as other highway 12 revenues. 13 (g) Each resolution shall be applicable for one (1) fiscal year only. Beginning with the next succeeding fiscal year, the provisions of this 14 15 section shall automatically become applicable and remain so until the facts 16 warrant another resolution and the resolution is adopted and filed as 17 aforesaid. 18 19 SECTION 10. Arkansas Code §§ 27-71-401 through 27-71-411 are repealed. 20 27-71-401. Issuance to finance turnpike projects. 21 (a) The authority is authorized and empowered to issue turnpike 22 revenue bonds from time to time in principal amounts sufficient to pay the 23 costs of a turnpike project. 24 (b) For a turnpike project: 2.5 (1) There may be more than one (1) issue of bonds; 26 (2) There may be one (1) issue sold and delivered in series; 27 (3) There may be a subsequent issue or subsequent issues of 28 bonds for all or any of the following purposes: 29 (A) Completing the construction of a turnpike project; 30 (B) Reconstruction work on a turnpike project when the 31 amount involved is such that it cannot be handled as an item of maintenance 32 and repair out of turnpike project revenues; or 33 (C) The extension of a turnpike project. (c) The issues set out in subdivision (b)(3) of this section are 34 35 subject in each instance to such conditions concerning available and 36 estimated turnpike project revenues and other conditions ensuring prompt

payment of the debt service on subsequent bond issues as the authority shall determine and specify in its authorizing resolution or in the trust indenture securing the bonds.

- (d) In all instances, priority between and among issues and successive issues shall be controlled by the authorizing resolution or by the trust indenture securing the bonds.
- (e) Turnpike revenue bonds shall have all the qualities of negotiable instruments under the laws of the State of Arkansas, subject to the provisions of this chapter regarding registration.

- 27-71-402. Authorizing resolution Terms.
- (a) Turnpike revenue bonds shall be authorized by resolution of the authority, the "authorizing resolution".
 - (b) They may be coupon bonds, payable to bearer, or may be registrable as to both principal and interest without coupons and may be made exchangeable for bonds of another denomination, which bonds of another denomination may in turn be either coupon bonds payable to bearer or bonds registrable as to principal only or as to principal and interest with coupons, or bonds registrable as to principal and interest without coupons.
