Little Rock, Arkansas 72201

The Honorable Stephanie Flowers, Chair
Senate Committee on Children
and Youth
Arkansas Legislative Council
315 State Capitol Building
Little Rock, Arkansas 72201

Dear Representative Meeks and Senator Flowers:

Act 1222 of 1995 mandates a quarterly evaluation of the performance of the Division of Children and Family Services. Attached is the Quarterly Performance Report (QPR) produced in compliance with that mandate. The report covers the 4th quarter of SFY 2014 (April 2014 to June 2014).

Forty copies of the report along with an electronic version are attached for your convenience.

Should you have questions regarding the enclosed materials, please feel free to contact me.

Sincerely,

A handwritten signature in black ink that reads "Cecile Blucker".

Cecile Blucker
Director

CB: fs

cc: John Selig, Director, Department of Human Services

Reports of Child Maltreatment

Quick Facts

Volume and Description of Child Maltreatment Reports

Volume of Incoming Reports

Maltreatment Reports Received During
4th Quarter SFY 2014

Of the 8,912 reports of child maltreatment accepted by the Arkansas Child Abuse Hotline during the quarter, 85 percent were assigned to DCFS and 15 percent were assigned to the Crimes Against Children Division (CACD) of the Arkansas State Police, which is responsible for investigating the most serious allegations of maltreatment.

Of the reports assigned to DCFS, 87 percent were assigned for an investigation and 13 percent were handled through Differential Response (DR).

DCFS initially piloted the DR program in several counties in October 2012, and by August 2013 the agency had implemented the program statewide.

DR allows the Division to respond to specific, low-risk maltreatment reports through a family assessment and provision of services rather than a traditional investigation.

The following types of allegations can qualify for DR:

- Inadequate Supervision if children are at least five
- Environmental Neglect if children are at least three
- Medical Neglect if children are at least thirteen
- Lock Out if children are at least ten
- Inadequate Food, Inadequate Shelter, Inadequate Clothing, and Educational Neglect with no age restrictions.

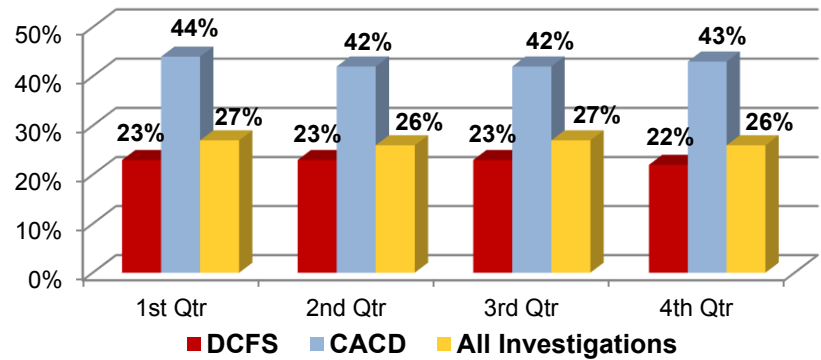

Quick Facts

Findings of Child Maltreatment Investigations

Twenty-two percent of the investigations assigned to DCFS during the quarter were found true, compared to 43 percent for CACD. The overall substantiation rate stood at 26 percent.

Appendix A provides further detail on the number of referrals accepted for investigation and those found true for the past four quarters.

Percentage Of Investigations Found True

The national percentage is 19 percent.

Characteristics of Children Involved in True Investigations

There were 2,466 victim children involved in the maltreatment investigations that were found true.

Of those children, 71 percent were white and 16 percent were black. Children ages six to nine represented the largest group involved in true maltreatment investigations.

A slight majority of the victim children during the quarter (52 percent) were female.

Race/Ethnicity of Children in True Reports

- White
- Black
- Hispanic
- More Than 1 Race

Ages of Children in True Reports

- 0 to 1
- 2 to 5
- 6 to 9
- 10 to 13
- 14 to 17

Types of Allegations in True Investigations

The majority of the 2,466 victim children in true investigations were involved in allegations of neglect, followed by allegations of sexual abuse and physical abuse.

Percentage of Children in True Allegations of Maltreatment

	Number of Children Cited in True Allegation	Percentage of Children Cited in True Allegation
Neglect	1,589	64%
Sexual Abuse	547	22%
Physical Abuse	533	22%

A child may have more than one allegation.

