SUMMARY

This is an amendment to the existing Rules and Regulations, Emergency Medical Services (“EMS Rules”). There are two components of the amendment. The first component adds a new licensed professional, the Emergency Vehicle Operator. The new professional designation is defined on page 6 of the markup as new subsection I(X). On page 28 of the markup, new section V(C)(3)(b)(a) provides that permitted ambulances providing general patient transfers and not primary 9-1-1 emergency responses, or that have depleted all available 9-1-1 resources must be staffed by an Emergency Vehicle Operator. On page 47 of the markup, new section IX(B)(5) sets forth the initial licensing requirements for the Emergency Vehicle Operator.

The second component of the amendment is the addition of a Tiered Response protocol which allows EMS services to dispatch ambulances according to the assessed severity of the call. This protocol is set forth on pages 17 and 18 of the markup in new section IV(B)(6).
