Reports of Child Maltreatment

Quick Facts

Volume and Description of Child Maltreatment Reports

Volume of Incoming Reports
Maltreatment Reports Received During
4th Quarter SFY 2019

Of the 8,386 reports of child maltreatment accepted by the Arkansas Child Abuse Hotline during the quarter, 83 percent were assigned to DCFS and 17 percent were assigned to the Crimes Against Children Division (CACD) of the Arkansas State Police, which is responsible for investigating the most serious allegations of maltreatment.

Of the reports assigned to DCFS, 80 percent were assigned for an investigation and 20 percent were handled through Differential Response (DR).

DR allows the Division to respond to specific, low-risk maltreatment reports through a family assessment and provision of services rather than a traditional investigation.

The following types of allegations can qualify for DR:

- Inadequate Supervision if children are at least five
- Environmental Neglect if children are at least three
- Medical Neglect if children are at least thirteen
- Lock Out if children are at least ten
- Inadequate Food, Inadequate Shelter, Inadequate Clothing, or Educational Neglect with no age restrictions
- Certain allegations of abuse where the incident occurred at least one year prior to the report date

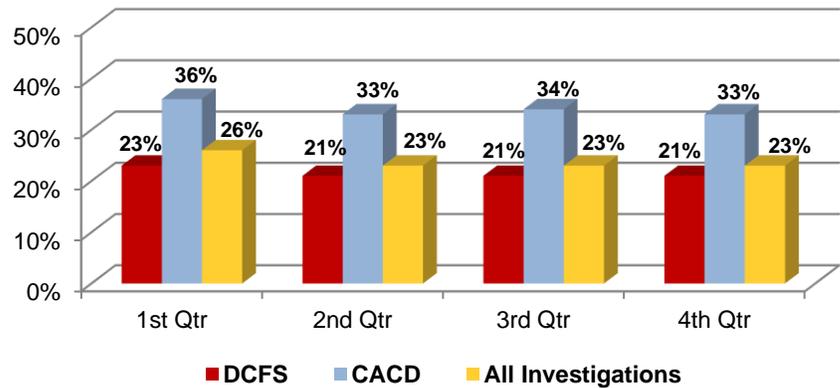

Quick Facts

Findings of Child Maltreatment Investigations

Twenty-one percent of the investigations assigned to DCFS during the quarter were found true, compared to 33 percent for CACD. The overall substantiation rate stood at 23 percent.

Appendix A provides further detail on the number of referrals accepted for investigation and those found true in the most recent quarter.

Percentage of Investigations Found True

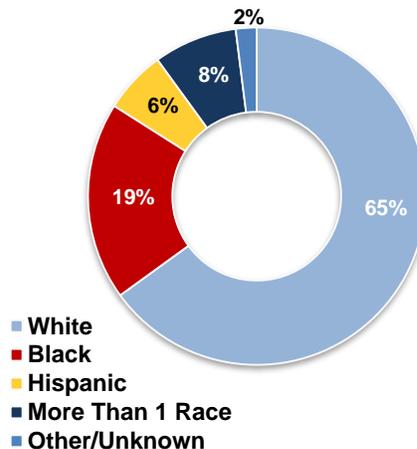

Characteristics of Children Involved in True Investigations

There were 2,208 victim children involved in substantiated maltreatment investigations.

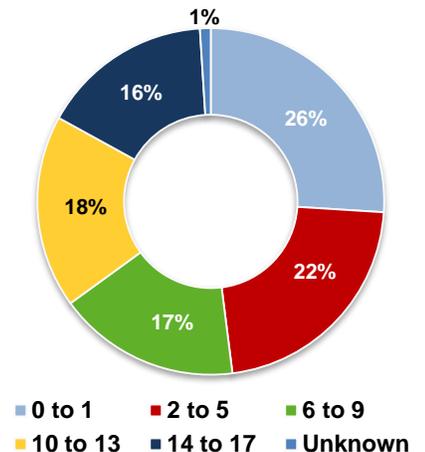

Of those children, 65 percent were white and 19 percent were black. Sixty-six percent of the children involved in true maltreatment investigations were under 10 years of age.

A majority of the victim children during the quarter (54 percent) were female.

Race/Ethnicity of Children in True Reports

Ages of Children in True Reports

Types of Allegations in True Investigations

Neglect was the most commonly reported allegation among the 2,208 victim children, followed by allegations of physical abuse and sexual abuse.

Percentage of Children in True Allegations of Maltreatment

	Number of Children Cited in True Allegation	Percentage of Children Cited in True Allegation
Neglect	1,509	68%
Physical Abuse	491	22%
Sexual Abuse	387	18%
Sexual Exploitation	24	1%
Abandonment	14	1%

A child may have more than one allegation.

Quick Facts

Reports Involving Fatalities or Near Fatalities

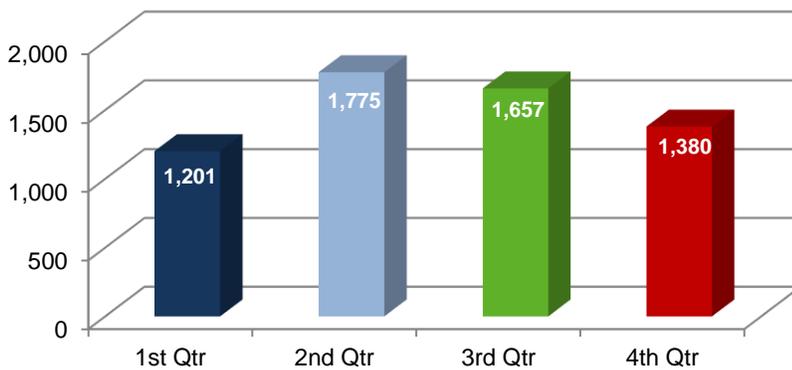

During the quarter, there were 17 maltreatment investigations of child fatalities. Of those, six were found true, two were unsubstantiated, and nine were still pending. There were also four investigations of near fatalities; one was substantiated and the remaining three were still pending.

Findings of Maltreatment Reports Involving Fatalities or Near Fatalities		
Finding	Child Fatality	Child Near Fatality
True	6	0
Unsubstantiated	2	1
Pending	9	3

Reports Assigned for Differential Response (DR)

The number of reports assigned for DR during the quarter (1,380) decreased by 17 percent from the previous quarter.

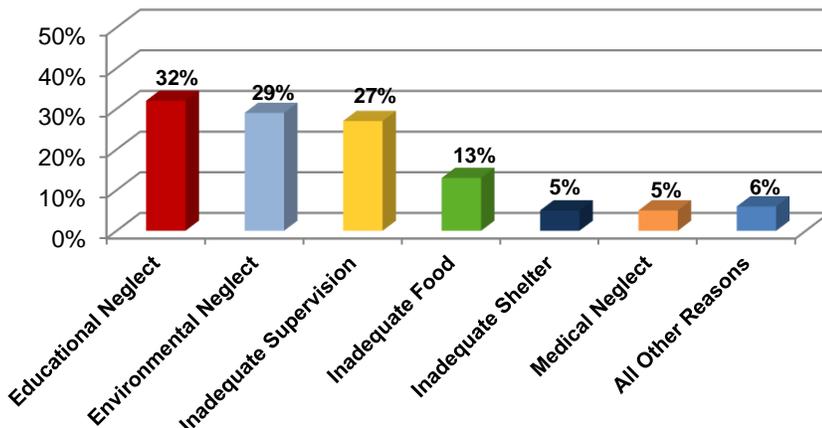

Number of Reports Assigned to Differential Response

Allegations Cited in DR Reports

Educational neglect was the most common allegation cited in reports assigned for DR, followed closely by environmental neglect and inadequate supervision.

Types of Allegations Cited in Reports Assigned for DR

Quick Facts

Meeting Agency Policies

Timeliness of Initiating Investigations

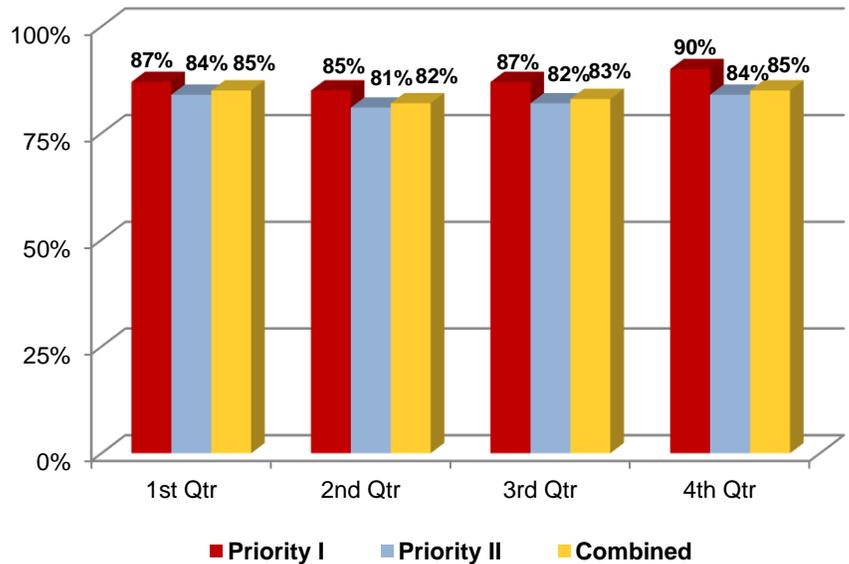

The law requires reports of maltreatment to be initiated within 24 hours of receipt of a Priority I report or within 72 hours for a Priority II report.

Priority I reports cite more severe allegations while Priority II reports cite comparatively less serious allegations.

Initiation occurs when all victim children are interviewed or observed (if too young for an interview) within the designated timeframes.

DCFS initiated 85 percent of its investigations on time during the fourth quarter.