Quick Facts

Reports Involving Fatalities or Near Fatalities

Findings of Maltreatment Reports Involving Fatalities or Near Fatalities		
Finding	Child Fatality	Near Child Fatality
True	4	0
Unsubstantiated	0	0
Pending	2	0

During the quarter, there were six maltreatment investigations of a child fatality; there were no investigations concerning a near child fatality. Of the six child fatality investigations, four were found true and two were still pending.

Appendix B includes more details regarding these fatalities.

Reports Assigned for Differential Response (DR)

The number of reports assigned to DR (993) during the quarter increased by two percent compared to the previous quarter.

Allegations Cited in DR Reports

Inadequate Supervision and Environmental Neglect were the most commonly cited allegations in reports assigned to DR.

Quick Facts

Meeting Agency Policies

Timeliness of Initiating Investigations

The law requires reports of maltreatment to be initiated within 24 hours of a Priority I report or within 72 hours of a Priority II report.

Priority I reports cite more severe allegations while Priority II reports cite comparatively less serious allegations.

Initiation occurs when all victim children are interviewed or observed (if too young for an interview) within the designated timeframes.

DCFS initiated 77 percent of its investigations on time during the fourth quarter.

Timely Initiations of Child Maltreatment Assessments (DCFS Only)

Timeliness of Completing Investigations

DCFS completed 63 percent of its investigations on time (within 45 days of receipt of the report) during the quarter, a decrease from the previous quarter.

Timely Completion of DCFS Assessments (DCFS Only)

Quick Facts

Timeliness of Initiating Reports Assigned to DR

Timeliness of DR Initiations

DR referrals must be initiated within 72 hours of receipt of the report.

DCFS initiated 67 percent of its DR reports on time during the quarter. This figure reflects a new methodology in measuring DR initiations consistent with most recent changes in policy.

Timeliness of Completing Reports Assigned to DR

Timeliness of DR Closures

Reports assigned to DR must be closed within 30 days of receipt of the report. In certain instances when the families' needs necessitate longer involvement, two 15-day extensions can be granted, for a total of 60 days.

The Agency closed 75 percent of its DR reports on time, taking into account reports in which extensions were granted.

Quick Facts

Benefits to Children and Families

Preventing the Recurrence of Maltreatment

Ten percent of the victim children involved in true investigations experienced a recurrence of maltreatment within 12 months. Seven percent experienced a recurrence of maltreatment within six months.

Recurrence of Maltreatment Within 6 and 12 Months

The National Standard for absence of recurrence within six months is 5.4 percent or less.

Absence of Recurrence Among Families who Received DR

Only one percent of the children who began receiving DR services were involved in a true investigation of child maltreatment within six and 12 months.

Percentage of Children Involved in True Maltreatment Reports Within 6 and 12 Months of Receiving DR

In-Home Services

Quick Facts

Volume and Description of Cases

Volume of Cases

In most instances DCFS offers in-home services through a protective services case, which is opened when a true maltreatment report or court order necessitates DCFS' involvement with a family but there is not an immediate threat to any child's safety in the home.

The number of in-home protective services cases increased by two percent during the quarter. At the end of the quarter, there were 2,766 in-home cases open across the state, involving 6,396 children.

The Division also offers some in-home supportive services to families on a voluntary basis. DCFS was responsible for 93 supportive services cases at the end of the quarter.

Length of Time Cases Have Been Open

The average length of time in-home cases were open at the end of the quarter was about five months (150 days). Supportive services cases were open nearly four months on average (119 days).

Quick Facts

Ages of Children in In-Home Cases

Children ages two to five make up the largest group of children involved in in-home cases at the end of the quarter.

Ages of Children in In-Home Cases

Meeting Agency Policies

Monthly Visits to In-Home Cases

On average, 63 percent of the in-home cases received a face-to-face monthly visit from a caseworker during the quarter.

Required Monthly Visits to In-Home Cases

Quick Facts

Benefits to Children and Families

Victimization Rate Among Children Who Received Protective and Supportive Services

Percentage of Children Receiving Supportive and Protective Services who were Abused or Neglected Within One Year of the Initiation of Service

Of the children who began receiving supportive services during the fourth quarter one year ago, six percent experienced a true report of maltreatment within one year. Of the children who began receiving in-home protective services during the fourth quarter one year ago, ten percent were involved in a true report within one year (90 percent were not).

