Establishing a minor permit modification threshold for fine particulate matter (PM2.5) in Regulation No. 26 will lower the potential cost impacts for those facilities increasing PM2.5 emissions by small amounts and will allow changes to a facility to be implemented more quickly. All other changes to Regulation No. 26 were made as updates, for clarification, and to correct errors

8. Please provide the address where this rule is publicly accessible in electronic form via the Internet as required by Arkansas Code § 25-19-108(b).