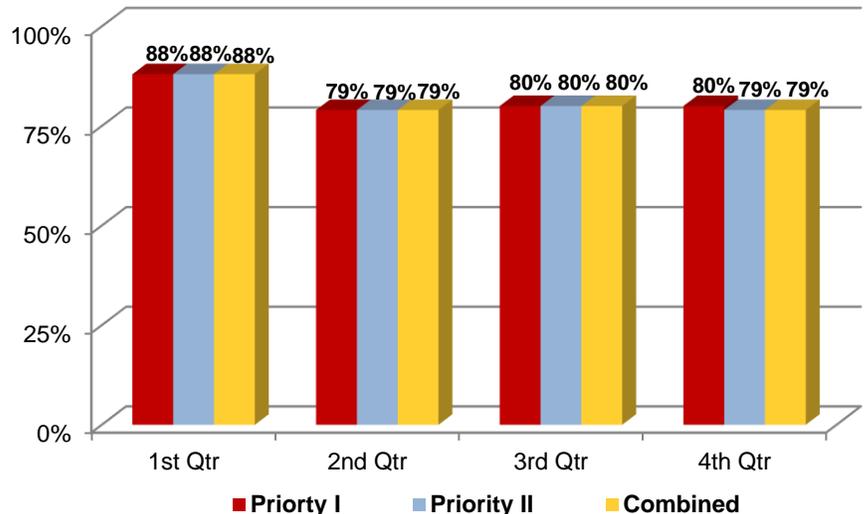

Timely Initiation of Child Maltreatment Assessments (DCFS Only)

Timeliness of Completing Investigations

DCFS completed 79 percent of its investigations on time (within 45 days of receipt of the report) during the quarter.

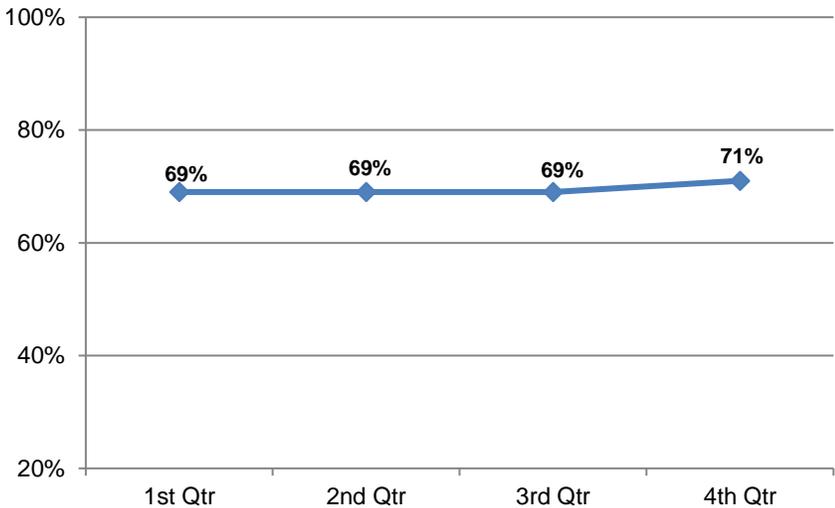

Timely Completion of Child Maltreatment Assessments (DCFS Only)

Quick Facts

Timeliness of Initiating Reports Assigned to DR

Timely Initiation of DR Reports

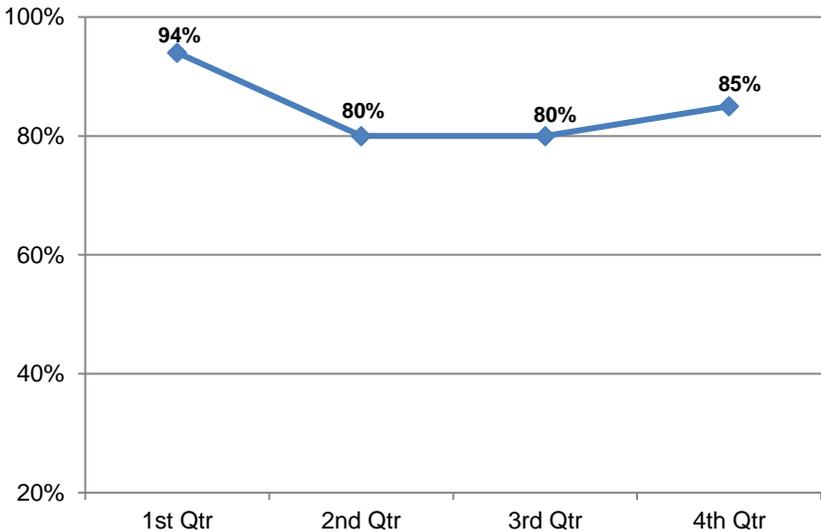

DR referrals must be initiated within 72 hours of receipt of the report.

DCFS initiated 71 percent of its DR reports on time during the fourth quarter, a slight improvement over its performance during the previous three quarters.

Timeliness of Completing Reports Assigned to DR

Timely Closure of DR Reports

Reports assigned to DR must be closed within 30 days of receipt of the report. In certain instances when the families' needs necessitate longer involvement, two 15-day extensions can be granted, for a total of 60 days.

The Division closed 85 percent of DR reports on time during the quarter, taking into account reports in which extensions were granted.

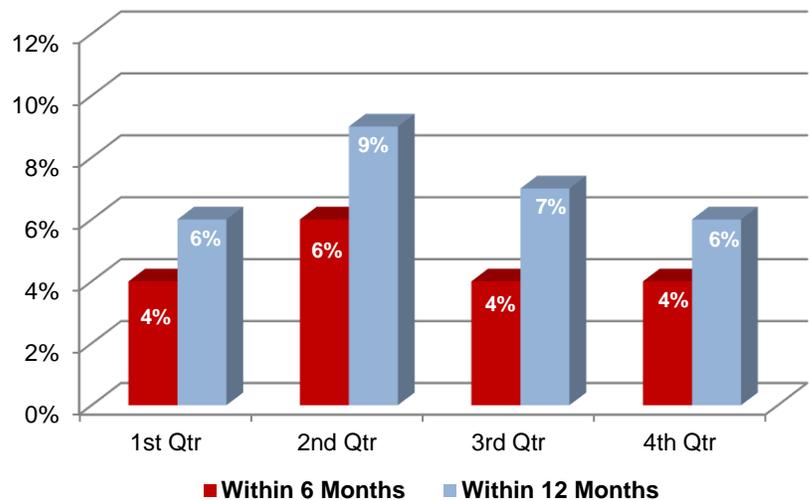

Quick Facts

Benefits to Children and Families

Preventing the Recurrence of Maltreatment

Six percent of the victim children involved in true investigations during the fourth quarter of SFY 2018 experienced a recurrence of maltreatment within 12 months. Four percent experienced a recurrence of maltreatment within six months.

Recurrence of Maltreatment within 6 and 12 Months

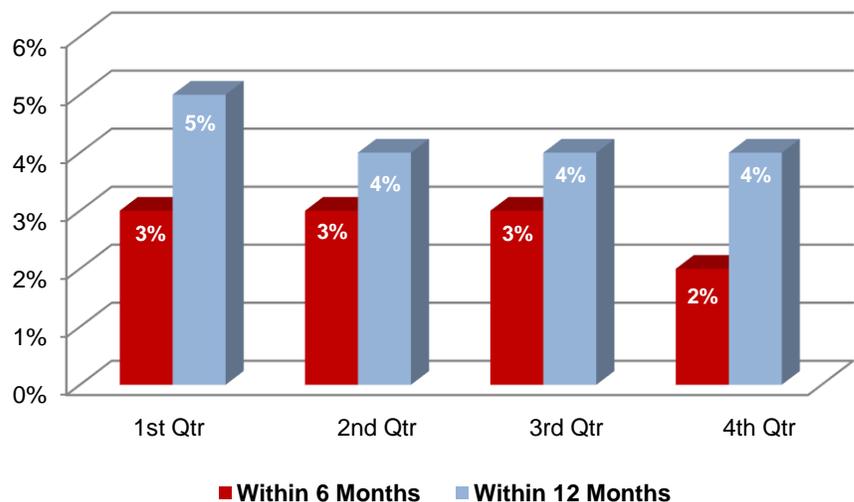

The National Standard for recurrence within 12 months is 9.1 percent or less

Recurrence of Maltreatment Among Families who Received DR

Four percent of the children who began receiving DR services during the fourth quarter of SFY 2018 were involved in a true investigation of child maltreatment within 12 months, and two percent were involved within six months.

Involvement in True Maltreatment Reports within 6 and 12 Months of Receiving DR Services

In-Home Services

Quick Facts

Volume and Description of Cases

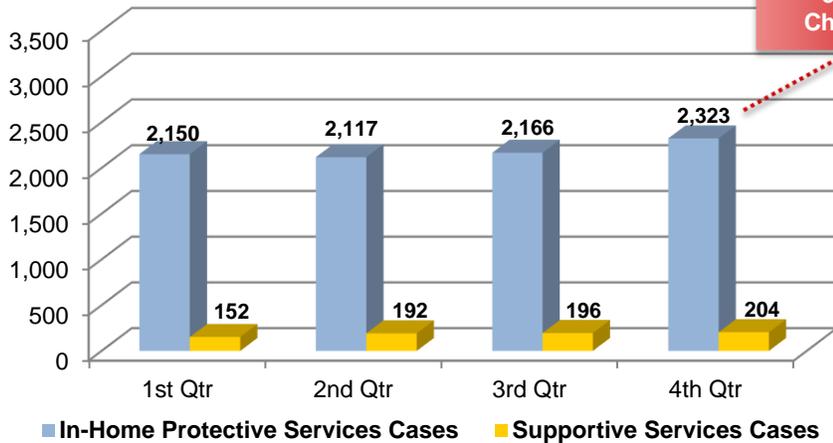

Volume of Cases

In most instances, DCFS offers in-home services through a protective services case, which is opened when a true maltreatment report or court order necessitates DCFS' involvement with a family but there is not an immediate threat to any child's safety in the home.

The number of in-home protective services cases increased during the quarter. There were 2,323 protective services cases, involving 5,396 children, open across the state at the end of the quarter.

The Division also offers in-home supportive services to families on a voluntary basis. DCFS was responsible for 204 supportive services cases at the end of the quarter.

