June 17, 2013

The Honorable David Meeks, Chair
House Committee on Aging, Children,
and Youth, Legislative and Military Affairs
Arkansas Legislative Council
315 State Capitol Building
Little Rock, Arkansas 72201

The Honorable Stephanie Flowers, Chair
Senate Committee on Children
and Youth
Arkansas Legislative Council
315 State Capitol Building
Little Rock, Arkansas 72201

Dear Representative Meeks and Senator Flowers:

Act 1222 of 1995 mandates a quarterly evaluation of the performance of the Division of Children and Family Services. Attached is the Quarterly Performance Report (QPR) produced in compliance with that mandate. The report covers the 3rd quarter of SFY 2013 (January 2013 to March 2013).

Forty copies of the report along with an electronic version are attached for your convenience. An addendum with additional information that has been requested by the legislative committees will follow in a separate document.

Should you have questions regarding this material, please feel free to contact me.

Sincerely,

Cecile Blucker
Director

CB: fs

cc: John Selig, Director, Department and Human Services

EXECUTIVE SUMMARY

The Quarterly Performance Report (QPR) is distributed to the Division of Children and Family Services' (DCFS) managers and legislative committees dealing with children and youth. The QPR for the third quarter of State Fiscal Year (SFY) 2013, specifically January through March 2013, consists of three parts:

1. **Performance Indicators**, which provide information on service outcomes, such as:
 - a. *Percentage of Children with True Allegations of Child Maltreatment Three Months, Six Months and One Year after a Previous True Report*
 - b. *Percentage of Siblings in Placement who are Placed Together*
 - c. *Percentage of Children Adopted Within One Year of Having Their Goal Changed to Adoption*

2. **Compliance Index**, which reports on the Division's compliance with requirements set by DCFS with guidance from the Arkansas legislative children and youth committees, such as:
 - a. *Timely Completion of Child Maltreatment Assessments*
 - b. *24- and 72-Hour Initial Health Screenings for Children Entering Foster Care*
 - c. *Foster Home Recruitment*

3. **Description of Population and Services**, which describes the children who were the subjects of maltreatment reports, were served in foster care and were provided adoption services, such as:
 - a. *Permanency Goals of Children in Foster Care*
 - b. *Characteristics of Children in Pre-Adoptive Homes*

The QPR provides this information on a quarterly basis, showing trends over time. The report provides the agency with information on the populations it serves and on pertinent issues so the agency can improve performance and better target its efforts.

EXECUTIVE SUMMARY

The Quarterly Performance Report (QPR) is distributed to the Division of Children and Family Services' (DCFS) managers and legislative committees dealing with children and youth. The QPR for the third quarter of State Fiscal Year (SFY) 2013, specifically January through March 2013, consists of three parts:

1. **Performance Indicators**, which provide information on service outcomes, such as:
 - a. *Percentage of Children with True Allegations of Child Maltreatment Three Months, Six Months and One Year after a Previous True Report*
 - b. *Percentage of Siblings in Placement who are Placed Together*
 - c. *Percentage of Children Adopted Within One Year of Having Their Goal Changed to Adoption*

2. **Compliance Index**, which reports on the Division's compliance with requirements set by DCFS with guidance from the Arkansas legislative children and youth committees, such as:
 - a. *Timely Completion of Child Maltreatment Assessments*
 - b. *24- and 72-Hour Initial Health Screenings for Children Entering Foster Care*
 - c. *Foster Home Recruitment*

3. **Description of Population and Services**, which describes the children who were the subjects of maltreatment reports, were served in foster care and were provided adoption services, such as:
 - a. *Permanency Goals of Children in Foster Care*
 - b. *Characteristics of Children in Pre-Adoptive Homes*

The QPR provides this information on a quarterly basis, showing trends over time. The report provides the agency with information on the populations it serves and on pertinent issues so the agency can improve performance and better target its efforts.

Part I: Performance Indicators

DCFS has established nine performance indicators to measure its progress with regard to its major goals of child safety, permanency and well-being. During the third quarter, DCFS continued its efforts toward meeting these goals. Overall, DCFS maintained a performance standard that mirrors past efforts and successes.

There were no noteworthy areas in this section during the third quarter.

Part II: Compliance Index

DCFS has set compliance measures with guidance from the House Committees on Aging, Children and Youth, Legislative and Military Affairs and the Senate Interim Committee on Children and Youth. An index is compiled by reporting the level of compliance with the measures.

For the third quarter, the QPR addresses six noteworthy areas, as shown below:

- Timely Initiation of Child Maltreatment Assessments

DCFS initiated **86 percent** of its assigned investigations on time, which was a three percentage point increase from the previous quarter. Compliance remains less than the compliance goal of 95 percent.

With respect to Priority I referrals, four of the ten DCFS Service Areas met or exceeded the established goal of 95 percent, and the remaining six areas initiated at least 88 percent of their Priority I referrals on time. Among Priority II referrals, which make up the bulk of the investigations assigned to DCFS, no individual areas met the compliance goal of 95 percent, although Areas 4 (93 percent) and 1 (90 percent) came the closest.

The Division has established corrective action plans to help improve the timeliness of initiations in the areas where performance fell short of the established goals. Corrective actions include the hiring and training of new staff to fill vacant positions; assigning investigations to staff sooner; improving the supervisory oversight of staff's workloads; initiating investigations on time by working evenings, weekends and holidays; and ensuring that caseworkers document their interviews with alleged victim children into DCFS' information system (CHRIS) in a timely manner to receive credit for the initiation. In the event that alleged victim children are not seen despite workers' multiple attempts, staff will make concerted efforts to document their attempts in CHRIS in order to receive credit.

