Lunch at Cabot High School Food Court

Cabot High School invites our legislators to experience the unique food service method offered to our secondary students. The food court is not a privatized company, but it is run completely by Cabot School District employees.

Since changing to the new food court atmosphere, we have seen an increase in student meal participation. With the old style cafeteria, we had an average of 61 students eating breakfast, and now we have an average of 128, which is an increase of 209%. For lunch we had an average of 654 students, and now we have an average of 1330, which is an increase of 203%.

During lunch, career and technical teachers will provide a brief overview of the career and technical offerings at Cabot High School.

Career and Technical Tours

We will visit the following career and technical classes:

- Agriculture
- Broadcasting
- Athletic Training
- Sports Medicine Training
