

ATSC Biennial Evaluation Report: Overview and Key Findings

Presented by
Battelle Evaluation Team

Kendra Versendaal

Agenda for this Presentation

- Evaluation Approach
- Overview of Report Outline
- Program Progress and Key Findings

Evaluation Approach

- Evaluation approach was designed to address the programmatic goals outlined in the Act
- Each program was responsible for reporting progress on a set of performance measures related to the short and long term goals specified in the Act
- Programs were encouraged to track outcome measures in addition to process measures to the extent possible

Report Format

- Summary
- Arkansas Health Needs
- Program Progress:
 - Summary Narrative
 - Performance Indicators and Progress
 - Success Story

Program Progress & Key Findings

College of Public Health at UAMS: Preparing Arkansas' Workforce

49% of graduates plan to work in public health in Arkansas
Graduates representative of the community, 50% of graduates are Minorities

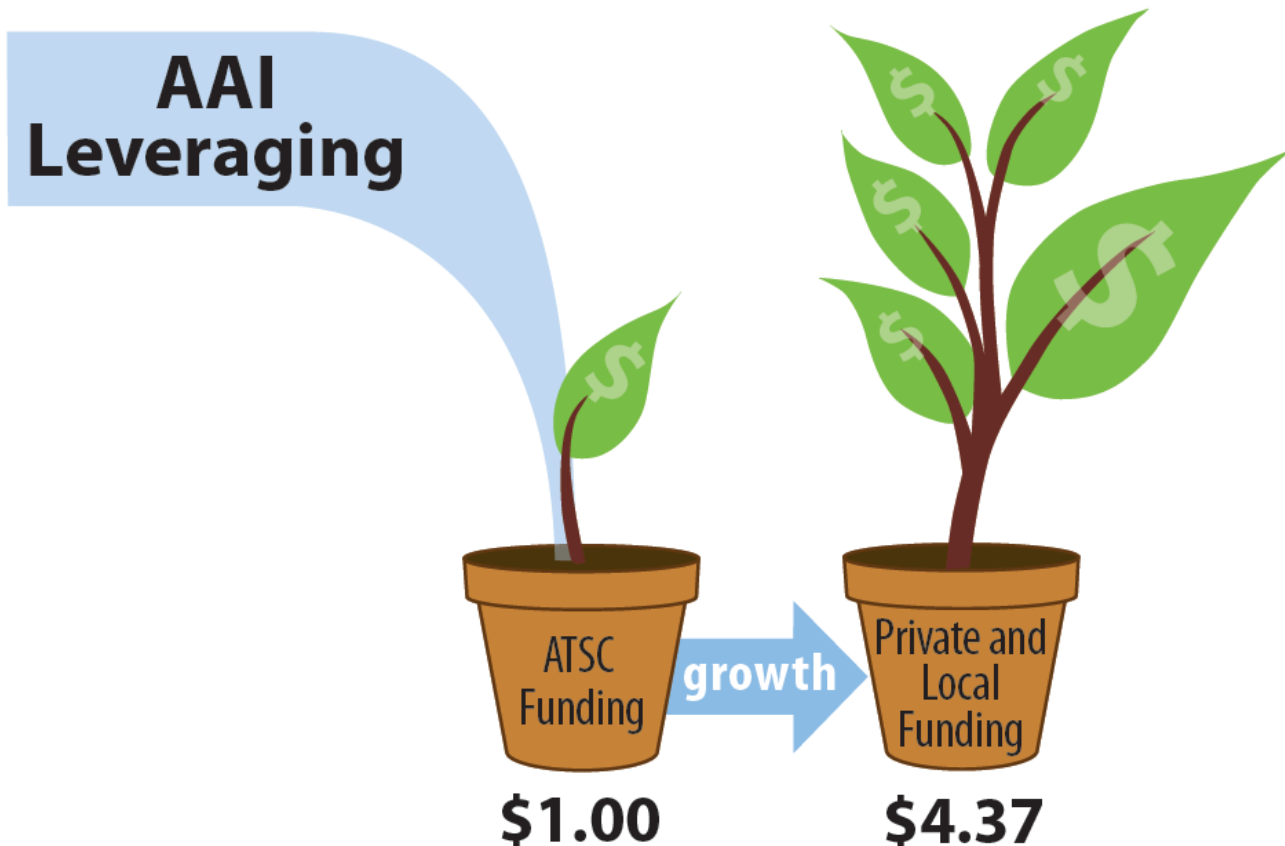

More than 78% of Faculty research projects focus on improving the health of Arkansans

Students come from across all parts of the state with 41 counties represented in the student body this biennium

48.8%

Arkansas Aging Initiative Successfully Leverages Funding

Minority Health Initiative

- Arkansas Minority Health Initiative (MHI) conducts research to identify health disparities in Arkansas. This past biennium MHI was involved in research for 6 reports
- MHI implemented several pilot projects to address health disparities identified. For example to address obesity, MHI piloted the Camp iRock and Southern Ain't Fried Sundays programs.
- Data suggest these may be promising solutions if programs can be expanded to reach more people.

UAMS East-Weight Lost by Fitness Center Members

2,461

Active Members of the UAMS
East's Fitness Center

246

Participate in the Center's
screening program

4111

Pounds lost collectively
by those participating in
the screening program.

That's roughly the weight
of an SUV

Tobacco Settlement Medicaid Expansion Program

Existing Tobacco Settlement Medicaid Expansion Programs	Coverage Needs Addressed	Impact of Private Option on Program	Enrollment FY2013 FY2014	Costs Covered by Tobacco Settlement Funds	Costs Covered by Federal Dollars Leveraged