- Timely Completion of Child Maltreatment Assessments

The percentage of investigations completed in a timely manner for the quarter was **61 percent**, which was 15 percentage points higher than the previous quarter (46 percent). Statewide compliance continued to be below the compliance goal of 90 percent.

Compliance improved in nearly all areas during the quarter. Areas 4 and 8 completed the highest percentage of their investigations on time, with staff in those areas completing more than 85 percent within the 30-day timeframe. On the other hand, less than half of the investigations assigned to Areas 1 and 6 were completed on time.

Area Directors have established corrective actions to improve performance for future quarters. First, explicit efforts are being made to ensure that investigators document their activities in CHRIS in a timelier manner. Several areas are requiring their staff to conference with their supervisors at pre-determined intervals throughout the course of an investigation; at the same time, some areas are also directing staff to complete investigations several days prior to the conclusion of the 30-day timeframe so that supervisors have sufficient time to review them. Area 1, which completed fewer investigations on time than did any other area during the quarter, attributed its poor rate, at least in part, to a heavy backlog of overdue investigations. Areas 3 and 5, meanwhile, indicated that their completion rates should improve once they fill vacant positions.

- 24-Hour and 72-Hour Initial Health Screenings (IHS) for Children Entering Foster Care

During the third quarter, **82 percent** of the children requiring a 24-hour initial health screening received the screening on time. This represents an increase in compliance of seven percentage points when compared to the previous quarter (75 percent) but remains below the goal of 95 percent.

Meanwhile, **85 percent** of the children who required a 72-hour initial health screening received the service on time, a decrease of three percentage points from the previous quarter (88 percent) and still below the goal of 95 percent.

Only Areas 2 and 4 met the 95 percent compliance goal for the 24-hour initial health screenings; with respect to the 72-hour initial health screenings, only Area 7 met the goal, although Areas 2, 4, 6 and 10 just barely missed it. For both 24-hour and 72-hour screenings, staff from Areas 1 and 9 struggled the most.

With most areas struggling to meet the compliance goal on this measure, Area Directors have developed corrective actions to remedy the barriers that prevent the timely completion of initial health screenings. Many areas have emphasized the need for caseworkers to schedule health screenings as soon as children come into foster care and to submit completed screenings to the agency's health service workers promptly so that the relevant information can be entered into CHRIS. Several areas continue to attribute their lower-than-expected compliance figures to scheduling and availability problems between workers and health care providers. For Area 1, transportation was cited as an additional barrier to getting children seen immediately. The expectation among most Area Directors is that improved communication and scheduling with providers along with greater supervisory oversight can improve compliance for future quarters.

- Comprehensive Health Assessments

The percentage of comprehensive health assessments completed on time was **77 percent**, which was two percentage points higher than the previous quarter (75 percent). Compliance remains below the goal of 95 percent.

Of the ten DCFS Service Areas, only Areas 6 and 10 met the compliance goal for comprehensive health assessments, with Area 3 (94 percent) nearly meeting it. The lowest compliance rates were observed in Areas 4 and 5.

The Division has established corrective actions to increase compliance for this measure. The same issues that served as barriers to the timely completion of initial health screenings have adversely affected the timely completion of comprehensive health assessments. Area Directors hope that improved communication among staff and scheduling with providers can further improve performance.

- Required Visits Made by Worker

During the third quarter, the percentage of foster children who received a required monthly visit from their caseworkers averaged **65 percent**, which was an increase of two percentage points from the previous quarter but still below the goal of 85 percent. The percentage of children who received visits for each of the months from January through March was 64 percent, 65 percent, and 67 percent, respectively. In addition to visiting children in foster care, caseworkers are also required to make monthly visits to families involved with the agency through in-home protective services cases.¹ At the end of the third quarter, there were 2,953 in-home protective services cases open across the state, involving 6,682 children.

¹ In-home protective services cases are cases in which DCFS monitors the risk and safety issues within the family's home but they have not warranted the removal of children.

Among DCFS' ten Service Areas, only Area 4 met the compliance goal of completing at least 85 percent of the required visits to see children in foster care during the quarter. The next-highest performing areas were Areas 5, 6 and 10, with staff in each of these areas completing at least 75 percent of their required visits. Agency staff in Areas 1 and 7 continued to struggle at visiting foster children, making less than half of their required visits during the quarter.

In order to increase the number of required visits made by workers, several areas have placed a greater focus on monitoring workers' visitation schedules to ensure that they manage their time efficiently. Such efforts include having workers schedule more visits in the late afternoon and evening when families are more likely to be home. The recent development of a CHRIS-based report, updated daily, allows staff to monitor compliance with visitation on a case-specific basis.

Part III: Description of Population and Services

The Description of Population and Services section describes the children who were subjects of maltreatment reports, were served in foster care and were provided with adoption services.

There were no noteworthy areas in this section for the third quarter.

