# Reports of Child Maltreatment

# Quick Facts

## Volume and Description of Child Maltreatment Reports

Volume of Incoming Reports  
Maltreatment Reports Received During  
1st Quarter SFY 2023

Of the 8,112 reports of child maltreatment accepted by the Arkansas Child Abuse Hotline during the first quarter, 81 percent were assigned to DCFS and 19 percent were assigned to the Crimes Against Children Division (CACD) of the Arkansas State Police, which is responsible for investigating the most serious allegations of maltreatment.

Of the reports assigned to DCFS, 83 percent were assigned for an investigation and 17 percent were handled through differential response (DR).

DR allows the Division to respond to specific, low-risk maltreatment reports through a family assessment and provision of services rather than a traditional investigation.

The following types of allegations can qualify for DR:

- Inadequate supervision if children are at least five
- Environmental neglect if children are at least three
- Medical neglect if children are at least thirteen
- Lock out if children are at least ten
- Inadequate food, inadequate shelter, inadequate clothing, or educational neglect with no age restrictions
- Certain allegations of abuse where the incident occurred at least one year prior to the report date

# Quick Facts

## Findings of Child Maltreatment Investigations

Twenty-four percent of the investigations assigned to DCFS during the first quarter were found true, compared to 37 percent for CACD. The overall substantiation rate stood at 27 percent, similar to the previous quarter.

Appendix A provides further detail on the number of referrals accepted for investigation and those found true in the most recent quarter.

Percentage of Investigations Found True

## Characteristics of Children Involved in True Investigations

There were 2,139 victim children involved in substantiated maltreatment investigations during the quarter.

Of those children, 63 percent were white and 17 percent were black. Almost half (49 percent) were under six years of age.

The majority of victim children (57 percent) were female.

Race/Ethnicity of Children in True Reports

Ages of Children in True Reports

## Types of Allegations in True Investigations

Neglect was the most commonly reported allegation for the 2,139 victim children, followed by allegations of sexual abuse and physical abuse.

Percentage of Children in True Allegations of Maltreatment

	Number of Children Cited in True Allegation	Percentage of Children Cited in True Allegation
Neglect	1,437	67%
Sexual Abuse	471	22%
Physical Abuse	423	20%
Sexual Exploitation	42	2%
Abandonment	14	1%

A child may have more than one allegation.

# Quick Facts

## Reports Involving Fatalities or Near Fatalities

Findings of Maltreatment Reports Involving Fatalities or Near Fatalities		
Finding	Child Fatality	Child Near Fatality
True	4	2
Unsubstantiated	2	0
Pending	6	0

During the first quarter, there were 12 maltreatment investigations of child fatalities. Of those, four were found true, two were unsubstantiated, and six were still pending.

Over the same period, there were two investigations of near fatalities; both were found true.

## Reports Assigned for Differential Response (DR)

Number of Reports Assigned for Differential Response

The number of reports assigned for DR during the first quarter (1,144) increased by four percent over the previous quarter.

Types of Allegations Cited in Reports Assigned for DR

## Allegations Cited in DR Reports

Environmental neglect and inadequate supervision were the most common allegations cited in reports assigned for DR during the quarter, followed by inadequate food and educational neglect.

