

## A Message from the Principal

Welcome to the world's BEST Freshman Academy. Our school community is dedicated to providing our ninth grade students with a well-rounded educational experience.

We believe that it is critical to provide opportunities for all students to be successful. Success can come in many forms at our school such as: technology, essentials classes, student leadership, academics, friendships and clubs. Ultimately, we have one goal which is to help every child earn every possible credit at our school. We look forward to working with you as a team to ensure that our students have the maximum level of support and opportunities.