PART I: PERFORMANCE INDICATORS

The Division has established nine performance measures to indicate achievement levels related to its major goals in child safety, family preservation and permanency:

- Percentage of children with true allegations of maltreatment three months, six months and one year after a previous true report;
- Percentage of foster families with true reports of maltreatment;
- Percentage of children receiving Supportive Services or Protective Services who were abused or neglected within one year of the initiation of services;
- Percentage of children receiving Supportive Services or Protective Services who entered foster care within one year of the initiation of services;
- Percentage of children in foster care who returned home within eighteen months;
- Percentage of children in foster care who have experienced two or fewer placements;
- Percentage of siblings in placement who are placed together;
- Percentage of children who were adopted within one year of having their goal changed to adoption; and
- Number of children placed in pre-adoptive homes whose adoptions were finalized within twelve months of entering pre-adoptive placements.

Percentage of Children with True Allegations of Child Maltreatment Three Months, Six Months and One Year after a Previous True Report

Of the 2,694 children involved in true reports of maltreatment during the third quarter one year ago, 10 percent (281) had a subsequent true report within 12 months.

Chart 1: Recurrence of Maltreatment within 12 Months of Initial Report

Percentage of Foster Families with True Reports of Maltreatment

Of the 40 foster home maltreatment reports received during the third quarter in which foster parents were the alleged offenders, two were determined to be true. Based on the 1,542 foster homes² active during the quarter, the percentage of foster families with a true report of maltreatment was 0.13 percent.

Chart 2: Percentage of Foster Families with True Reports of Maltreatment

² This includes family and therapeutic foster homes.

Percentage of Children Receiving Supportive Services or Protective Services who were Abused or Neglected within One Year of the Initiation of Services

Of the 231 children who began receiving Supportive Services during the third quarter one year ago, seven (three percent) experienced a true report of maltreatment within one year. Of the 2,916 children who began receiving Protective Services during the third quarter one year ago, 230 children (eight percent) were involved in a true report within one year.

Chart 3: Children Receiving Supportive Services and Protective Services who were Abused or Neglected within One Year of the Initiation of Service

Percentage of Children Receiving Supportive Services or Protective Services who Entered Foster Care within One Year of the Initiation of Services

Of the 231 children who began receiving Supportive Services during the third quarter one year ago, seven (three percent) entered foster care within one year of the initiation of those services. Meanwhile, 190 of the 2,916 (seven percent) children who began receiving Protective Services during the same timeframe entered care within one year.

Chart 4: Children Receiving Supportive Services or Protective Services who Entered Foster Care within One Year of the Initiation of Service

Percentage of Children in Foster Care who Returned Home within Eighteen Months

During the quarter 18 months prior to the start of the current quarter, 869 children entered foster care. Of those, 675 children (78 percent) returned home within 18 months. The percentage of children returning home within 12 months stood at 67 percent, exceeding the national median of 48.4 percent.

Chart 5: Children in Foster Care who Return Home within Eighteen Months

Percentage of Children in Foster Care who have Experienced Two or Fewer Placements

Placement stability of children in foster care is measured by the percentage of children with two or fewer placements who are in care for varying lengths of time. Of the children at the end of the quarter who were in foster care for less than 12 months, 73 percent experienced two or fewer placements; the national standard is 86 percent. Of the children in foster care between 12 and 24 months, 46 percent had two or fewer placements; the national standard for this population is 65.4 percent. Finally, of the children who were in foster care for over two years, only 19 percent experienced two or fewer placements during their stay in foster care, with the national standard for this population being 41.8 percent.

Chart 6: Children in Foster Care who have Experienced Two or Fewer Placements

Percentage of Siblings in Placement who are Placed Together

During the third quarter, there were 1,916 children with siblings in foster care. Of those children, 66 percent (1,267) were placed with at least one of their siblings. Of those same 1,916 children, 46 percent were placed with all of their siblings, which was the same percentage as the previous quarter. These figures do not exclude children who were placed separately for valid reasons such as safety issues or court orders.

Chart 7: Siblings in Care who are Placed Together

Percentage of Children Who Were Adopted Within One Year of Having Their Goal Changed to Adoption

Of the 238 children whose permanency goal was changed to adoption during the quarter one year ago, 139 children (58 percent) were adopted within one year of the goal change. This represents a seven percentage point increase from the previous quarter (51 percent).

Chart 8: Percentage of Children Who Were Adopted Within One Year of Having Goal Changed to Adoption

Number of Children Placed in Pre-adoptive Homes whose Adoptions were Finalized within Twelve Months of Entering Pre-adoptive Placements

Between January and March 2012, 119 children were placed in pre-adoptive homes. Of those children, 113 had their adoptions finalized within 12 months of the placement.

Three children experienced a disruption, which occurs when a child has been placed in a pre-adoptive home and the family or the child subsequently decides not to proceed with the adoption, resulting in the child leaving the home. Finalization of the adoption was still pending 12 months after the placement for five of the children.

**Table 1: Children Placed in Pre-adoptive Homes whose Adoptions were Finalized within Twelve Months of Entering Pre-adoptive Placements
3rd Quarter SFY 2013**

Adoption Status	Number of Children
Children Placed in Pre-adoptive Homes	119
Finalized Adoptions	113
Disrupted Adoptive Placements	3
Children with a Disruption who were Re-placed in Pre-adoptive Homes	2
Still Pending after Twelve Months	5

PART II: COMPLIANCE INDEX

The Division has set compliance measures with guidance from the Joint Interim Committee on Children and Youth. An index is compiled by reporting the level of compliance in relation to these measures.