# Quick Facts

## Meeting Agency Policies

### Timeliness of Initiating Investigations

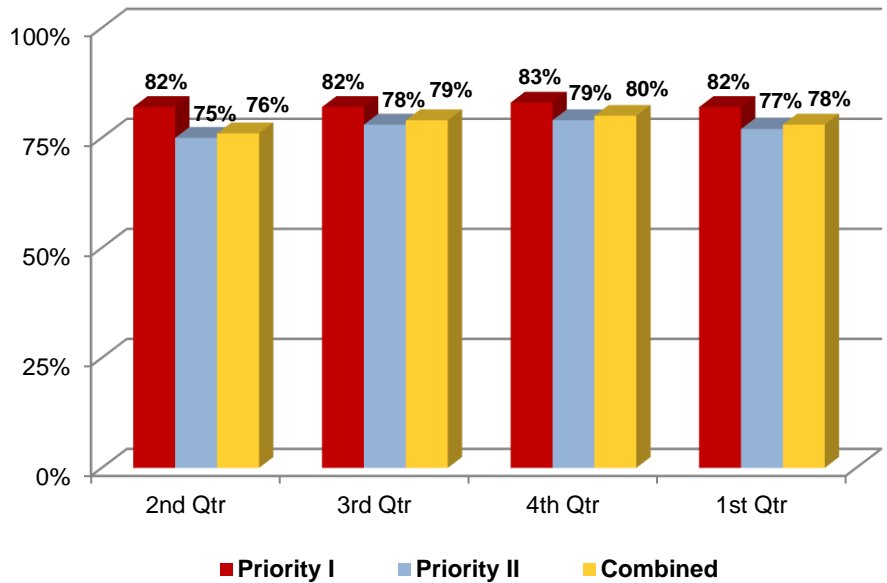

The law requires reports of maltreatment to be initiated within 24 hours of receipt of a Priority I report or within 72 hours for a Priority II report.

Priority I reports cite more severe allegations while Priority II reports cite comparatively less serious allegations.

Initiation occurs when all victim children are interviewed or observed (if too young for an interview) within the designated timeframes.

DCFS initiated 78 percent of its investigations on time during the first quarter, slightly lower than its performance during the previous quarter.

**Timely Initiation of Child Maltreatment Assessments (DCFS Only)**

### Timeliness of Completing Investigations

DCFS completed 78 percent of its investigations on time (within 45 days of receipt of the report) during the quarter, an improvement over its performance during the previous quarter (73 percent).

**Timely Completion of Child Maltreatment Assessments (DCFS Only)**

# Quick Facts

## Timeliness of Initiating Reports Assigned to DR

Timely Initiation of DR Reports

DR referrals must be initiated within 72 hours of receipt of the report.

DCFS initiated over two-thirds (68 percent) of its DR reports on time during the first quarter, an improvement over the previous quarter.

## Timeliness of Completing Reports Assigned to DR

Timely Closure of DR Reports

Reports assigned to DR must be closed within 30 days of receipt of the report. In certain instances where the family's needs necessitate longer involvement, two 15-day extensions can be granted, for a total of 60 days.

The Division closed 67 percent of DR reports on time during the quarter, taking into account reports in which extensions were granted.

# Quick Facts

## Benefits to Children and Families

### Preventing the Recurrence of Maltreatment

Seven percent of the victim children involved in true investigations during the first quarter of SFY 2022 experienced a recurrence of maltreatment within 12 months. Four percent experienced a recurrence of maltreatment within six months.

Recurrence of Maltreatment within 6 and 12 Months

The National Standard for recurrence within 12 months is 9.1 percent or less

### Recurrence of Maltreatment Among Families Who Received DR Services

Four percent of the children who began receiving DR services during the first quarter of SFY 2022 were involved in a true investigation of child maltreatment within 12 months, and two percent were involved within six months.

Involvement in True Maltreatment Reports within 6 and 12 Months of Receiving DR Services

# In-Home Services

# Quick Facts

## Volume and Description of Cases

### Volume of Cases

In most instances, DCFS offers in-home services through a protective services case, which is opened when a true maltreatment report or court order necessitates DCFS' involvement with a family but there is not an immediate threat to any child's safety in the home.

The number of in-home protective services cases decreased during the quarter. There were 2,364 protective services cases, involving 5,595 children, open across the state at the end of the quarter.

The Division also offers in-home supportive services to families on a voluntary basis. DCFS was responsible for 246 supportive services cases at the end of the quarter.

### Length of Time Cases Have Been Open

In-home protective services cases that were active as of the end of the quarter had been open, on average, for nearly five and one-half (5.5) months. Supportive services cases had been open, on average, for five months.

# Quick Facts

## Ages of Children in In-Home Protective Services Cases

Less than half (46 percent) of the children involved in in-home protective services cases at the end of the quarter were ages five or younger.

Ages of Children in In-Home Cases

## Meeting Agency Policies

## Monthly Visits to In-Home Protective Services Cases

Families with an open in-home protective services case must receive a face-to-face visit from a caseworker each month. Caseworkers made 71 percent of these required visits during the first quarter.

This is slightly higher than the in-home visitation rate observed for the previous quarter. The Division's goal is 85 percent.