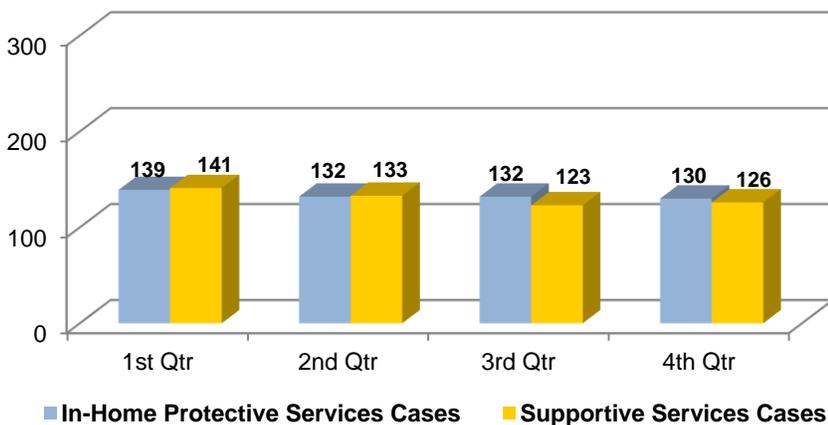

Number of Cases Open at the End of Quarter

Involving
5,396
Children

Length of Time Cases Have Been Open

Average Number of Days Cases Have Been Open as of the End of Quarter

The average length of time in-home protective services and supportive services cases have been open was similar to previous quarters.

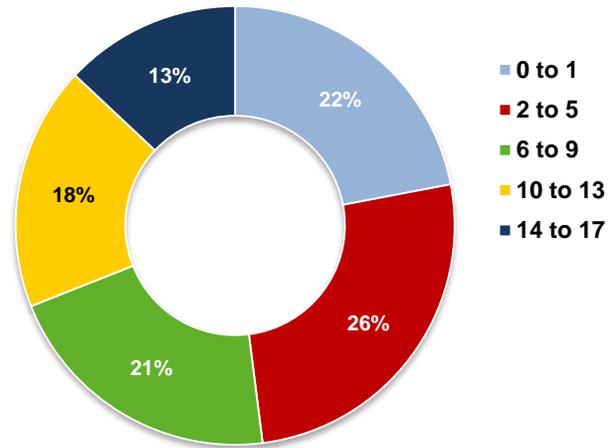

Both in-home protective services cases and supportive services cases that were open as of the end of the quarter had been open, on average, for just over four months.

Quick Facts

Ages of Children in In-Home Protective Services Cases

Children ages two to five made up the largest group of children involved in in-home protective services cases at the end of the quarter.

Ages of Children in In-Home Cases

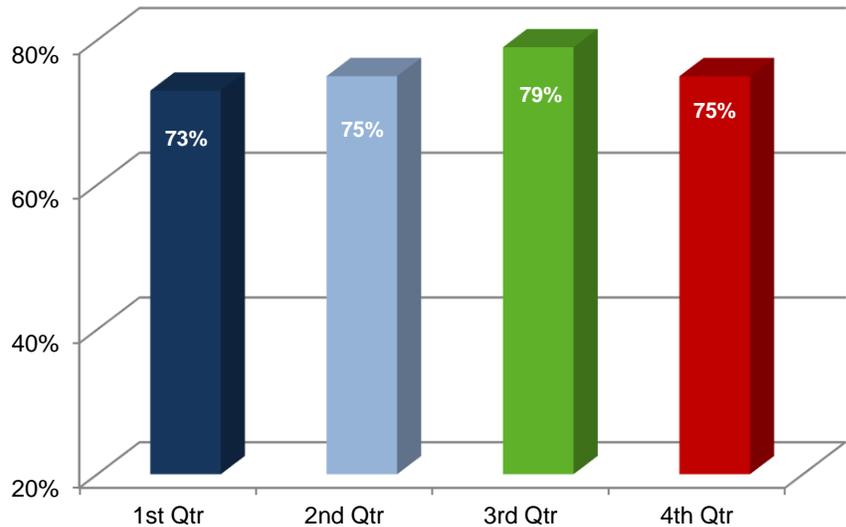

Meeting Agency Policies

Monthly Visits to In-Home Protective Services Cases

On average, 75 percent of the in-home protective services cases received a monthly face-to-face visit from a caseworker during the quarter.

This is four percentage points lower than the previous quarter. The Division's goal is 85 percent.

Required Monthly Visits to In-Home Cases

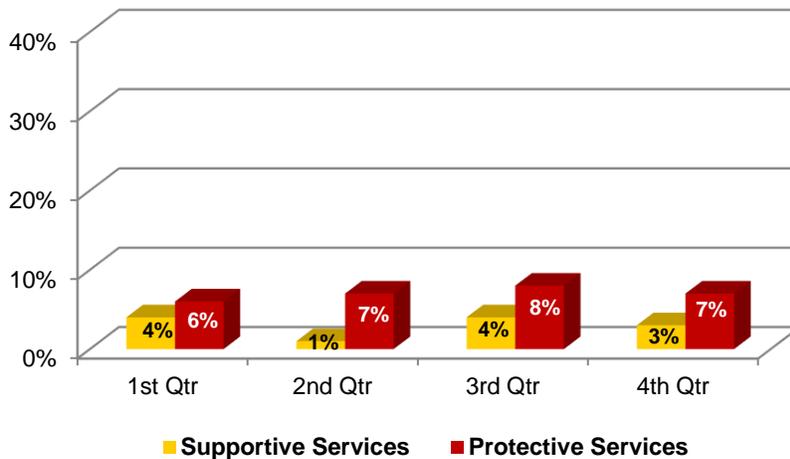

Quick Facts

Benefits to Children and Families

Victimization Rate Among Children Who Received Protective and Supportive Services

Percentage of Children Receiving Supportive and Protective Services who were Abused or Neglected within One Year of the Initiation of Service

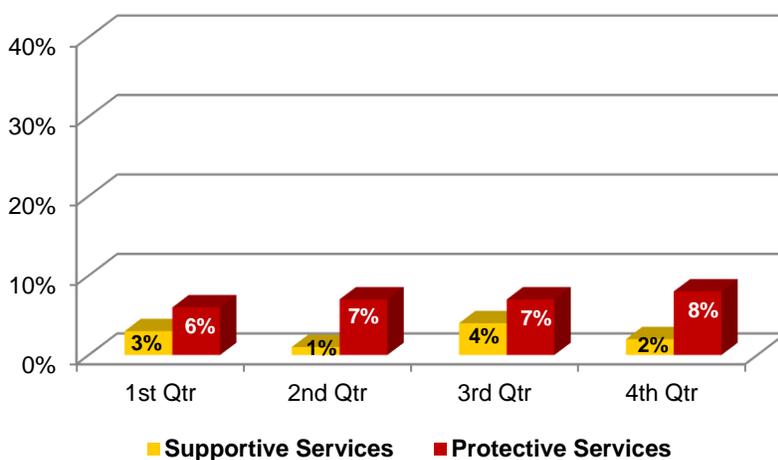

The percentage of children involved in a protective services case who were maltreated within one year of service initiation has hovered between six and eight percent over the last four quarters.

The rate of maltreatment for children involved through an in-home supportive services case was three percent for the most recent quarter.

Rate of Entry Into Foster Care Among Children Who Received Protective and Supportive Services

Percentage of Children Receiving Supportive or Protective Services who Entered Foster Care within One Year of the Initiation of Service

Of the children who began receiving protective services during the fourth quarter one year ago, eight percent entered foster care within one year of the initiation of those services.

Two percent of the children who began receiving supportive services during the same timeframe entered care within one year.

In-home services prevent the vast majority of children from being re-victimized or entering foster care within one year.

Quick Facts

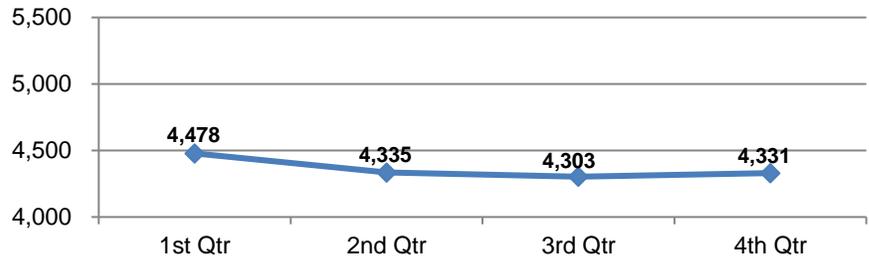

Foster Care

Volume and Description of Cases

Number of Children in Foster Care

There were 4,331 children in foster care at the end of the fourth quarter of SFY 2019, a slight increase from the previous quarter.

Number of Children in Foster Care at End of the Quarter

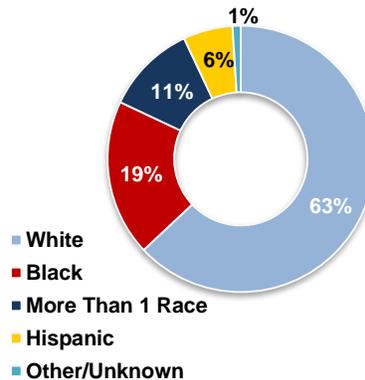

Characteristics of Children in Foster Care

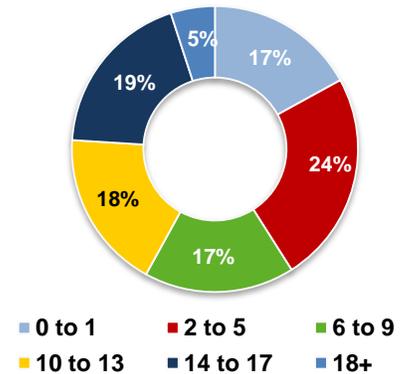

At the end of the quarter, children two to five years of age (24 percent) represented the largest group of children in care. Sixty-three percent of those in care were white and 19 percent were black.

Of the children in foster care at the end of the quarter, 51 percent were male and 49 percent were female.