<u>Goal</u>	<u>Compliance Measure</u>
-------------	---------------------------

- | | |
|-----|---|
| 95% | <i>Timely Initiation of Child Maltreatment Assessments.</i> Timely initiation means the investigator interviews or observes the victim child outside the presence of the alleged offender within 24 hours of any report of alleged severe maltreatment or within 72 hours otherwise. |
| 90% | <i>Timely Completion of Child Maltreatment Assessments.</i> Timely completion means a determination must be made regarding an allegation of child maltreatment within 30 days of receipt of the allegation. |
| 95% | <i>24-Hour Initial Health Screenings.</i> This screening is conducted within 24 hours after removal from the home on children who enter foster care due to an allegation of severe maltreatment or if there is evidence of acute illness or injury. |
| 95% | <i>72-Hour Initial Health Screenings.</i> This screening is conducted within 72 hours after removal from the home on all children who enter foster care who are not subject to the 24-hour screening. |
| 95% | <i>Comprehensive Health Assessments.</i> The purpose of this assessment is to evaluate the physical and mental health status of all foster children and is to be completed within 60 days of a child entering foster care. |
| 80% | <i>Foster Home Recruitment.</i> DCFS must ensure that a sufficient number and variety of foster homes that meet minimal standards and match the needs and characteristics of foster children are available. The goal is 80 homes for the quarter or 320 homes for the year. |
| 95% | <i>Foster Home Re-evaluations.</i> DCFS must re-evaluate at least annually each foster home's ability to care for children. |
| 85% | <i>Required Visits Made by Worker.</i> DCFS must provide data on the percentage of monthly visits made by DCFS workers to children in foster care. |

Timely Initiation of Child Maltreatment Assessments

Whenever there is an allegation of child maltreatment, a Family Service Worker, a Crimes Against Children Division (CACD) staff member, or staff from another local law enforcement agency must interview or observe the victim child(ren) outside the presence of the alleged offender within 24 hours for Priority I referrals or within 72 hours for Priority II referrals. There were 7,796 referrals of child maltreatment during the quarter. Of those, 6,541 were assigned to DCFS for investigation—1,181 Priority I referrals and 5,360 Priority II referrals.

Of the DCFS assigned Priority I referrals, 1,107 (94 percent) were initiated within the required 24-hour period. Of the DCFS Priority II referrals, 4,491 (84 percent) were initiated within the required 72-hour period.³ Overall, 86 percent of the referrals were initiated within the required timeframe. The combined compliance rate was three percentage points higher than the previous quarter.

The Crimes Against Children Division (CACD) of the Arkansas State Police is also responsible for handling child abuse assessments. CACD was responsible for 1,255 of the 7,796 referrals that came in during the quarter, of which 1,106 were Priority I referrals and 149 were Priority II referrals. Of the Priority I referrals, 1,034 (93 percent) were initiated in a timely manner while 138 (93 percent) of the Priority II referrals were initiated on time.

Chart 9: Timely Initiations of Child Maltreatment Assessments (DCFS Only)

³ DCFS had 1,107 Priority I referrals and 4,491 Priority II referrals that were initiated in a timely manner. Of those, 196 Priority I (18 percent) and 1,180 Priority II referrals (26 percent) were considered compliant due to reasonable diligence. CACD had 1,034 Priority I referrals and 138 Priority II referrals that were initiated in a timely manner. Of those, 150 Priority I (15 percent) and 16 Priority II (12 percent) referrals were considered compliant due to reasonable diligence.

Timely Completion of Child Maltreatment Assessments

Of the 1,181 Priority I assessments assigned to DCFS, 744 (63 percent) were completed within the required 30-day period. Of the 5,360 DCFS Priority II assessments, 3,276 (61 percent) were completed within the required 30-day period. The completions resulted in an overall compliance rate of 61 percent, which was a 15 percentage point increase from the previous quarter. Despite this improvement, compliance continues to be below the goal of 90 percent (See plan of action in the Executive Summary).

As referenced earlier, CACD was responsible for 1,255 of the incoming referrals received during the quarter—1,106 Priority I assessments and 149 Priority II assessments. Of the Priority I assessments, 806 (73 percent) were completed on time while 103 (69 percent) of the Priority II assessments were completed on time.

Chart 10: Timely Completion of Assessments (DCFS Only)

Of the 2,521 DCFS-assigned investigations that became overdue at any point during the quarter, 940 (37 percent) were completed within 31 to 35 days after the referral date and another 656 (26 percent) were completed within 36 to 45 days after the referral. Overall, 63 percent of the overdue investigations were completed within 15 days of being overdue (Chart 11).

Chart 11: Overdue Assessments Completed between 31 to 45 Days

24- and 72-Hour Initial Health Screenings for Children Entering Foster Care

When a child enters foster care due to an allegation of severe maltreatment or if there is evidence of acute illness or injury, DCFS must conduct an initial health screening within 24 hours of the child’s removal from the home. Of the 295 children who required the 24-hour health screening during the third quarter, 242 children (82 percent) received the screening in a timely manner. The compliance rate increased by seven percentage points from the previous quarter but still fell short of the goal of 95 percent.

All children entering foster care who do not require the initial 24-hour health screening must still undergo an initial health screening within 72 hours of their removal. Of the 570 children who required the 72-hour health screening, 486 (85 percent) received their screenings on time, which was three percentage points lower than the previous quarter and less than the goal of 95 percent (See plan of action in the Executive Summary).

Chart 12: 24- and 72-Hour Initial Health Screenings for Children Entering Foster Care

Comprehensive Health Assessments

All children entering foster care must receive a comprehensive health assessment which evaluates their physical and mental health status; the assessment is to be completed within 60 days of entering foster care. Between November 2, 2012 and January 30, 2013, 515 children entered foster care who remained in care for at least 60 days. Of those children, 399 received their comprehensive health assessment in a timely manner. The resulting compliance rate of 77 percent, which was two percentage points higher than the previous quarter but below the goal of 95 percent.

