

Department of Human Services
Division of County Operations

As of Friday, February 26, 2016, DHS has processed 3,626 of the 4,045 newborn referrals received as of February 1. As of February 26, we have 419 left to process. We are on track to meet our goal to have these completed by the end of March 2016.

As a result of outreach to providers, we have received an additional 1478 from providers during the last week of February that we are also processing concurrently with the original list.

We will be ready to process newborns without the assistance of spreadsheets from providers by the end of March.