Race/Ethnicity of Children in Care at the End of Quarter

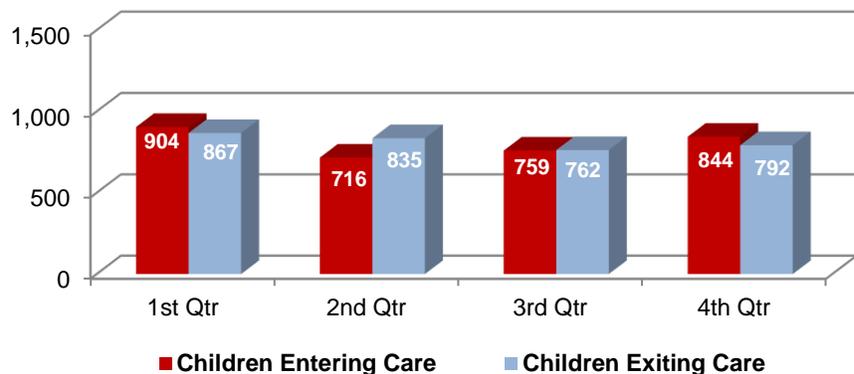

Ages of Children in Care at the End of the Quarter

Admissions Into and Discharges From Foster Care

During the fourth quarter of SFY 2019, more children entered foster care than exited.

Number of Admissions Into and Discharges From Foster Care During Quarter

Quick Facts

Reasons for Children's Entry Into Foster Care

Reasons for Children's Entry Into Foster Care 4th Quarter SFY 2019

Placement Reason	Number of Entries	Total
Substance Abuse	445 ¹	53%
Neglect	405	45%
Parent Incarceration	188	22%
Physical Abuse	126	15%
Inadequate Housing	109	13%
Sexual Abuse	46	5%
Caretaker Illness	29	3%
Child's Behavior	23	3%
Abandonment	17	2%
Truancy	13	2%
Death of Parent	9	1%
All Other Reasons	18	2%

A child may have more than one reason for entry.

Substance abuse and neglect were the most prevalent reasons for children entering foster care during the fourth quarter, consistent with the previous quarter.

Reasons for Children's Discharge From Foster Care

Reasons for Children's Discharge From Foster Care 4th Quarter SFY 2019

Discharge Reason	Number of Discharges	Total
Reunification	301	38%
Adoption	223	28%
Relative Custody	163	21%
Child Aged Out	52	7%
Non-Custodial Parent Custody	19	2%
Non-Relative Custody	18	2%
Guardianship	12	2%
Other	4	<1%

National data² indicate that the three most prevalent reasons children leave care are reunification (49%), adoption (24%), and guardianship (10%).

Thirty-eight percent of the children who left foster care during the quarter were reunified with their own family, 28 percent were adopted, and 21 percent were discharged to relative custody.

Arkansas (93 percent) exceeds the national average of 80 percent of children who achieve permanency either by returning home or via discharge to relatives, an adoptive home, or another permanent living arrangement.

¹ These 445 cases of substance abuse include 382 instances of parental drug abuse, 49 instances of drug abuse by children, 12 instances of parental alcohol abuse, and 2 instances of alcohol abuse by children.

² National data from the Children's Bureau (November 2018).

Quick Facts

Length of Stay in Foster Care

Of the children in foster care at the end of the quarter, the majority (53 percent) had been in care for less than 12 months.

Length of Stay in Foster Care for Children in Care
4th Quarter SFY 2019

Length of Stay	Number	Percentage	National
Less than 30 days	234	6%	5%
1-3 Months	475	11%	22%
3-6 Months	557	13%	
6-12 Months	1,017	23%	21%
12-24 Months	956	22%	25%
24-36 Months	470	11%	12%
36+ Months	622	14%	15%
Total	4,331	100%	100%

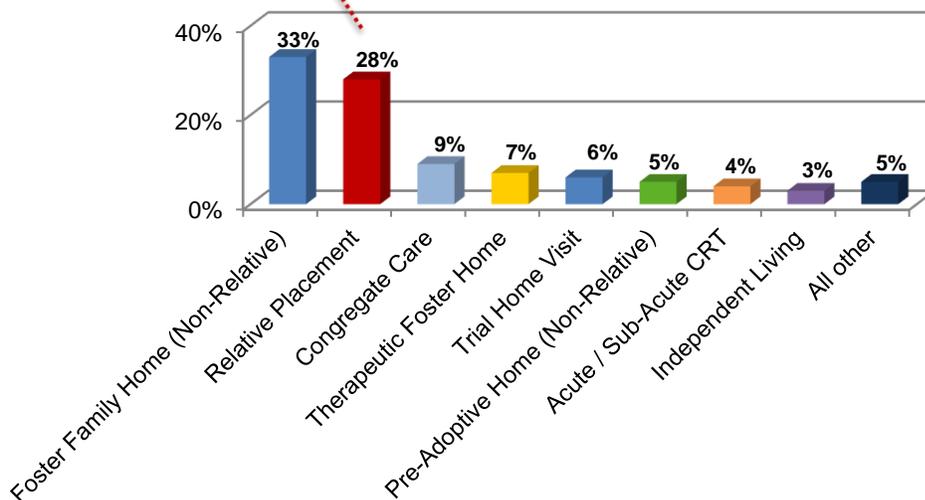

Placements of Children in Foster Care

Overall, 79 percent of the children in foster care at the end of the quarter resided in a family-like setting (foster family home, relative placement, trial home visit, therapeutic foster home, pre-adoptive home).

Nine percent resided in congregate care, which represents placement in emergency shelter, residential treatment, or residential care only programs.

Provisional (Rel/Fic): 13%
Foster Home (Rel/Fic): 12%
ICPC (Out of State): 2%
Pre-Adoptive (Relative): 1%
Other Relative: 0.5%

Placement of Children in Foster Care at the End of the Quarter

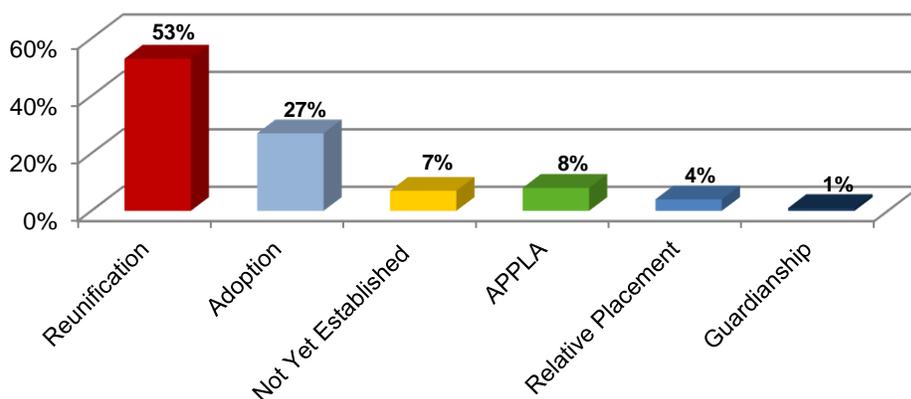

Permanency Goals of Children in Foster Care

Fifty-three percent of the children in care at the end of the quarter had a permanency goal of reunification (return home) and 27 percent had a goal of adoption.

These figures are similar to national data from the Children's Bureau as of November 2018, with averages of 56 percent for reunification and 27 percent for adoption.

Permanency Goals of Children in Foster Care

Quick Facts

Meeting Agency Policies

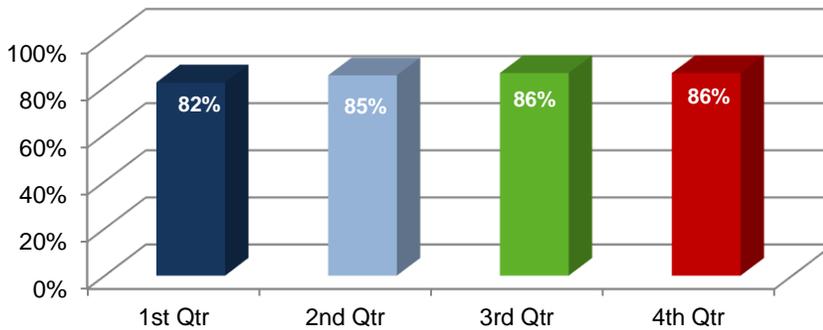

Monthly Visits to Foster Children

To ensure their safety and well-being, best practice requires foster children to be visited at their placement by a caseworker monthly (measured in this chart). The Division's goal is 85 percent.

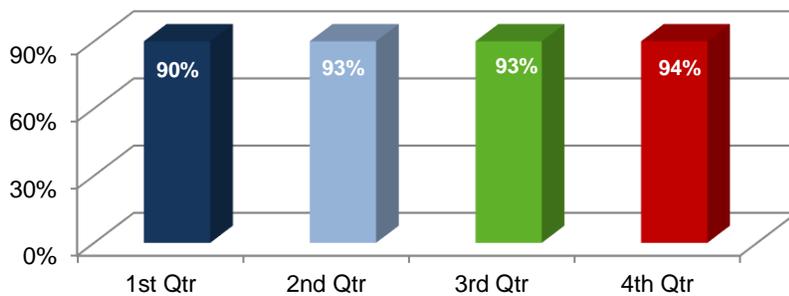

Eighty-six percent of the foster children statewide received a monthly face-to-face visit from a DCFS caseworker, on average, during the quarter.

Ninety-four percent of the foster children received a monthly face-to-face contact from any DCFS staff member, regardless of the staff member's position, location of the visit, or the purpose.