Chart 13: Comprehensive Health Assessments

Foster Home Recruitment

DCFS recruited 152 new foster homes during the third quarter, an achievement which continues to be well above the goal of 80 new homes. At the same time, 138 foster homes were closed, resulting in a net gain of 14 foster homes for the quarter. Refer to Appendix E for the reasons foster homes had closed.

Chart 14: Foster Home Recruitment

Foster Home Re-evaluations

On an annual basis, at a minimum, DCFS is to conduct re-evaluations of each foster home’s ability to care for children. Of the 1,140 foster homes active at the end of the third quarter, a current re-evaluation was available for 1,090 homes. The resulting 96 percent compliance rate was two percentage points higher than the previous quarter and exceeded the compliance goal of 95 percent.

Chart 15: Foster Home Re-evaluations

Required Visits Made by Worker

DCFS acknowledges the importance of worker contact with children in foster care and believes that these visits should be conducted face-to-face in the children’s placement setting, at least once per month.

During the third quarter, 65 percent of the children in foster care received a monthly visit. This result was two percentage points higher than the previous quarter, though still below the goal of 85 percent (See plan of action in the Executive Summary).

Chart 16: Required Foster Care Monthly Visits Made by Worker

PART III: DESCRIPTION OF POPULATION AND SERVICES

This section describes the number and status of maltreatment assessments, children who were served in foster care, and children who were provided adoption services.

Section I outlines characteristics of children in true maltreatment reports such as age, gender and ethnicity, and also compares state ethnicity data to national data. Additionally, this section defines the types of allegations in maltreatment reports.

Section II describes the foster care population. Specifically, it describes the characteristics of children in foster care, entries and exits of children in foster care, reasons children come into care, lengths of stay for children in foster care as well as children in relative care, placements of children in foster care and the number of placements children experience while in care.

Section III reports adoption data such as the characteristics of children available for adoption, current placement of those children, characteristics of children placed in adoptive homes, children whose parents have terminated their parental rights but have not been placed in adoptive homes, finalized adoptions and adoption subsidies.

Part III: Description of Population and Services
Section I: True Child Maltreatment Reports

Child Maltreatment Assessments

During the third quarter, 7,796 maltreatment reports were received and assigned for investigation. Of those, 6,541 (84 percent) were assigned to DCFS. This figure represents a 15 percent decrease in the number of reports assigned to DCFS from the previous quarter (7,670) and a 12 percent decrease from the same quarter ending one year ago (7,433).

Of those same 7,796 reports, 1,255 (16 percent) were assigned to CACD. This figure represents a 16 percent decrease in the number of reports assigned to CACD from the previous quarter (1,496) as well as a 12 percent decrease from the same quarter ending one year ago (1,427).

Chart 17: Child Maltreatment Assessments

Of the 7,796 maltreatment reports received during the third quarter of SFY 2013, 1,771 reports (23 percent) were found to be true, a rate that was identical to the same quarter ending one year ago. The national percentage is 19 percent.⁴ There were 2,473 victim children involved in the 1,771 true reports for the quarter, which represents a 13 percent decrease in the number of victim children reported during the same quarter ending one year ago (2,852).

Characteristics of Children in True Maltreatment Reports

As referenced previously, 2,473 victim children were involved in true reports of maltreatment during the third quarter. The table below outlines the demographic information for these victim children.⁵

**Table 3: Characteristics of Children in True Maltreatment Reports
3rd Quarter SFY 2013**

Age	Gender	White	Black	Asian	AIAN	NAPI	Hispanic	More Than 1 Race	Total
0 to 1	Female	95	24	0	0	0	6	11	136
	Male	112	23	0	0	2	7	10	154
2 to 5	Female	212	39	0	0	1	19	24	295
	Male	215	60	0	0	2	20	26	323
6 to 11	Female	339	44	2	0	3	36	45	469
	Male	285	58	0	0	2	31	27	403

	Male	130	25	0	1	1	15	11	183
16 to 18	Female	85	16	0	0	0	10	5	116
	Male	41	9	0	0	0	7	4	61
18+	Female	0	0	0	0	0	0	0	0
	Male	0	0	0	0	0	0	0	0
Total*		1,714	348	2	1	11	180	183	2,439

*Demographic data have not been entered into CHRIS for 34 children.

Of the children involved in true maltreatment reports, 70 percent were white and 14 percent were black.

Chart 18a: Race/Ethnicity of Children in True Reports

⁵ Table 3, and each subsequent demographic table, divides up “other” races and ethnicities into the following categories: “Hispanic,” “More than One Race,” “Asian” (includes Indonesian, Cambodian, Hmong and Vietnamese), “AIAN” (includes Native American, Alaskan Native and American Indian) and “NAPI” (includes Native Hawaiian and other Pacific Islanders).

Children ages six to 11 represent the largest group of children involved in true maltreatment reports (36 percent), followed by children ages two to five (25 percent).

Chart 18b: Ages of Children in True Reports

More female children (54 percent) than male (46 percent) were involved in true maltreatment reports.

