

EXHIBIT L

DEPARTMENT OF HUMAN SERVICES, COUNTY OPERATIONS

SUBJECT: Form DCO-9700, TEFRA & Autism Waiver Application for Assistance; Medical Services Policy 26400 through 26450, Autism Waiver

DESCRIPTION: The autism waiver will provide Medicaid services to children with autism who are between the ages of 18 months through 6 years. Coverage will end the day before the child's 7th birthday. Medical Services Policy MS 26400 through 26450 provides policy and procedures for determining eligibility for the autism waiver program for children 18 months through 6 years.

Form DCO-9700, TEFRA and Autism Waiver Application for Assistance, will be used to apply for assistance in the TEFRA and Autism Waiver Program.

PUBLIC COMMENT: No public hearing was held. The public comment period expired on July 12, 2012. No public comments were submitted.

Jessica Sutton, an attorney with the Bureau of Legislative Research, asked the following question:

I have a question concerning the age range for the autism waiver. The language contained in Act 1198 of 2007 stated that the waiver shall be for children age 3 through 10, but the rules state that the autism waiver is for participants age 18 months through 6 years of age.

Can you reconcile this for me? **RESPONSE:** The language in Act 1198 of 2007 was drafted well before the funding was made available for this program. Since Medicaid will only allow funds to be used for those interventions that are evidence-based, a review of the literature was conducted as part of the development of this application. The literature clearly reflects that the younger the child, the more significant the progress with a program such as this. There have been advancements made in the diagnostic processes such that children with autism can be identified as early as 18 months. Since the first 3 years of this waiver is considered a pilot by CMS, the age range was set to target those children likely to make the most progress with the intervention. The design of the program, including targeted ages, was presented to the Arkansas Legislative Task Force on Autism prior to its submission to CMS.

The proposed effective date is October 1, 2012.

CONTROVERSY: This is not expected to be controversial.

FINANCIAL IMPACT: The incremental cost to implement this rule is \$2,921,111 for SFY 2013 (\$1,939,388 federal funds and \$981,723 general revenue) and \$5,151,100 for SFY 2014 (\$3,651,100 federal funds and \$1,500,000 general revenue). The costs associated with modifying the system to implement this program change will be absorbed by the current contract; therefore, there is no additional cost to implement this change.

LEGAL AUTHORIZATION: Arkansas Code § 20-76-201 authorizes the Department of Human Services to administer programs for the indigent and to "make rules and

regulations" pertaining to the administration of those programs. Arkansas Code § 20-77-107 specifically authorizes the department to "establish and maintain an indigent medical care program." Pursuant to Ark. Code Ann. § 20-77-124(b)(1), the Department of Human Services shall seek a Medicaid waiver from the Centers for Medicare and Medicaid Services to provide intensive early intervention individualized therapy to any child who has been diagnosed with a pervasive developmental disorder, including autism. The waiver shall be for children three (3) years of age through ten (10) years of age. Ark. Code Ann. § 20-77-124(b)(2). The rules provide for an autism waiver from 18 months through 6 years of age.