Required Monthly Visits to In-Home Cases

# Quick Facts

## Benefits to Children and Families

### Victimization Rate Among Children Who Received Protective and Supportive Services

The percentage of children involved in a protective services case who were maltreated within one year of service initiation was six percent for the first quarter.

The rate of maltreatment for children involved through a supportive services case was two percent for the most recent quarter.

### Rate of Entry Into Foster Care Among Children Who Received Protective and Supportive Services

Of the children who began receiving protective services during the first quarter one year ago, six percent entered foster care within one year of the initiation of those services.

None of the children (zero percent) who began receiving supportive services during the same timeframe entered care within one year.

In-home services prevent the vast majority of children from being re-victimized or entering foster care within one year.

# Quick Facts

# Foster Care

## Volume and Description of Cases

### Number of Children in Foster Care

There were 4,344 children in foster care at the end of the first quarter of SFY 2023, a four percent decrease from the previous quarter (4,524).

Number of Children in Foster Care

### Characteristics of Children in Foster Care

At the end of the quarter, children ages five years or younger made up 38 percent of all children in foster care. Fifty-eight percent of those in care were white and 21 percent were black.

Of the children in foster care at the end of the quarter, 50 percent were male and 50 percent were female.

Ages of Children in Care at the End of the Quarter

Race/Ethnicity of Children in Care at the End of Quarter

### Admissions Into and Discharges From Foster Care

Far more children exited foster care during the first quarter than had entered.

Number of Admissions into and Discharges from Foster Care During the Quarter

# Quick Facts

## Reasons for Children's Entry Into Foster Care

**Reasons for Children's Entry Into Foster Care**  
1st Quarter SFY 2023

Placement Reason	Number of Entries	Total
<b>Neglect</b>	298	50%
<b>Substance Abuse</b>	266 <sup>1</sup>	44%
<b>Parent Incarceration</b>	123	21%
<b>Inadequate Housing</b>	97	16%
<b>Physical Abuse</b>	80	13%
<b>Sexual Abuse</b>	31	5%
<b>Abandonment</b>	24	4%
<b>Child's Behavior</b>	15	3%
<b>Caretaker Illness</b>	12	2%
<b>Child's Disability</b>	7	1%
<b>All Other Reasons</b>	17	3%

*A child may have more than one reason for entry.*

Neglect and substance abuse were the most common reasons for children entering foster care during the first quarter, similar to the previous quarter.

## Reasons for Children's Discharge from Foster Care

**Reasons for Children's Discharge from Foster Care**  
1st Quarter SFY 2023

Discharge Reason	Number of Discharges	Total
<b>Reunification</b>	342	46%
<b>Adoption</b>	208	28%
<b>Relative Custody</b>	95	13%
<b>Guardianship</b>	38	5%
<b>Child Aged Out</b>	38	5%
<b>Non-Custodial Parent Custody</b>	13	2%
<b>Non-Relative Custody</b>	3	<1%
<b>Death of Child</b>	1	<1%

*National data<sup>2</sup> indicate that the three most prevalent reasons children leave care are reunification (48%), adoption (25%), and guardianship (10%).*

Forty-six percent of the children who left foster care during the quarter were reunified with their own family, 28 percent were adopted, and 13 percent were discharged to relative custody.

Overall, 95 percent of the children exiting care in Arkansas achieved permanency either by returning home or via discharge to relatives, an adoptive home, or another permanent living arrangement.

<sup>1</sup> These 266 cases of substance abuse include 234 instances of parental drug abuse, 24 instances of parental alcohol abuse, seven instances of drug abuse by children, and one instance of alcohol abuse by children.

<sup>2</sup> National data from the Children's Bureau (November 2021).

# Quick Facts

## Length of Stay in Foster Care

Of the children in foster care at the end of the first quarter, well over half (56 percent) had been in care for 12 months or longer.

Length of Stay in Foster Care for Children in Care  
1st Quarter SFY 2023

Length of Stay	Number	Percentage	National
Less than 30 days	176	4%	5%
1-3 Months	323	7%	17%
3-6 Months	521	12%	
6-12 Months	872	20%	20%
12-24 Months	1,262	29%	28%
24-36 Months	536	12%	14%
36+ Months	654	15%	16%
<b>Total</b>	<b>4,344</b>	<b>100%</b>	<b>100%</b>

## Placements of Children in Foster Care

Overall, 81 percent of the children in foster care at the end of the quarter resided in a family-like setting (i.e., relative placement, foster family home, therapeutic foster home, trial home visit, pre-adoptive home).