Foster Children who Received Monthly Face-to-Face Visits by Caseworkers

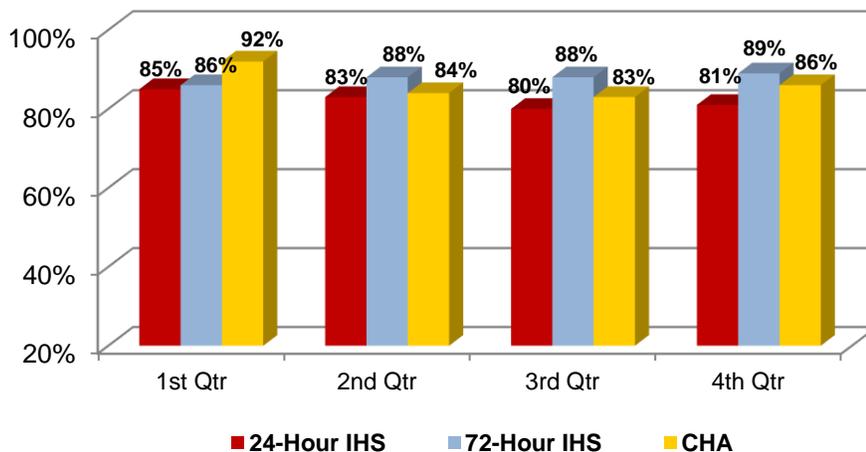

Foster Children who Received Monthly Face-to-Face Visits by Any DCFS Staff

Initial Health Screenings and Comprehensive Health Assessments

24-Hour and 72-Hour Initial Health Screenings and Comprehensive Health Assessments

When a child enters foster care due to an allegation of severe maltreatment, DCFS must conduct an Initial Health Screening (IHS) within 24 hours. All other incoming foster children require health screenings within 72 hours.

Children must also receive a Comprehensive Health Assessment (CHA) within 60 days of entering foster care.

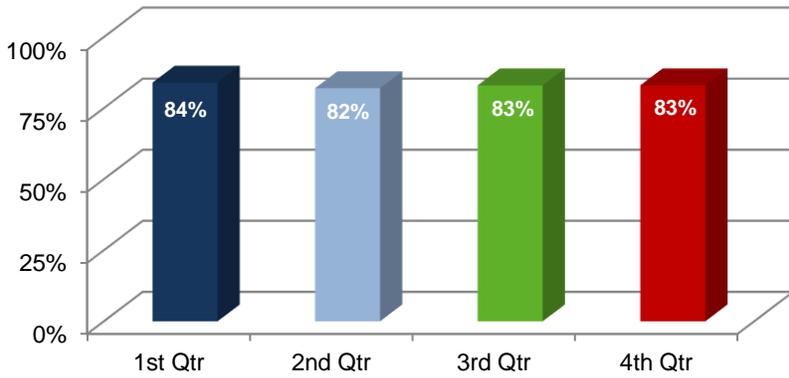

Quick Facts

Siblings in Care Who Are Placed Together

At the end of the quarter, 83 percent of the children with siblings in foster care were placed with at least one of their siblings, while 61 percent were placed with all of their siblings.

These figures do not exclude children who were placed separately for valid reasons such as safety issues or court orders.

Percentage of Siblings in Care who are Placed Together

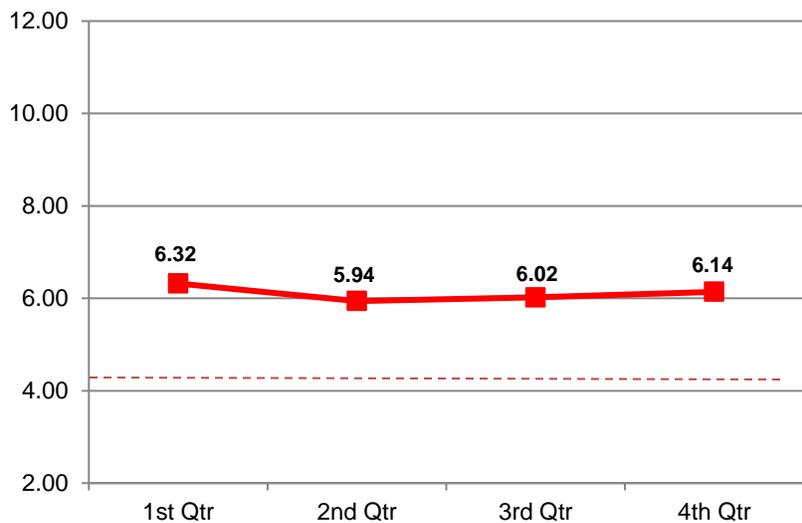

Placement Stability of Children in Foster Care

Placement stability is measured by the rate of placement moves per 1,000 days in foster care for children who enter care over a 12-month period.

For the fourth quarter, the placement stability rate was 6.14, similar to the previous quarter. The national standard is a rate 4.12.

Rate of Placement Moves Per 1,000 Days in Foster Care

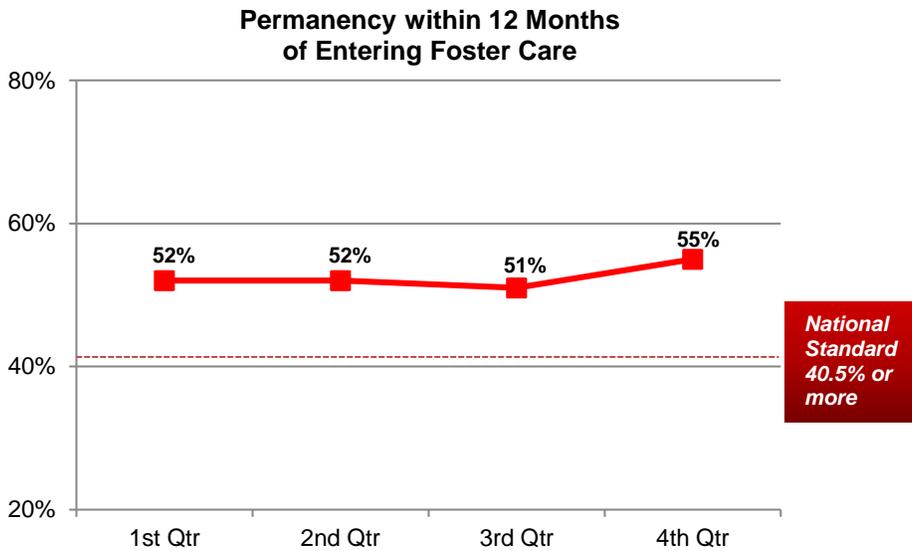

Quick Facts

Benefits to Children and Families

Achieving Permanency Within Twelve Months

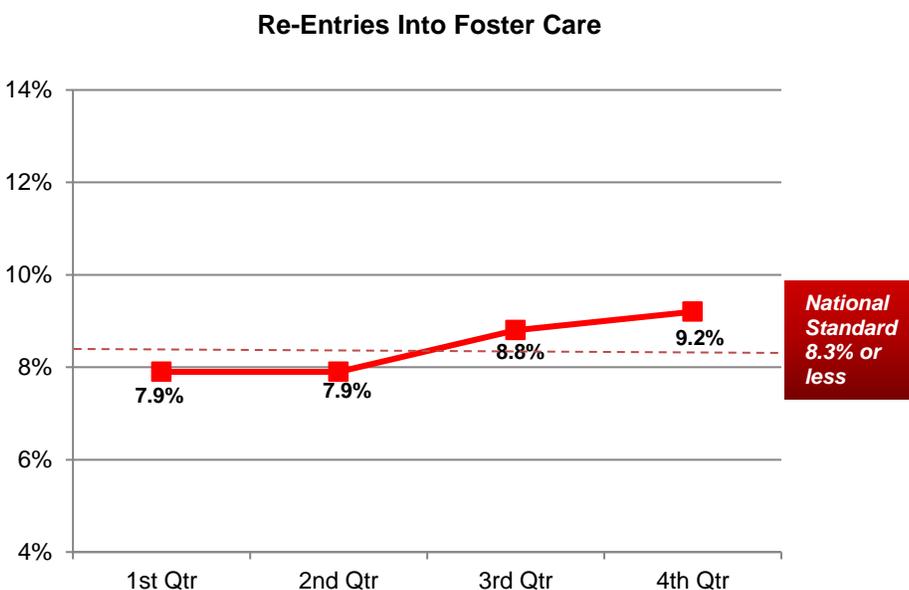

Arkansas consistently exceeds the national standard of 40.5 percent or more for achieving permanency (i.e., exiting foster care to a permanent living situation) for children within 12 months of removal.

Discharges from foster care due to reunification, relative custody, non-custodial parent custody, guardianship, adoption, and non-relative custody are considered to be permanent living situations.

Preventing Children's Re-Entry Into Foster Care

Nine percent of children who had reunited with their families re-entered foster care within 12 months of discharge for the fourth quarter of SFY 2019, similar to the previous quarter and just above the national standard (8.3 percent).

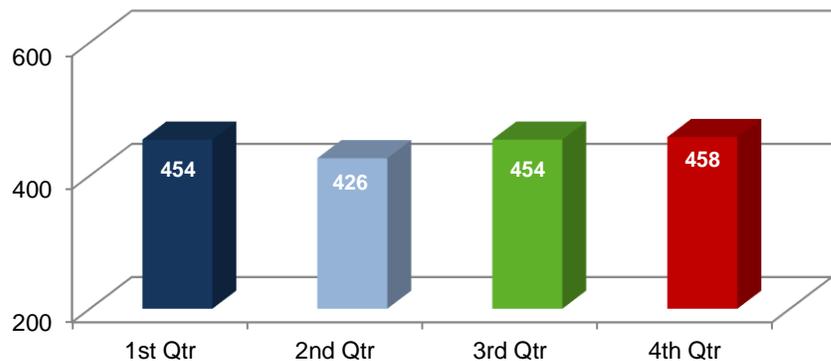

Volume and Description of Cases

Children Available for Adoption ³

At the end of the fourth quarter, 458 children were available for adoption.

DCFS estimates that it has identified a possible pre-adoptive placement for approximately 20 percent of the children available for adoption.

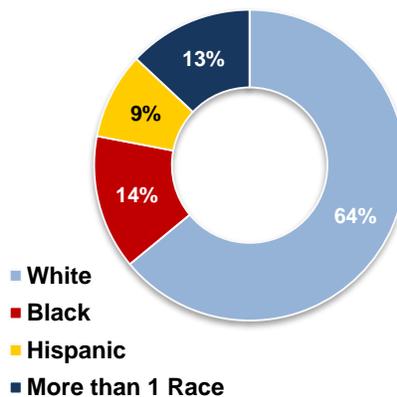

Number of Children Available for Adoption at the End of the Quarter

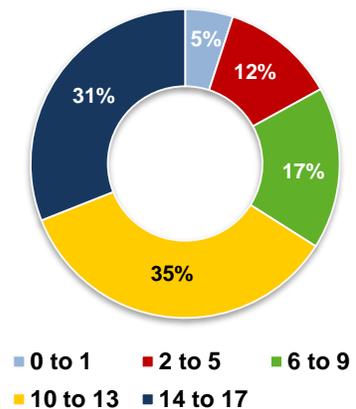

Characteristics of Children Available for Adoption

Of the available children, 64 percent were white and 14 percent were black. Children ages 10 and older made up the majority (66 percent) of the children available for adoption.