Chart 18c: Gender of Children in True Reports

Children Involved in Allegations of True Maltreatment Reports

During the quarter, the majority of the 2,473 children involved in true maltreatment reports were involved in allegations of neglect (85 percent), followed by allegations of physical abuse (44 percent) and sexual abuse (24 percent).⁶

**Table 4: Percentage of Children Involved in True Allegations of Maltreatment
2nd Quarter SFY 2013 – 3rd Quarter SFY 2013**

	2nd Quarter		3rd Quarter	
Neglect	2,127	84%	2,102	85%
Physical Abuse	1,086	43%	1,080	44%
Sexual Abuse	607	24%	594	24%

Child Maltreatment Reports Involving Fatalities or Near Fatalities

During the third quarter of SFY 2013, there were four investigations of a child fatality and one investigation of a near child fatality. Table 5 summarizes the findings of the reports involving the fatality or near fatality of a child. Appendix A provides a summary of each report involving a child fatality and Appendix B provides a summary of those involving a near fatality.

**Table 5: Findings of Maltreatment Reports
Involving Fatalities or Near Fatalities**

Finding	Child Fatality	Near Child Fatality
True	2	1
Unsubstantiated	1	0
Pending	1	0

⁶ The total number of children represented will outnumber the total children involved in true maltreatment reports because a child can be involved in more than one allegation. Therefore, the sum of percentages of children involved in maltreatment reports will be greater than 100 percent.

Part III: Description of Population and Services
Section II: Foster Care

Characteristics of Children in Foster Care

During the third quarter, 4,736 children spent time in foster care. This number includes children who remained in care from previous quarters as well as children who came into care during the quarter. The following table outlines the characteristics of the children who were in care during the quarter.

Table 6: Characteristics of Children in Foster Care During the Quarter
3rd Quarter SFY 2013

Age	Gender	White	Black	Asian	AIAN	NAPI	His-panic	More Than 1 Race	Total
0 to 1	Female	235	78	0	1	0	18	40	372
	Male	285	85	1	0	1	25	39	436
2 to 5	Female	380	107	0	1	0	29	65	582

Total*		3,008	952	3	8	5	274	480	4,730

*Demographic information have not been entered into CHRIS for six children.

The chart on the following page shows that 64 percent of the children in foster care during the quarter were white and 20 percent were black. National data reveal that only 41 percent of the children in the national foster care system were white, while 27 percent of the children were black.⁷

⁷ Adoption and Foster Care Analysis and Reporting System (AFCARS) preliminary data submitted for children in foster care between 10/1/2010 and 9/30/2011 as of July 2012.

Chart 19a: Race/Ethnicity of Children in Care During the Quarter

Children ages six to 11 (27 percent) and two to five (25 percent) represent the largest groups of children who were in care during the quarter.

Chart 19b: Ages of Children in Foster Care During the Quarter

The following chart shows that more male children (52 percent) were in care during the third quarter than female children (48 percent).

Chart 19c: Gender of Children in Foster Care During the Quarter

At the end of the quarter, 3,831 children were in foster care. The following table outlines the characteristics of the children in foster care at the end of the third quarter.

**Table 7: Characteristics of Children in Foster Care at the End of the Quarter
3rd Quarter SFY 2013**

Age	Gender	White	Black	Asian	AIAN	NAPI	Hispanic	More Than 1 Race	Total

Total*		2,364	817	3	4	1	228	408	3,825

*Demographic information has not been entered into CHRIS for six children.

The chart below shows that 62 percent of the children in foster care at the end of the quarter were white, while 21 percent were black. These percentages are consistent with the previous quarter.

Chart 20a: Race/Ethnicity of Children in Foster Care at the End of the Quarter

Children between the ages of six and 11 (25 percent) represent the largest group of children who were in care at the end of the quarter, followed closely by children between the ages of two and five (24 percent).

Chart 20b: Ages of Children in Foster Care at the End of the Quarter

Fifty-three percent of the children in foster care at the end of the quarter were male and 47 percent were female.

Chart 20c: Gender of Children in Foster Care at the End of the Quarter

Entries into Foster Care

During the third quarter, 952 children entered foster care, an increase from the previous quarter (910).

**Table 8: Characteristics of Children Entering Foster Care During the Quarter
3rd Quarter SFY 2013**

Age	Gender	White	Black	Asian	AIAN	NAPI	Hispanic	More Than 1 Race	Total

Tribal Jurisdiction	0	0	0	0	0	0	0
Total*	137	250	285	138	90	18	918

The most prevalent reason that children left foster care during the quarter was reunification (42 percent). The second leading reason was relative custody (35 percent). National data indicate that the three most prevalent reasons children leave care are reunification (52 percent), adoption (20 percent) and relative care (8 percent).¹¹

Chart 24: Most Prevalent Reasons Children Left Care

¹¹ Adoption and Foster Care Analysis and Reporting System (AFCARS) preliminary data submitted for children in foster care between 10/1/2010 and 9/30/2011 as of July 2012.

Permanency Goals of Children in Foster Care

The Division maintains two primary goals for children in foster care: safety and permanency. The second of these concerns is expressed by setting a permanency goal for each child in foster care within 30 days of the child entering care. Of the 3,831 children in foster care at the end of the quarter, 3,589 (94 percent) had been in care for at least 30 days. Reunification (returning home) remained the most prevalent goal (53 percent) among the children in foster care.

**Table 12: Permanency Goals of Children in Foster Care

Number of Placements of Children in Foster Care

Overall, 54 percent of the children in care at the end of the third quarter experienced two or fewer placements. This result is similar to that of the previous quarter. It is not surprising that the likelihood of multiple placements increases the longer children remain in foster care.

