## Summary for Arkansas Medicaid State Plan Amendment #2010-001 – Reimbursement Rate Increases for Selected Specialized Rehabilitative Equipment

Effective for claims with dates of service occurring on and after May 1, 2010, the Arkansas Department of Human Services will increase the Medicaid maximum reimbursement rates for specialized rehabilitative equipment. The rates are being increased in order to ensure the availability of these items for Arkansas Medicaid beneficiaries. Arkansas Medicaid implemented coverage of these services for beneficiaries under age twenty-one (21) in 1995 and the Medicaid maximums have not been revised since that time. The coverage for beneficiaries age twenty-one (21) and older was implemented in 1997 and the Medicaid maximums have not been revised since then. The new proposed rates are based on 85% of the current retail price for the item.