Rate of Entry Into Foster Care Among Children Who Received Protective and Supportive Services

Percentage of Children Receiving Supportive or Protective Services who Entered Foster Care Within One Year of the Initiation of Service

Of the children who began receiving supportive services during the fourth quarter one year ago, three percent entered foster care within one year of the initiation of those services. Meanwhile, eight percent of children who began receiving protective services during the same timeframe entered care within one year.

These services prevent the vast majority of the children from being re-victimized or entering foster care within one year.

Volume and Description of Cases

Number of Children in Foster Care

There were 4,106 children in foster care at the end of the fourth quarter of SFY 2014. This signified a three percent increase from the previous quarter.

Number of Children in Foster Care at the End of the Quarter

Characteristics of Children in Foster Care

Children two to five years of age (25 percent) represent the largest group of children in care. Sixty-four percent were white and 19 percent were black.

Of the children in foster care at the end of the quarter, 54 percent were male and 46 percent were female.

Race/Ethnicity of Children in Care at the End of Quarter

Ages of Children in Foster Care at the End of the Quarter

Admissions Into and Discharges From Foster Care

During the fourth quarter of SFY 2014, more children entered foster care than were discharged.

Number of Admissions Into and Discharges From Foster Care During Quarter

Quick Facts

Reasons for Children's Entry Into Foster Care

Reasons for Children's Entry Into Foster Care 4th Quarter SFY 2014

Placement Reason	Number of Entries	Total
Neglect	528	53%
Substance Abuse	527 ¹	53%
Parent Incarceration	202	20%
Physical Abuse	125	13%
Inadequate Housing	107	11%
Caretaker Illness	49	5%
Sexual Abuse	47	5%
Child's Behavior	28	3%
Abandonment	22	2%
Truancy	16	2%
Death of Parent(s)	12	1%
Other	11	1%

A child may have more than one reason for entry.

Reasons for Children's Discharge From Foster Care 4th Quarter SFY 2014

Placement Reason	Number of Discharges	Total
Reunification	353	41%
Relative Custody	253	29%
Adoption	189	22%
Child Aged Out	47	5%
Non-Relative Custody	19	2%
Custody Transfer	3	0%
Emancipation	2	0%
Other	1	0%

National data indicate that the three most prevalent reasons children leave care are reunification (52%), adoption (20%) and relative care (8%).

Neglect and substance abuse were the most prevalent reasons for children entering foster care.

Seventy percent of the children who left foster care during the quarter were reunified either with their own family or that of a relative. Arkansas (92 percent) exceeds the national average of 80 percent of the children either going home, to a relative, or to an adoptive home.

¹ These 527 cases of substance abuse include 463 instances of parental drug abuse, 48 instances of parental alcohol abuse, 14 cases of drug abuse by children, and two cases of alcohol abuse by children.

Quick Facts

Length of Stay in Foster Care

Of the children in foster care at the end of the quarter, 46 percent have been in care longer than 12 months.

**Length of Stay in Foster Care for Children in Care
4th Quarter SFY 2014**

	Number	Percentage	National ²
Less than 30 days	242	6%	5%
30-90 Days	558	14%	22%
3-6 Months	605	15%	
6-12 Months	814	20%	20%
12-24 Months	925	23%	24%
24-36 Months	352	9%	11%
36+ Months	610	15%	18%
Total	4,106	100%	100%