Six percent resided in congregate care, which represents placement in a qualified residential treatment program (QRTP), residential treatment care or residential care only program, or emergency shelter.

Foster Home (Rel/Fic): 19%  
Provisional (Rel/Fic): 13%  
ICPC (Out of State): 2%  
Pre-Adoptive (Relative): 0.7%  
Other Relative: 0.3%

Placement of Children in Foster Care at the End of the Quarter

## Permanency Goals of Children in Foster Care

Forty-eight percent of the children in care at the end of the quarter had a permanency goal of reunification (return home) and 28 percent had a goal of adoption.

These figures differ slightly from national data from the Children's Bureau as of November 2021, with averages of 54 percent for reunification and 28 percent for adoption.

Permanency Goals of Children in Foster Care at the End of the Quarter

# Quick Facts

## Meeting Agency Policies

### Monthly Visits to Children in Foster Care

To ensure their safety and well-being, best practice requires children in care to be visited in their placement by a caseworker monthly (measured in this chart). The Division's goal is 95 percent.

DCFS caseworkers made 75 percent of their required monthly face-to-face visits with children in care during the first quarter. This was higher than the visitation rate observed for the previous quarter.

Eighty-seven percent of the foster children received a monthly face-to-face contact from *any* DCFS staff member, regardless of the staff member's position, location of the visit, or the purpose.

**Children in Care who Received Monthly Face-to-Face Visits by Caseworkers**

**Children in Care who Received Monthly Face-to-Face Visits from Any DCFS Staff**

### Initial Health Screenings and Comprehensive Health Assessments

When a child enters foster care due to an allegation of severe maltreatment, DCFS must conduct an Initial Health Screening (IHS) within 24 hours. All other incoming foster children require an initial screening within 72 hours.

Children must also receive a Comprehensive Health Assessment (CHA) within 60 days of entering foster care.

**24-Hour and 72-Hour Initial Health Screenings and Comprehensive Health Assessments**

# Quick Facts

## Siblings in Care Who Are Placed Together

At the end of the quarter, 75 percent of the children with siblings in foster care were placed with at least one of their siblings, while 52 percent were placed with all of their siblings.

These figures do not exclude children who were placed separately for valid reasons such as safety issues or court orders.

Percentage of Siblings in Care who are Placed Together

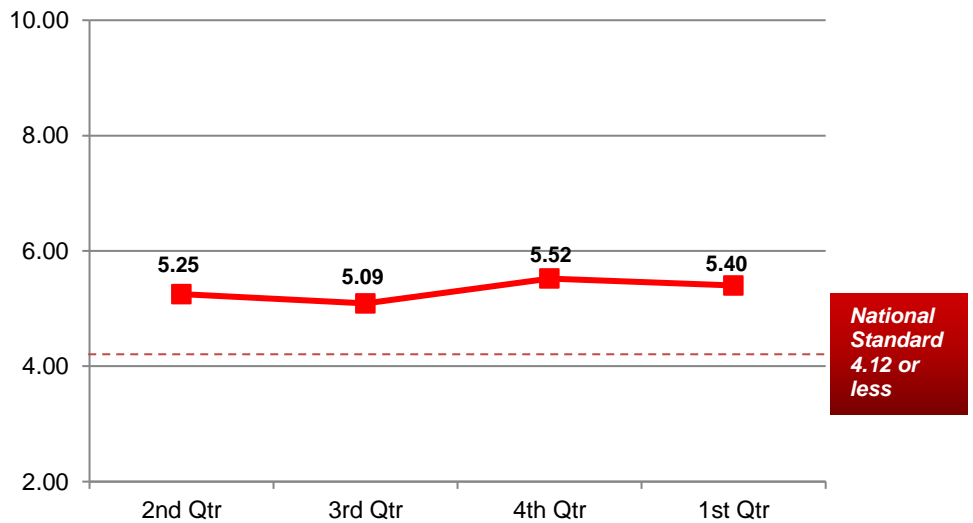

## Placement Stability of Children in Foster Care

Placement stability is measured by the rate of placement moves per 1,000 days in foster care for children who enter care over a 12-month period.