Race/Ethnicity of Children Available for Adoption

Ages of Children Available for Adoption

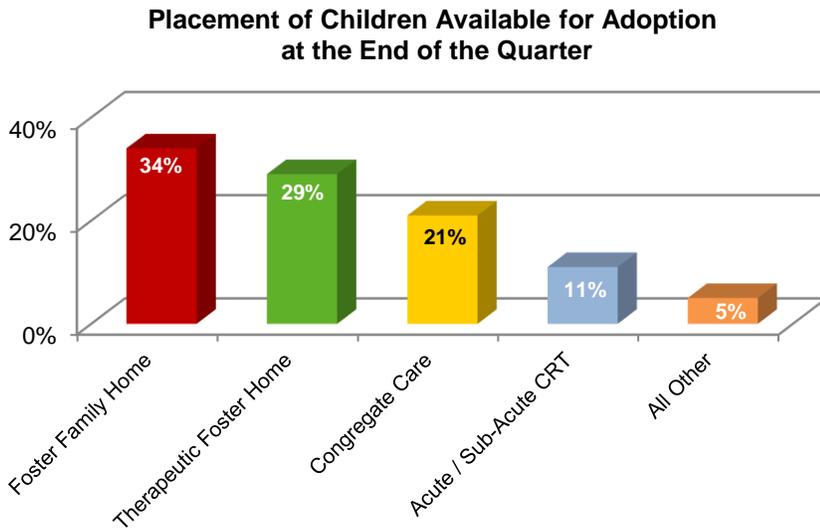

³ Children available for adoption are defined as those who (1) have a termination of parental rights on both parents, (2) have a permanency goal of adoption, and (3) are not placed with relatives, fictive kin, or a pre-adoptive family.

Quick Facts

Placement of Children Available for Adoption

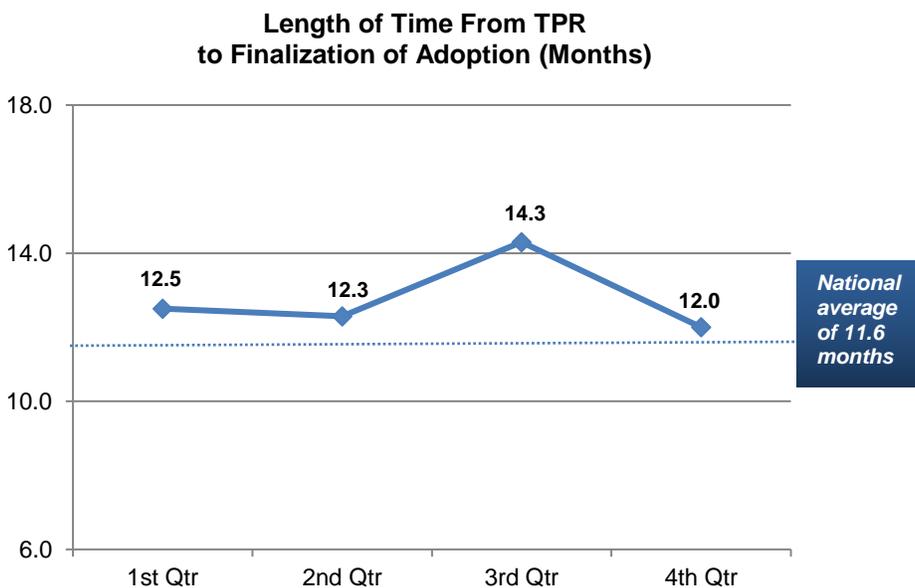

Sixty-three percent of the children available for adoption at the end of the quarter resided in either a foster family home or a therapeutic foster home.

Meeting Agency Policies

Length of Time to Adoption

Arkansas' average length of time from termination of parental rights (TPR) until adoption finalization was 12 months during the quarter, slightly longer than the national average of 11.6 months.

Quick Facts

Benefits to Children and Families

Finalized Adoptions

Two-hundred and twenty-two adoptions were finalized during the fourth quarter of SFY 2019.

Of those adoptions, 37 percent were finalized by relatives.

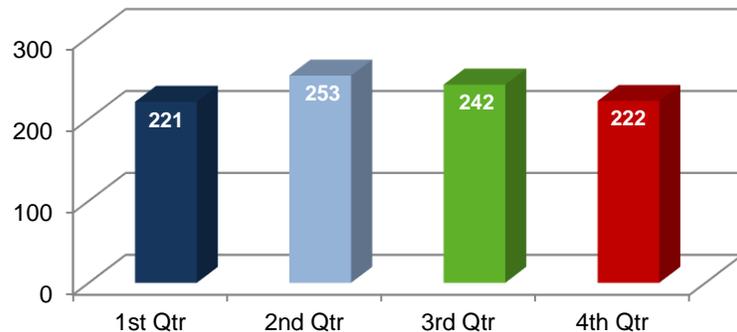

Children ages two to five made up the largest group (42 percent) among those adopted during the quarter, followed by those ages six to nine (21 percent).

Subsidized Adoptions

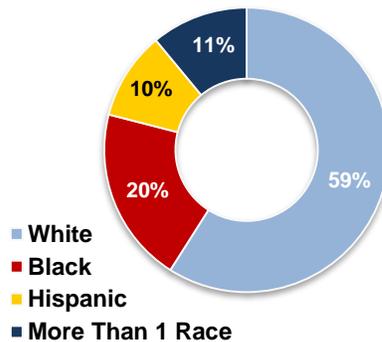

Subsidies are given to children with special needs, defined as:

- Caucasian and over nine
- Healthy child of color and at least two years of age
- Member of any sibling group placed together, sharing at least one biological parent, who develop a bond
- Children who have severe medical or psychological needs that require ongoing treatment
- Children at high risk for the development of serious physical, mental, or emotional conditions documented by a medical professional

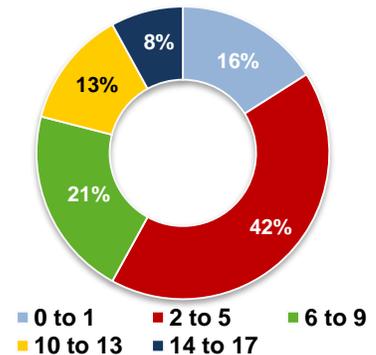

Number of Adoptions Finalized During the Quarter

Race/Ethnicity of Children with Finalized Adoption

Ages of Children with Finalized Adoption

During the fourth quarter, **203** children began receiving adoption subsidies. Of those, 199 were federally funded subsidies and four were state funded subsidies.

During the quarter, a total of **7,026** children received adoption subsidies.

Caseworkers and Caseloads

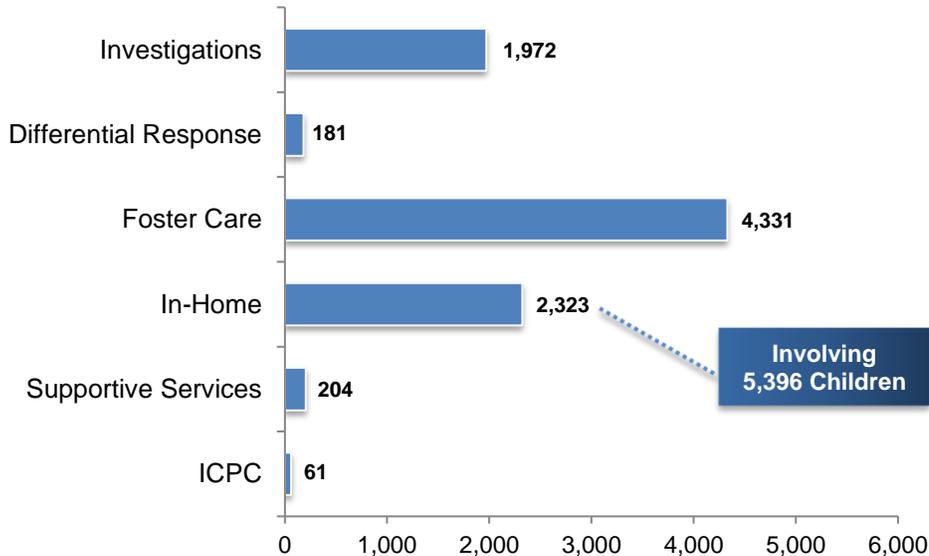

Caseloads at the End of the Quarter

At the end of the quarter, the Division was responsible for:

- 1,972 investigations of child maltreatment and 181 DR cases;
- 4,331 foster care cases;
- 2,323 in-home protective services cases, involving 5,396 children;
- 204 supportive services cases and 61 interstate compact for the placement of children (ICPC) cases.

This is while the Division was staffed with 464 family service workers, who were responsible for handling these cases.

Types of Cases at the End of the Quarter

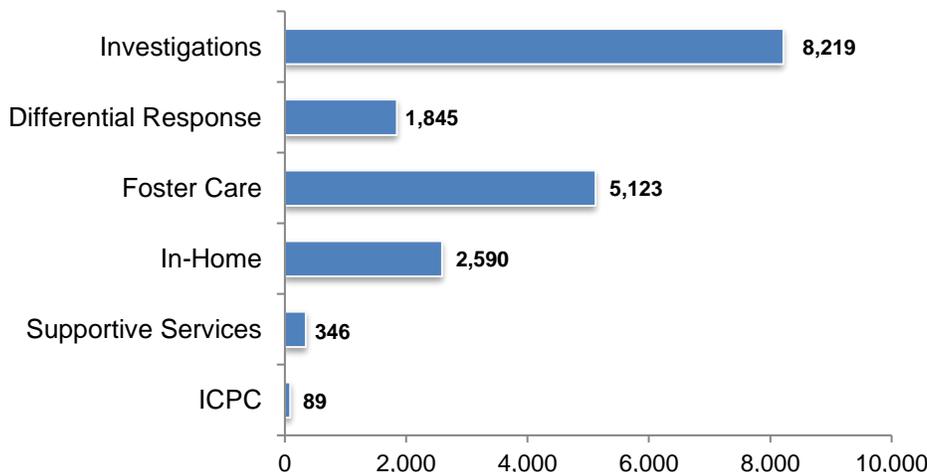

One foster care case is equal to one child in care; one in-home or supportive services case constitutes an entire family, many of which have multiple children.

