The allowance of service provision via telemedicine will not increase utilization of services as the services are still required for a beneficiary if they are in the RSPMI program. This rule reduces the cost associated with travel time to see the beneficiary in person when they could see the beneficiary 'face-to-face' via telemedicine.

- (5) a list of alternatives to the proposed rule that were suggested as a result of public comment and the reasons why the alternatives do not adequately address the problem to be solved by the proposed rule;
- (6) a statement of whether existing rules have created or contributed to the problem the agency seeks to address with the proposed rule and, if existing rules have created or contributed to the problem, an explanation of why amendment or repeal of the rule creating or contributing to the problem is not a sufficient response; and