For the first quarter, the placement stability rate was 5.40, lower than the previous quarter. The national standard is 4.12.

Rate of Placement Moves Per 1,000 Days in Foster Care

# Quick Facts

## Benefits to Children and Families

### Achieving Permanency Within Twelve Months

The national standard is for 40.5 percent of all children entering foster care to achieve permanency (i.e., exiting foster care to a permanent living situation) within 12 months of removal. Discharges from foster care due to reunification, relative custody, non-custodial parent custody, guardianship, adoption, and non-relative custody are considered to be permanent living situations.

For the first quarter of SFY 2023, 38 percent of the children entering care in Arkansas achieved permanency within 12 months. This was identical to the previous quarter.

Permanency within 12 Months of Entering Foster Care

### Preventing Children's Re-Entry Into Foster Care

Seven percent of children who had reunited with their families re-entered foster care within 12 months of discharge for the first quarter of SFY 2023, less than the national standard (8.3 percent).

Re-Entries Into Foster Care

## Volume and Description of Cases

### Children Available for Adoption <sup>3</sup>

At the end of the first quarter, 362 children were available for adoption.

DCFS estimates that it has identified a possible pre-adoptive placement for approximately 20 percent of the children available for adoption.

Number of Children Available for Adoption at the End of the Quarter

### Characteristics of Children Available for Adoption

Of the available children, 63 percent were white, 15 percent were black, and 15 percent were multiracial. Children ages 10 and older made up over two-thirds (68 percent) of the children available for adoption.

Race/Ethnicity of Children Available for Adoption

Ages of Children Available for Adoption

<sup>3</sup> Children available for adoption are defined as those who (1) have a termination of parental rights on both parents, (2) have a permanency goal of adoption, and (3) are not placed with relatives, fictive kin, or a pre-adoptive family.

# Quick Facts

## Placement of Children Available for Adoption

Fifty-eight percent of the children available for adoption resided in either a foster family home or therapeutic foster home at the end of the quarter.

Placement of Children Available for Adoption at the End of the Quarter

## Meeting Agency Policies

### Length of Time to Adoption

Arkansas' average length of time from termination of parental rights (TPR) until adoption finalization was 9.6 months during the quarter, less than the previous quarter and more than two months sooner than the national average of 12.1 months.

Length of Time From TPR to Finalization of Adoption (Months)

# Quick Facts

## Benefits to Children and Families

### Finalized Adoptions

Two-hundred and eight adoptions were finalized during the first quarter of SFY 2023.

Of those adoptions, almost half (49 percent) were finalized by relatives.

Children ages two to five made up the largest group (36 percent) among those adopted during the quarter, followed by those ages zero to one (23 percent).

Number of Adoptions Finalized During the Quarter

Race/Ethnicity of Children with Finalized Adoption

Ages of Children with Finalized Adoption

■ White  
■ Black  
■ Hispanic  
■ More than One Race  
■ Other / Unknown

■ 0 to 1    ■ 2 to 5    ■ 6 to 9  
■ 10 to 13    ■ 14 to 17

### Subsidized Adoptions

Subsidies are given to children with special needs, defined as:

- Caucasian and over nine
- Healthy child of color and at least two years of age
- Member of any sibling group placed together, sharing at least one biological parent, who develop a bond
- Children who have severe medical or psychological needs that require ongoing treatment
- Children at high risk for the development of serious physical, mental, or emotional conditions documented by a medical professional

During the first quarter, **191** children began receiving adoption subsidies. Of those, 186 were federally funded subsidies and 5 were state funded subsidies.

During the quarter, a total of **7,997** children received adoption subsidies.

## Caseworkers and Caseloads

### Caseloads at the End of the Quarter

At the end of the first quarter, the Division was responsible for:

- 3,130 investigations of child maltreatment and 534 DR cases;
- 4,344 foster care cases;
- 2,364 in-home protective services cases, involving 5,595 children;
- 246 supportive services cases and 45 interstate compact for the placement of children (ICPC) cases.