Caseloads Handled *During* the Quarter

This figure illustrates the number of cases that cycled through the system anytime during the quarter (as opposed to those open at the end of the quarter, described above).

The Division oversaw 8,219 investigations, 1,845 DR cases, 5,123 children in foster care, 2,590 in-home protective services cases, 346 supportive services cases, and 89 ICPC cases.

Types of Cases Served During the Quarter

Quick Facts

Average Caseload

The average caseload statewide stood at just under 19 cases per worker at the end of the quarter. The Division's goal is 20 or fewer cases per worker.

The average caseload for each county as of June 2019 is presented in Appendix B.

Foster Homes

Foster Homes and Beds

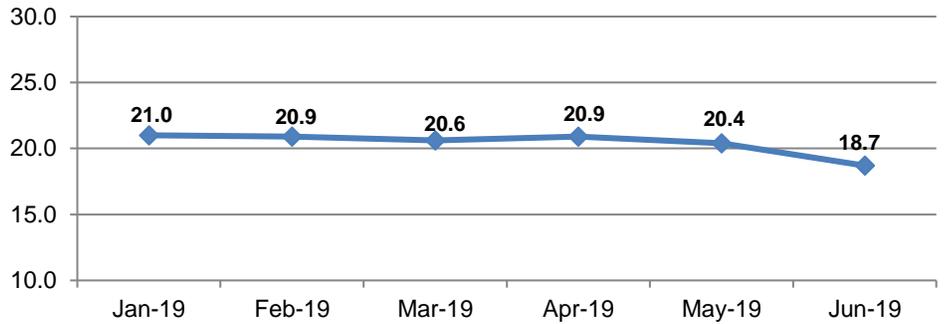

There were 1,560 licensed foster family homes open statewide at the end of the fourth quarter, providing a total of 3,527 available beds.

The number of available beds decreased from the previous quarter.

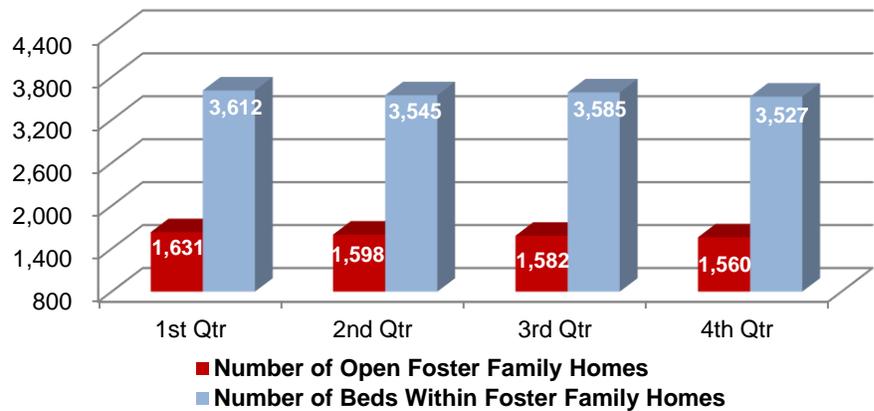

During the most recent quarter, 214 new foster homes were opened and 225 were closed, for a net loss of 11 homes.

Appendix C displays the closure reasons for the foster homes that closed during the quarter.

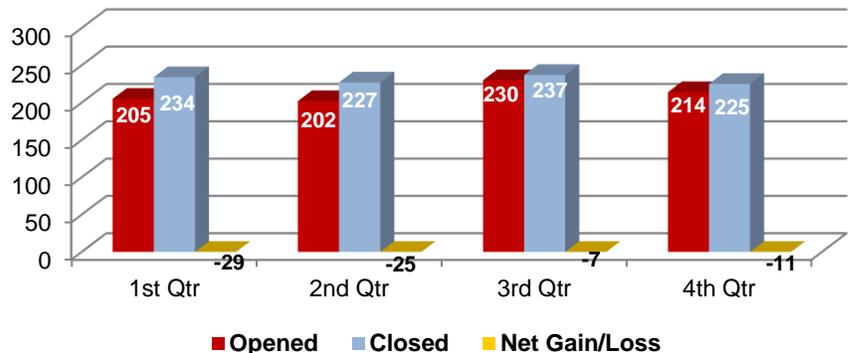

Average Caseload at the End of Month

Number of Foster Homes and Beds at the End of Quarter

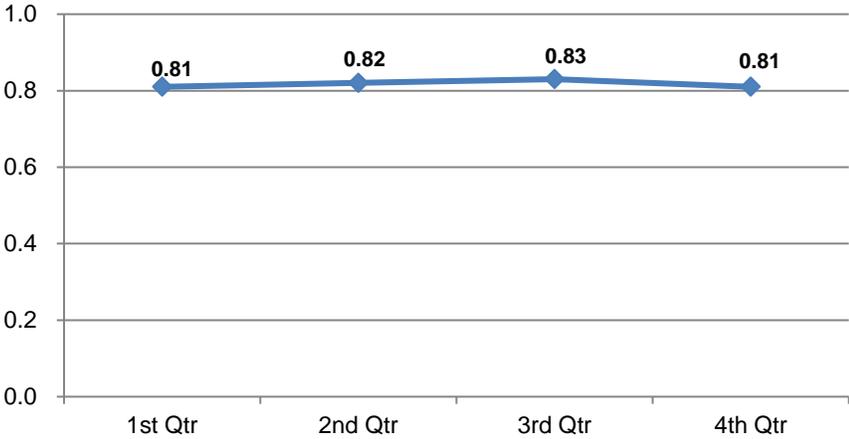

Number of Foster Homes Opened and Closed During the Quarter

Quick Facts

Ratio of Foster Home Beds to Foster Children

Foster Home Bed to Foster Child Ratio

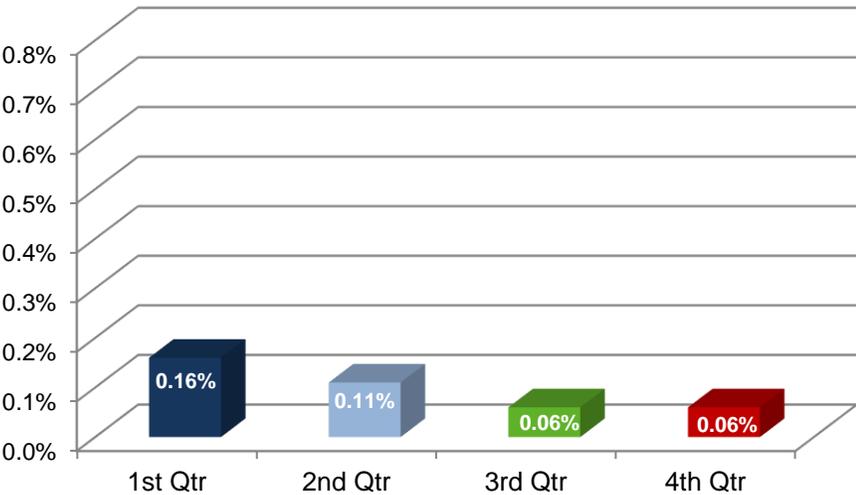

The ratio of licensed foster home beds to children in foster care was less than one (0.81) at the end of the quarter, similar to the ratio observed in recent quarters.

The Division's goal is to have at least one foster home bed available for each child in foster care.

Percentage of Foster Families with True Reports of Maltreatment

Percentage of Foster Families with True Reports of Maltreatment

One report in which foster parents were identified as alleged offenders was determined to be true during the quarter. Based on the 1,809 foster homes active during that period, the percentage of foster families with a true report of maltreatment was 0.06 percent.

