June 22, 2020

## Long Term Care Cases (as of 6/18/20)

- ADH is following 114 facilities, 91 have active cases, 23 no longer have active cases
- 569 total positive residents
- 228 recovered residents
- 84 patient deaths
- 389 positive health care workers
- 170 recovered health care workers

# CMS National Nursing Home Comparison (6/1/20)

	Total Resident Cases	NH Residents per 1,000	Total Resident Deaths	NH Resident Deaths per 1,000	Total NH Staff Cases	Total NH Staff Deaths
National	60,439	62.0	25,923	27.5	34,442	449
Arkansas	237	23.6	67	6.0	151	0

1/1/20-6/1/20, CMS National Comparison Report  
Does not include assisted living or other LTC providers.

# Statewide Testing

- **Statewide testing initiative for all long term care patients and staff during month of June.**
- **Goals:**
  - **Establish statewide baseline of long term care population**
  - **Identify positive asymptomatic workers and staff**
  - **Path for reopening**

# Statewide Testing

**Total reported results: 24,557**

**Total positive results: 198**

**Total facilities with positive results: 43**

**Total facilities with results: 184**

# Reopening Plan

- Facilities meeting new criteria will be eligible for limited reopening effective July 1<sup>st</sup>. (ADH, 6/17/20)
- Includes expansion of visitation, communal dining, activities, and barber/beauty salons within facilities.
- Facilities with active resident cases cannot accommodate visitors until cases are cleared.
- End of life visits will continue.
- Individual facility approach, not all facilities will be ready to open on 7/1/20.

# Reopening Plan

- **Facility visits will look much different than in the past.**
  - **Visitors must schedule time to visit**
  - **Masks must be worn during the visit, maintaining 6' distance**
  - **Maximum of 2 visitors per resident at any given time**
  - **Limited visiting hours**
  - **Outdoor visits preferred, indoor visits allowed when weather or resident condition prohibits**