**Table 14: Number of Placements of Children in Foster Care

Chart 27: Current Placement of Children in Foster Care

Characteristics of Children on Runaway Status at the End of the Quarter

Twenty-two children were on runaway status at the end of the third quarter. This is the same as the previous quarter (22).

The majority of the children on runaway status (73 percent) were between the ages of 16 and 17.

Chart 28a: Ages of Children on Runaway Status at the End of the Quarter

An equal number of female children (50 percent) and male children (50 percent) were on runaway status at the end of the quarter.

Chart 28b: Gender of Children on Runaway Status at the End of the Quarter

Characteristics of Children in Relative Care

During the quarter, 738 children were placed in relative care¹⁴, a one percent decrease from the previous quarter (743). This number includes children who remained in relative care from previous quarters as well as those who came into relative care during the current quarter. The following table outlines the characteristics of children residing in relative care.

**Table 17: Characteristics of Children in Relative Care
3rd Quarter SFY 2013**

Age	Gender	White	Black	Asian	AIAN	NAPI	Hispanic	More Than 1 Race	Total
0 to 1	Female	42	23	0	0	0	1	9	75

Total		464	184	1	0	0	27	62	738

White children represent the highest percentage of children in relative care during the third quarter (63 percent).

Chart 29a: Race/Ethnicity of Children in Relative Care

¹⁴ Relative care includes both Provisional (Relative) placements and Licensed Foster Family Homes who served relative children during the quarter.

Children ages two to five (34 percent) represent the largest age group of children in relative care, followed by children between the ages of six and 11 (30 percent).

Chart 29b: Ages of Children in Relative Care

Fifty-three percent of the children in relative care were female and 47 percent were male.

Chart 29c: Gender of Children in Relative Care

Part III: Description of Population and Services
Section III: Adoption

Characteristics of Children with a Permanency Goal of Adoption at the End of the Quarter

There were 903 children in care at the end of the quarter with a permanency goal of adoption. The table below outlines those children’s characteristics.

**Table 18: Characteristics of Children with a Permanency Goal of Adoption at the End of the Quarter
 3rd Quarter SFY 2013**

Age	Gender	White	Black	Asian	AIAN	NAPI	Hispanic	More Than 1 Race	Total
0 to 1	Female	19	13	0	0	0	3	7	42

Total*		518	212	0	1	0	50	120	901

*Demographic data have not been entered into CHRIS for two children.

Of the children in care with a permanency goal of adoption at the end of the quarter, 57 percent were white, 24 percent were black, and 13 percent were multiracial. These percentages are similar to the previous quarter.

Chart 30a: Race/Ethnicity of Children with a permanency Goal of Adoption During the Quarter

Children between the ages of six and 11 (35 percent) continue to represent the largest age group of children with a permanency goal of adoption.

Chart 30b: Ages of Children with a Permanency Goal of Adoption During the Quarter

More male children (56 percent) than female children (44 percent) had a permanency goal of adoption, similar to the previous quarter.

Chart 30c: Gender of Children with a Permanency Goal of Adoption During the Quarter

Characteristics of Children whose Parents have had Parental Rights Terminated at the end of the Quarter

There were 552 children whose parents had their parental rights terminated¹⁵ as of the end of the third quarter. The table below outlines the characteristics of those children.

**Table 19: Characteristics of Children whose Parents have had Parental Rights Terminated at the End of the Quarter
3rd Quarter SFY 2013**

Age	Gender	White	Black	Asian	AIAN	NAPI	Hispanic	More Than 1 Race	Total
0 to 1	Female	4	4	0	0	0	0	1	9
	Male	16	1	0	0	0	3	5	25
2 to 5	Female	38	5	0	0	0	2	14	59
	Male	33	9	0	0	0	7	10	59

	Male	5	4	0	0	0	0	0	9
Total*		341	101	0	0	0	35	75	552

Sixty-two percent of the children whose parents had their parental rights terminated at the end of the quarter were white, 18 percent were black, 14 percent were multiracial, and six percent were Hispanic.

Chart 31a: Race/Ethnicity of Children whose Parents have had Parental Rights Terminated

¹⁵ Both parents' parental rights must be terminated for the child to be counted.

Children between the ages of six and 11 (32 percent) represent the largest group of children whose parents' parental rights had been terminated, followed by those between the ages of 12 and 15 (24 percent).

Chart 31b: Ages of Children whose Parents have had Parental Rights Terminated

Of the children whose parents' rights had been terminated, 59 percent were male and 41 percent were female.

Chart 31c: Gender of Children whose Parents have had Parental Rights Terminated

Characteristics of Children Available for Adoption at the End of the Quarter

At the end of the third quarter, 456 children were available for adoption.¹⁶ Demographic information for children available for adoption, shown in the table below, is very similar to previous quarters.

**Table 20: Characteristics of Children Available for Adoption at the End of the Quarter
3rd Quarter SFY 2013**

Age	Gender	White	Black	Asian	AIAN	NAPI	Hispanic	More Than 1 Race	Total
0 to 1	Female	3	3	0	0	0	0	1	7
	Male	13	1	0	0	0	3	4	21
2 to 5	Female	34	5	0	0	0	2	14	55
	Male	32	9	0	0	0	6	9	56
6 to 11	Female	41	8	0	0	0	7	9	65

Total*		219	52	0	0	0	9	44	324

* Demographic data have not been entered into CHRIS for two children

Of the children in pre-adoptive homes during the quarter, 67 percent were white and 16 percent were multiracial.

