Bridge Inspection, Oversight, and Maintenance

Arkansas State Highway and Transportation Department (AHTD)

(July 1, 2007 – June 30, 2008)

Finding and Conclusions:

- Three AHTD Districts currently [November 10, 2008] have only 1 inspector resulting in a higher “bridges per inspector” workload.
- AHTD bridge inspectors have an average of 27 years of service and are nearing retirement resulting in impending turnover in this position.
- Local governments do not always report efforts to correct deficiencies noted by state bridge inspectors and no follow-up is done until the next scheduled inspection. Additionally, local governments often lack sufficient resources to adequately address inspection findings.
- AHTD Districts use different practices for the tracking of maintenance in response to inspection findings. This limits the ability to view data and conduct quality control reviews in the central office.
- The records reviewed for 20 bridges rated as “structurally deficient” in 2003 revealed that the rating for 11 of the 20 had not changed as of the close of our fieldwork [November 10, 2008]. The term “structurally deficient” does not imply a bridge is unsafe. However, action is needed in the form of maintenance or the imposition of weight limits.

Recommendations:

- AHTD continue its current efforts to provide an adequate number of well-qualified inspection personnel in all districts and make succession planning a priority.
- AHTD work in cooperation with the Arkansas Municipal League and the Association of Arkansas Counties to develop a plan to address deficiencies in locally owned bridges noted by state inspectors.
- AHTD continue its efforts in developing uniform policies and procedures related to the tracking of maintenance work done in response to bridge inspection findings.

ARKANSAS BUDGET SYSTEM ANNUAL MISSION STATEMENT

History

A State Highway Commission was created by Act 302 of 1913 with the Commissioner of State Lands as Chairman, who appointed a State Highway Engineer subject to the approval of a three (3) member State Highway Commission. Act 65 of 1929 separated the State Highway Department from the office known as the Department of State Lands, Highways and Improvements and created the Highway Commission as separate body composed of five (5) members, one (1) from each of the four (4) agricultural school districts and one (1) from the State at large. Act 3 of 1933 repealed Act 65 of 1929 and created a new Highway Commission composed of five (5) members. Act 318 of 1935 provided for seven (7) Highway Commission Members, one (1) from each Congressional District. Act 42 of 1945 provided for (10) Highway Commission members, one (1) from each of the ten (10) maintenance districts. Act 239 of 1949 provided for twelve (12) Highway Commission members, one (1) from each of the (10) maintenance districts and two (2) from the State at large.

Constitutional Amendment No. 42, known as the Mack-Blackwell Amendment, created a State Highway Commission. The enabling legislation for this amendment was Act 123 of 1953. The Commission is vested with all the powers and duties now or hereafter imposed by laws for the administration of the Arkansas Highway and Transportation Department. The amendment provided for five (5) Highway Commission members appointed from the State at large; provided, however, that no two (2) Commissioners be appointed from any single Congressional District.

Act 192 of 1977, effective February 17, 1977, changed the name of the Arkansas State Highway Department to the Arkansas State Highway and Transportation Department. The purpose of this act is to effectuate the transportation policy by preparing and coordinating a comprehensive, balanced multi-modal transportation plan for the State including airways, highways, railways, waterways, bicycling, mass transit, and other transportation facilities, whether public or privately owned, developed, operated or maintained.

Act 1027 of 1999 authorized the Commission, upon voter approval, to issue up to \$575 million in bonds to finance an Interstate Highway Rehabilitation Program. The voters approved issuance of these bonds in a special election held in June of 1999. These bonds utilize a new federal program known as Grant Anticipation Revenue Vehicles or GARVEE's. The bonds are repaid primarily from future Federal Interstate Maintenance Funds and a 4¢ increase in the diesel fuel tax contained in Act 1028 of 1999.

Acts Four (4) and Five (5) of the 86th General Assembly 1st Extraordinary Special Session, 2008, amended the Natural Gas Severance Tax for the State of Arkansas. A majority of the increase shall be classified as Special Revenue and shall be distributed as set forth in the Arkansas State Highways Distribution Law, section 27-70-201 et seq.
