Sources: Demographic information was collected during application process through Federal Marketplace, DHS's automated eligibility system, and applications to the DHS Division of County Operations. Medical frailty status, enrollment totals and QHP selection information are from the Private Option portal, insureark.org, and the Medicaid Management Information System (MMIS).

Notes:

(1) Some demographic information used in eligibility determinations was not successfully matched to Private Option enrollment and QHP selection information in preparation of this report. Percentages exclude such records.

(2) These percentages apply to those who have completed the enrollment process at insureark.org or have reached the end of the self-selection enrollment period. Those determined eligible on or after February 28 had not yet reached the end of this period at the time this data was compiled. For those determined eligible on or after February 28, the self-enrollment web portal insureark.org was still open beyond the run date for this report. Some individuals included in this report as eligible for Private Option expansion coverage may be determined medical frail, receive enrollment assistance from a broker, and/or make their own selection of a QHP after the closing date for this report.
