Biannual Report on the Impact of National School Lunch Categorical Funding on Closing
the Achievement Gap
In compliance with A.C.A. §6-20-2305(b)(4)(E)
June 7th, 2016

In accordance with A.C.A. §6-20-2305(b)(4)(E) this report has been compiled and will be transmitted to the House and Senate Committees on Education.

A.C.A. §6-20-2305(b)(4)(E) directed the Arkansas Department of Education (Department or ADE) to report on the Impact of state National School Lunch Act Categorical Funding (NSL) on closing the achievement gap. Section (ii) of this statute directed the Department to submit separate data for each of the NSL funding categories.

There are three categories based on the percentage of enrolled students from low socioeconomic backgrounds as indicated by eligibility for free or reduced-price meals. These categories are 90% or more of the district's students are eligible for free or reduced price meals; less than 90% to 70%; and less than 70%. Section (ii)(a) required the ADE to submit data on how Arkansas school districts are spending NSL funds, and Section (ii)(b) included fund transfers and the explanation of why the transfers were made. Section (ii)(c) directed the Department to expand the analysis of student achievement data evaluated in student achievement growth models, to include the evaluation of the best estimates of classroom, school, and school district effects on narrowing the achievement gap, in addition to the examination of student progress based on established value-added longitudinal calculations.

Expenditure Data

The data required in Section (ii)(a) is reported by general expenditure categories. Attachments A through F show, by district, the amount of NSL funds spent in each expenditure category.

Below is a detailed description of each general category where NSL funds could be spent, including the identification number corresponding to the program code expenditure categories in the attachments:

Transfer Data

Section (ii)(b) required a report on fund transfers. A.C.A. §6-20-2305(b)(1) established funding for four special needs education categories. These student special needs categories are: Alternative Learning Environments, including secondary vocational area centers; English Language Learners; National School Lunch Act; and Professional Development. The Department's Rules Governing the Distribution of Student Special Needs Funding and the Determination of Allowable Expenditures of those Funds (May 2016), Section 8.01 states:

After having provided programs designed to meet the needs of students in the respective categorical funding areas, a school district may transfer and expend funds on any of the special needs categories.

The specific reasons a district would transfer NSL funds could vary widely, but generally, a transfer of funds would be to target the needs of the students in the three special needs categories or to target professional development.

Student Achievement Data

Section (ii)(c) required the Department to expand the analysis of student achievement data evaluated in student achievement growth models, to include the evaluation of the best estimates of classroom, school, and school district effects on narrowing the achievement gap, in addition to the examination of student progress based on established value-added longitudinal calculations. Attachments G, H, and I

While it is difficult, if not impossible, to correlate a single factor, such as the amount of NSL funding a district receives, to an increase or decrease in student performance, ADE requested that each district include in its current ACSIP a method for evaluating NSL expenditures for the current school year.

ADE believes with the ACT Aspire assessment and the statewide conversion from the previous ACSIP software to Indistar, school districts now have better tools to more accurately determine the impact NSL expenditures have on closing the achievement gap. Through the ACSIP process, ADE will continue to work with districts to determine the effectiveness of NSL expenditures in improving learning opportunities for struggling students.