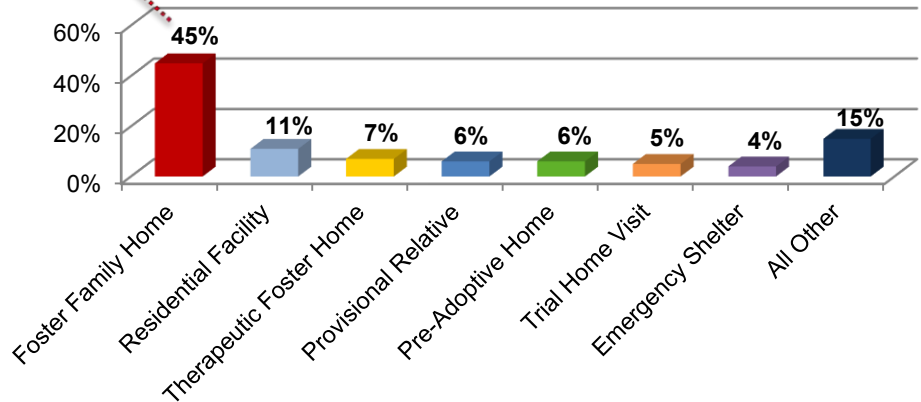

Placement of Children in Care

Nearly half of the children in foster care at the end of the quarter resided in foster family homes.

Overall, 69 percent of the children resided in a family-like setting (foster family home, therapeutic foster home, relative care, pre-adoptive home, trial home visit) at the end of the quarter.

Relative: 8%
Non-Relative: 37%

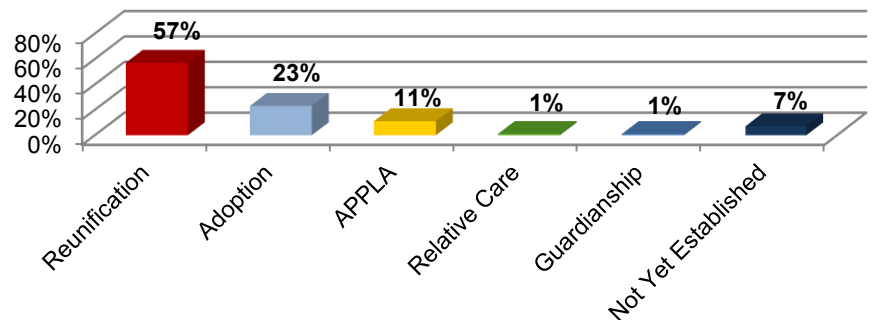

Placement of Children at the End of the Quarter

Permanency Goal of Children in Care

The majority of the children in care at the end of the quarter had a permanency goal of reunification (return home) and almost a quarter had a goal of adoption.

Permanency Goals of Children in Foster Care at the End of the Quarter

² Adoption and Foster Care Analysis and Reporting System (AFCARS) preliminary data submitted for children in foster care between 10/1/2011 and 9/30/2012 as of November 2013.

Quick Facts

Meeting Agency Policies

Monthly Visits to Foster Children

Foster Children who Received Monthly Face-to-Face Visits in Their Placements by Caseworkers

Foster Children who Received Monthly Face-to-Face Visits by Any DCFS Staff, Regardless of Location or Purpose

Seventy-five percent of the foster children statewide received a face-to-face monthly visit from a DCFS caseworker, on average, during the quarter. To ensure safety and well-being, best practice requires foster children to be visited at their placements by their caseworkers monthly (measured in this Chart).

Ninety-six percent of foster children received a face-to-face monthly contact from *any* DCFS staff member, regardless of staff member's position, location of the visit, or the purpose.

Initial Health Screenings and Comprehensive Health Assessments

24-hour and 72-Hour Initial Health Screening and Comprehensive Health Assessments

When a child enters foster care due to an allegation of severe maltreatment, DCFS must conduct an Initial Health Screening (IHS) within 24 hours. All other incoming foster children require health screenings within 72 hours. These children must also receive a Comprehensive Health Assessment (CHA) within 60 days of entering foster care.

DCFS completed 85 percent of its required 24-hour IHSs, 90 percent of its 72-hour IHSs, and 94 percent of its CHAs on time.

Quick Facts

Percentage of Siblings in Placement Who Are Placed Together

At the end of the quarter, 72 percent of the children with siblings in foster care were placed with at least one of their siblings. Of those, 52 percent were placed with all of their siblings.

These figures do not exclude children who were placed separately for valid reasons such as safety issues or court orders.

Siblings in Care who are Placed Together

Placement Stability of Children in Foster Care

Placement stability is measured by the percentage of children with two or fewer placements who are in care for varying lengths of time.

Of children in care for less than 12 months, 74 percent experienced two or fewer placements; the national standard is 86 percent. Of the children in foster care between 12 and 24 months, 43 percent had two or fewer placements; the national standard for this group is 65.4 percent. Finally, of the children in care for over two years, only 18 percent experienced two or fewer placements, with the national standard being 41.8 percent.