This is while the Division was staffed with 422 family service workers, who were responsible for handling these cases.

**Types of Cases at the End of the Quarter**

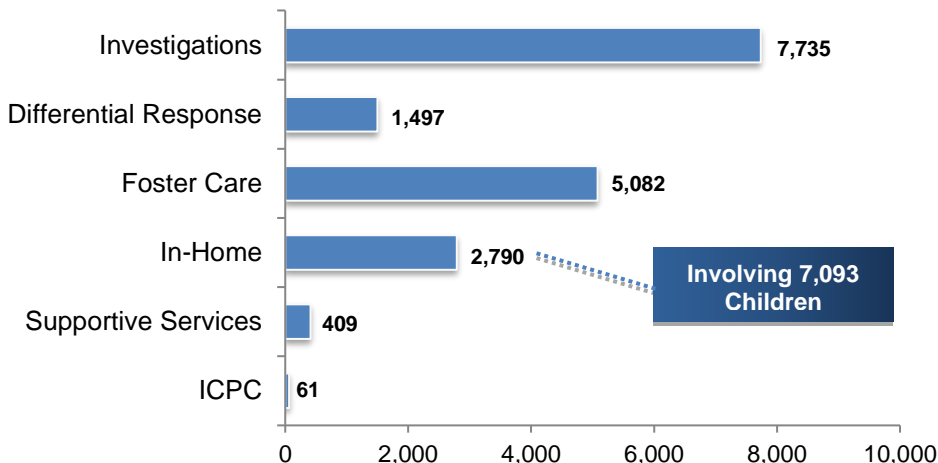

*One foster care case is equal to one child in care; one in-home or supportive services case constitutes an entire family, many of which have multiple children.*

### Caseloads Handled *During* the Quarter

This figure illustrates the number of cases that cycled through the system anytime during the quarter (as opposed to those open at the end of the quarter, described above).

The Division oversaw 7,735 investigations, 1,497 DR cases, 5,082 children in foster care, 2,790 in-home protective services cases, 409 supportive services cases, and 61 ICPC cases.

**Types of Cases Served During the Quarter**

# Quick Facts

## Average Caseload

The average caseload statewide was over 24 cases per worker at the end of the quarter. The Division's goal is 20 or fewer cases per worker.

The average caseload for each county as of September 2022 is presented in Appendix B.

## Foster Homes

### Foster Homes and Beds

There were 1,670 licensed foster family homes open statewide at the end of the first quarter, providing a total of 3,248 available beds.

The number of available beds decreased from the previous quarter.

During the most recent quarter, 263 new foster homes were opened and 266 were closed, resulting in a net loss of three homes.

Appendix C displays the closure reasons for the foster homes that closed during the quarter.

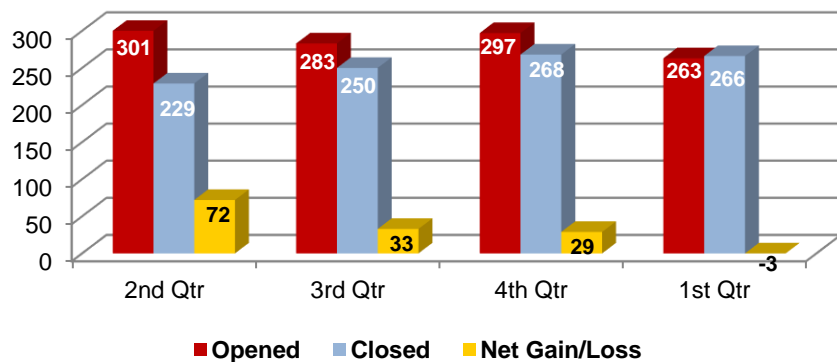

Average Caseload at the End of Month

Number of Foster Homes and Beds at the End of Quarter

Number of Foster Homes Opened and Closed During the Quarter

# Quick Facts

## Ratio of Foster Home Beds to Foster Children

Foster Home Bed to Foster Child Ratio

The ratio of licensed foster home beds to children in foster care stood at 0.75 at the end of the first quarter, similar to previous quarters.

The Division's goal is to have at least one foster home bed available for each child in foster care.