Chart 33a: Race/Ethnicity of Children Placed in Pre-adoptive Homes During the Quarter

Children between the ages of two and five (36 percent) represent the largest age group of children placed in pre-adoptive homes, followed by those between six and 11 years of age (28 percent).

Chart 33b: Ages of Children Placed in Pre-adoptive Homes During the Quarter

Fifty-one percent of the children in pre-adoptive homes were female and 49 percent were male.

Chart 33c: Gender of Children Placed in Pre-adoptive Homes During the Quarter

Children with Special Needs

Children with special needs are defined as:

- Caucasian and over the age of nine;
- African- American and two years of age or older;
- Members of a sibling group;
- Children who have severe medical or psychological needs that require ongoing treatment; or
- Children at high risk for the development of serious physical, mental or emotional conditions where documentation is provided by a medical professional specializing in the area of the condition for which the child is considered at risk.

During the third quarter, 86 children with special needs were in pre-adoptive placements.¹⁷

**Table 23: Children with Special Needs who were Placed in Pre-Adoptive Homes
3rd Quarter SFY 2013**

Special Needs Condition	Number of Children
Race	53
Age	73
Member of Sibling Group	41

¹⁷ This number does not take into account children with severe medical and psychological needs. As enhancements are made to the data system to capture this information, it will be provided in future reports.

Characteristics of Children with Finalized Adoptions

During the quarter, 138 children had their adoptions finalized, a decrease from the previous quarter (213). The following table outlines the characteristics of the children with finalized adoptions.

**Table 24: Characteristics of Children with Finalized Adoptions
3rd Quarter SFY 2013**

Age	Gender	White	Black	Asian	AIAN	NAPI	Hispanic	More Than 1 Race	Total
0 to 1	Female	9	1	0	0	0	1	1	12

	Male	2	0	0	0	0	0	0	2
Total		106	19	0	0	0	5	8	138

Of the 138 finalized adoptions during the third quarter, 77 percent of the adopted children were white, 14 percent were black, and six percent were multiracial.

Chart 34a: Race/Ethnicity of Children with Finalized Adoptions

Thirty-six percent of the children whose adoptions were finalized during the quarter were between the ages of two and five.

Chart 34b: Ages of Children with Finalized Adoptions

Of the children whose adoptions were finalized during the quarter, 59 percent were female and 41 percent were male.

Chart 34c: Gender of Children with Finalized Adoptions

Subsidized Adoptions

During the third quarter, 121 children began receiving adoption subsidies. Of those, 100 children received federally-funded subsidies and 21 received state-funded subsidies.

Characteristics of Children who Received Adoption Subsidies

During the third quarter, 5,125 children received adoption subsidies. The following table outlines the demographics of those children.

**Table 25: Characteristics of Children Receiving Adoption Subsidies
3rd Quarter SFY 2013**

Age	Gender	White	Black	Asian	AIAN	NAPI	Hispanic	More Than 1 Race	Total
0 to 1	Female	22	7	0	0	0	1	3	33

Unsubstantiated Near Fatality Reports

There were no unsubstantiated near child fatality reports during the third quarter of SFY 2013.

Pending Near Fatality Reports

There were no pending near child fatality reports during the third quarter of SFY 2013.

Appendix C: Fatalities of Children in Foster Care Who Did Not Receive a Maltreatment Investigation

Child	County	Age	Race	Gender	Date of Death	Preliminary Cause of Death	Placement at the Time of Incident	Legal Action By the Department	Services Provided Prior to the Incident	Services Provided After the Incident
Child #1	Searcy	<1	White	Male	1/16/2013	Unknown	Foster Care	None	Foster Care	None
Child #2	Crawford	6	White	Female	2/14/2013	Severe Medical Problems	Foster Care	None	Foster Care	None
Child #3	Pulaski	1	Black	Male	3/10/2013	Severe Medical Condition	Foster Care	None	Foster Care	None
Child #4	Saline	9	Black	Female	3/23/2013	Physical Abuse ²⁰	Foster Care	None	Foster Care	None

²⁰ The preliminary cause of death was listed as "physical abuse" due to a severe physical abuse incident (brain damage) which occurred in 2005 and was investigated by the agency at that time. The child was placed in foster care and lived in a Pediatric Care Facility for eight years until her death.

Appendix D: Summary of Foster Care Maltreatment Reports

Foster Care Maltreatment Reports

**Characteristics of Children in Foster Care Involved in Allegations of Maltreatment
3rd Quarter SFY 2013**

One hundred and thirteen reports of alleged maltreatment, involving 114 children in foster care,²¹ were received by the hotline during the third quarter of SYF 2013.

In 40 reports involving 48 children, foster parents²² were identified as the alleged offenders. As displayed by the following chart, two of those reports were found to be true and both homes were subsequently closed.

**Foster Home Maltreatment Reports
3rd Quarter SFY 2013**

True	Unsubstantiated	Pending
2	36	2

All allegations of maltreatment concerning foster homes are investigated by the Crimes Against Children Division (CACD) of the Arkansas State Police. DCFS staff do not actively participate in the investigation of these reports. Allegations of maltreatment regarding foster homes require the agency to assess the safety of all children residing in the home.

The following charts describe the characteristics of the 48 foster children involved in allegations of maltreatment—with foster parents as the alleged offenders.

Age

²¹ A maltreatment report can include more than one child.

²² This includes foster family homes and therapeutic foster homes