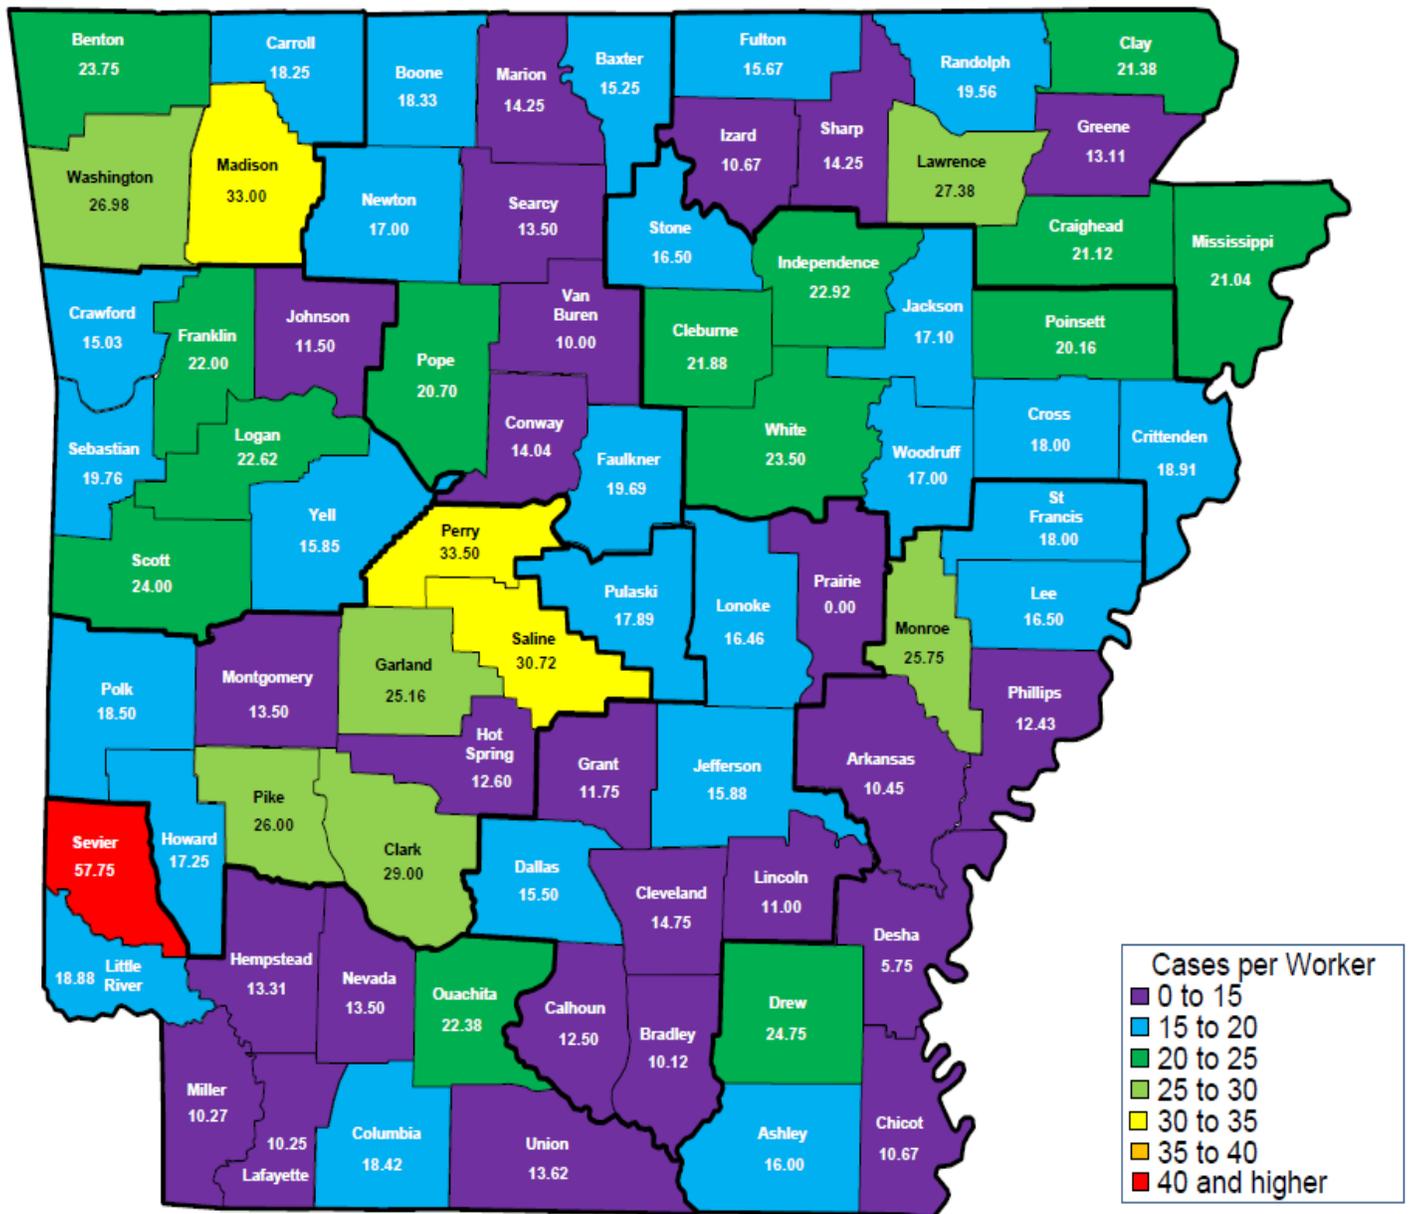

Appendix D provides more detail on maltreatment reports concerning foster homes.

Appendix A: Breakdown of Child Maltreatment Reports Received During the Quarter and Substantiation Rates of Maltreatment Investigations⁴

	DCFS				CACD		
	Total Assessments Assigned for DR	Total Assessments Assigned for Investigation	True Investigations	Percent True	Total Assessments Assigned for Investigation	True Investigations	Percent True
First Quarter 2019	1,126	5,210 <i>5,209 Closed</i>	1,222	23%	1,481 <i>1,396 Closed</i>	506	36%
Second Quarter 2019	1,588	6,217 <i>6,107 Closed</i>	1,267	21%	1,461 <i>1,379 Closed</i>	458	33%
Third Quarter 2019	1,699	5,610 <i>5,591 Closed</i>	1,179	21%	1,311 <i>1,232 Closed</i>	417	34%
Fourth Quarter 2019	1,692	5,911 <i>5,881 Closed</i>	1,238	21%	1,391 <i>1,325 Closed</i>	444	34%

⁴ The data cited in this appendix run two months behind the referenced quarter (e.g., the fourth quarter refers to 2/1/2019 through 4/30/2019); as a result, the numbers cited in this appendix differ from those cited throughout the report, which considers the actual quarter. This is because investigations have a 45-day completion timeframe and this allows enough time to pass to measure the disposition of the investigations. An investigation is excluded from the calculation of the substantiation rate in the event that it has not yet been closed (and thus a disposition has not yet been rendered).

Appendix B: Average Caseload as of June 30, 2019, by County

Prairie County did not have any family service workers at the end of the quarter; its cases were assigned to workers from other counties.

Appendix C: Foster Home Closure Reasons

Appendix D: Summary of Foster Care Maltreatment Reports

Characteristics of Children in Foster Care Involved in Allegations of Maltreatment, 4th Quarter SFY 2019

One-hundred and thirty reports of alleged maltreatment, involving 167 children in foster care, were received by the hotline during the fourth quarter of SFY 2019.

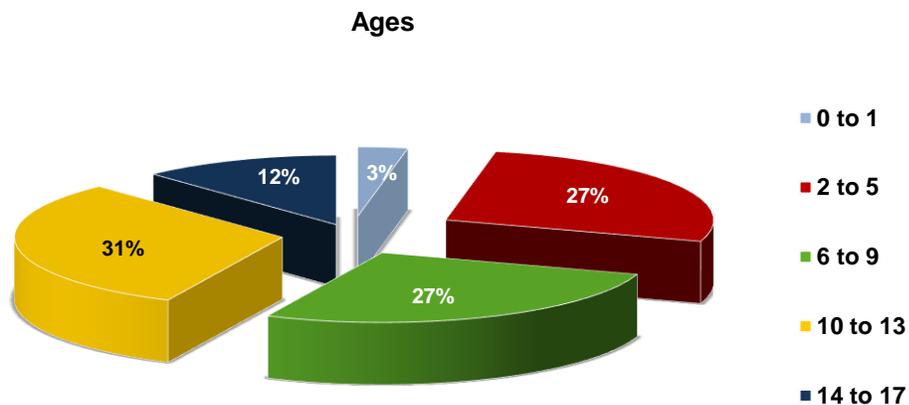

In 25 reports involving 33 children, foster parents⁵ were identified as the alleged offenders. As shown in the following chart, one of those reports was found to be true and that home was subsequently closed.

**Foster Home Maltreatment Reports
4th Quarter SFY 2019**

True	Unsubstantiated	Pending
1	24	0

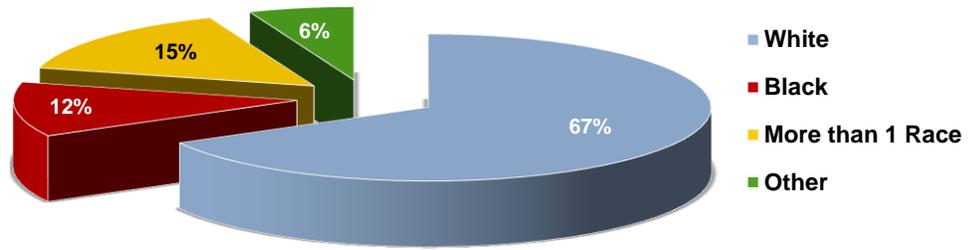

All allegations of maltreatment concerning foster homes are investigated by the Crimes Against Children Division (CACD) of the Arkansas State Police. DCFS staff do not actively participate in the investigation of these reports. Allegations of maltreatment regarding foster homes require the agency to assess the safety of all children residing in the home.

The following charts describe the characteristics of the 33 foster children involved in allegations of maltreatment with foster parents identified as the alleged offenders.

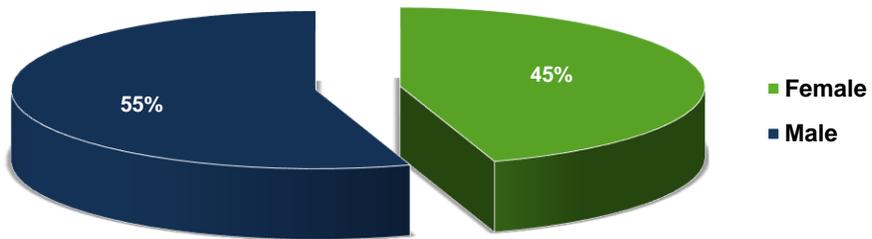

⁵ This includes foster family homes and therapeutic foster homes

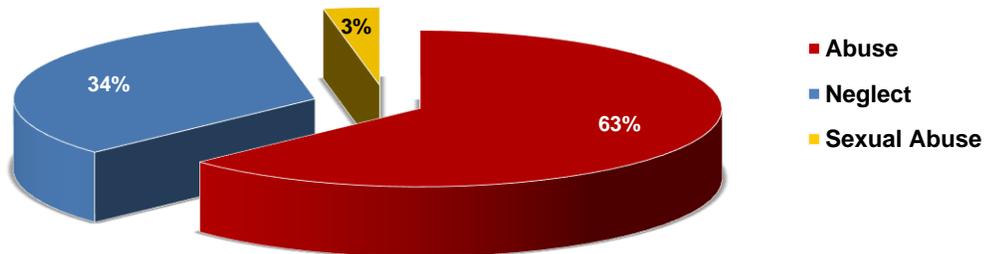

Race/Ethnicity

Gender

Allegation

County of Foster Homes in Which Alleged Maltreatment Occurred