## Percentage of Foster Families with True Reports of Maltreatment

Percentage of Foster Families with True Reports of Maltreatment

Two reports in which a foster parent was identified as an alleged offender were determined to be true during the first quarter. Based on the 2,190 foster homes active during that period, the percentage of foster families with a true report of maltreatment was 0.09 percent.

Appendix D provides more detail on maltreatment reports concerning foster homes.

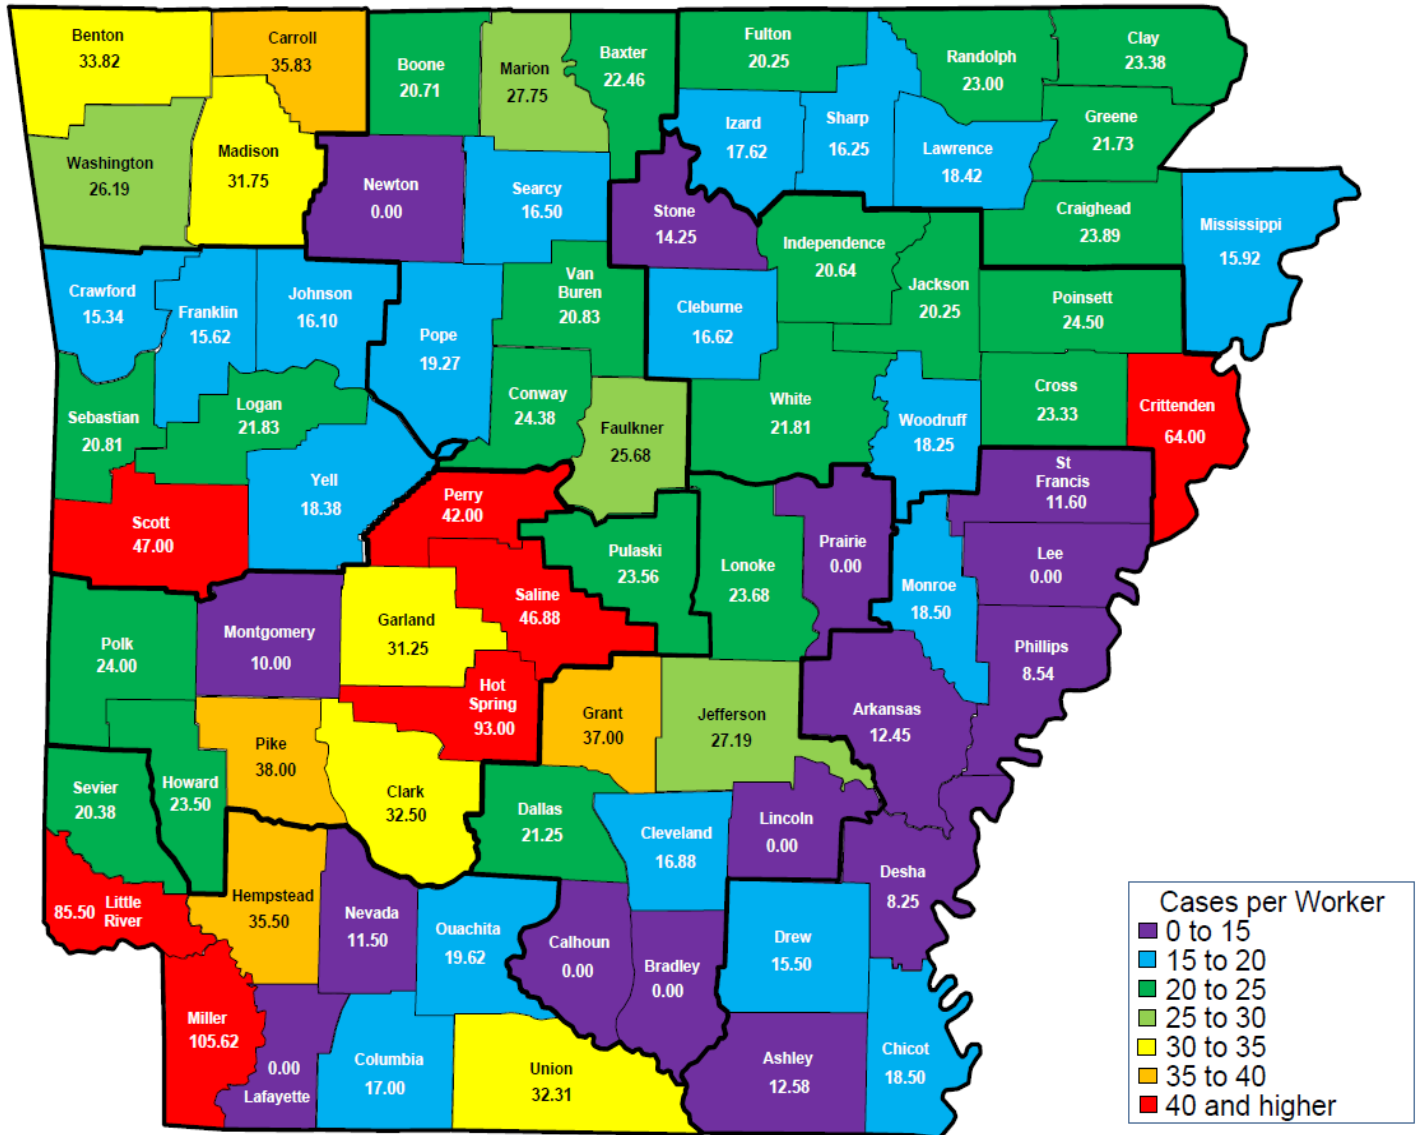

**Appendix A: Breakdown of Child Maltreatment Reports Received During the Quarter and Substantiation Rates of Maltreatment Investigations<sup>4</sup>**

	DCFS				CACD		
	Total Assessments Assigned for DR	Total Assessments Assigned for Investigation	True Investigations	Percent True	Total Assessments Assigned for Investigation	True Investigations	Percent True
Second Quarter 2022	1,199	5,804 <i>5,605 Closed</i>	1,260	22%	1,641 <i>1,538 Closed</i>	481	31%
Third Quarter 2022	1,170	5,029 <i>4,889 Closed</i>	1,186	24%	1,524 <i>1,428 Closed</i>	476	33%
Fourth Quarter 2022	1,190	5,404 <i>5,159 Closed</i>	1,233	24%	1,638 <i>1,539 Closed</i>	522	34%
First Quarter 2023	906	4,714 <i>4,488 Closed</i>	1,080	24%	1,495 <i>1,413 Closed</i>	523	37%

<sup>4</sup> The data cited in this appendix run two months behind the referenced quarter (e.g., the first quarter refers to 5/1/2022 through 7/31/2022); as a result, the numbers cited in this appendix differ from those cited throughout the report, which considers the actual quarter. This is because investigations have a 45-day completion timeframe and this allows enough time to pass to measure the disposition of the investigations. An investigation is excluded from the calculation of the substantiation rate in the event that it has not yet been closed (and thus a disposition has not yet been rendered).

## Appendix B: Average Caseload as of September 30, 2022, by County

*Bradley, Calhoun, Lafayette, Lee, Lincoln, Newton, and Prairie counties did not have any family service workers at the end of the quarter; their cases were assigned to workers from other counties.*

## Appendix D: Summary of Foster Care Maltreatment Reports

### Characteristics of Children in Foster Care Involved in Allegations of Maltreatment, 1st Quarter SFY 2023

One-hundred and twenty-one reports of alleged maltreatment involving children in foster care were received by the hotline during the first quarter of SFY 2023.

In 22 reports involving 33 children, foster parents<sup>5</sup> were identified as the alleged offenders. As shown in the following chart, two of those reports were found to be true. The foster homes identified in those two true reports were subsequently closed.

**Foster Home Maltreatment Reports  
1st Quarter SFY 2023**

True	Unsubstantiated	Pending
2	20	0

All allegations of maltreatment concerning foster homes are investigated by the Crimes Against Children Division (CACD) of the Arkansas State Police. DCFS staff do not actively participate in the investigation of these reports. Allegations of maltreatment regarding foster homes require the agency to assess the safety of all children residing in the home.

The following charts describe the characteristics of the 33 children in foster care who were involved in allegations of maltreatment with foster parents identified as the alleged offenders.

<sup>5</sup> This includes foster family homes and therapeutic foster homes.

**Race / Ethnicity**

**Gender**

**Allegations**