Children six to 11 represent the largest group of children who experienced three or more placements during their stay in foster care.

Children in Foster Care who have Experienced Two or Fewer Placements

Ages of Children who Experienced Three or More Placements

Quick Facts

Benefits to Children and Families

Children in Foster Care Who Return Home Within Twelve Months

Sixty-one percent of the children who entered foster care during the fourth quarter one year ago returned to their families within 12 months, exceeding the national standard of 48.4 percent.

Preventing Children's Re-entry Into Foster Care

Less than eight percent of the children who were discharged to their families during the fourth quarter one year ago re-entered foster care within 12 months. The Division meets the national standard of 9.9 percent or less.

Volume and Description of Cases

Children Available for Adoption ³

At the end of the quarter, 587 children were available for adoption.

Number of Children Available for Adoption at the End of the Quarter

Characteristics of Children Available for Adoption

Of the available children, 59 percent were white and 20 percent were black. The largest group range in age from ten to thirteen years.

Race/Ethnicity of Children Available for Adoption

Ages of Children Available for Adoption

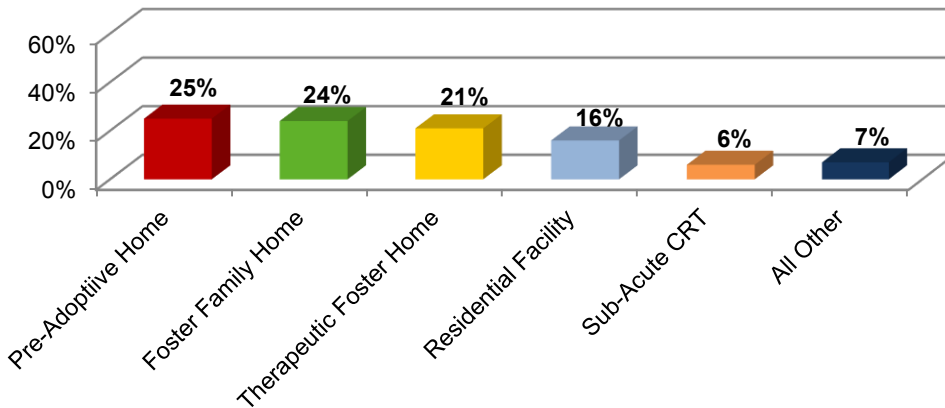

³ Children available for adoption are defined as those who have a termination of parental rights on both parents and a goal of adoption.

Quick Facts

Placement of Children Available for Adoption

Placement of Children Available for Adoption at the End of the Quarter

The majority of the children available for adoption at the end of the quarter resided in either a pre-adoptive home or a foster family home.

Meeting Agency Policies

Length of Time to Adoption

Length of Time From Entry into Foster Care to Finalization of Adoption (Months)

The median length of time from entry into foster care until finalization of adoption for children whose adoptions were finalized during the fourth quarter was 22.1 months, five months sooner than the national standard of 27.3 months.

Quick Facts

Benefits to Children and Families

Finalized Adoptions

One hundred and eighty-nine adoptions were finalized during the fourth quarter of SFY 2014.

Number of Adoptions Finalized During the Quarter

Children ages 2 to 5 were the largest group of children who were adopted during the quarter.

Race/Ethnicity of Children with Finalized Adoptions

Ages of Children with Finalized Adoptions

Subsidized Adoptions

Subsidies are given to children with special needs, defined as:

- Caucasian and over nine
- African-American and at least two
- At least two members of a sibling group
- Children who have severe medical or psychological needs that require ongoing treatment
- Children at high risk for the development of serious physical, mental or emotional conditions documented by a medical professional.

During the fourth quarter, 174 children began receiving adoption subsidies. Of those, 149 were federally-funded subsidies and 25 were state-funded.

During the fourth quarter, a total of 4,867 children received adoption subsidies.

Caseworkers and Caseloads

Caseloads at the End of the Quarter

As of the end of the quarter, the Division was responsible for:

- 3,685 investigations of child maltreatment and 215 DR cases,
- 4,106 foster care cases (3,870 excluding adoption cases),
- 2,766 in-home cases, involving 6,396 children,
- 93 supportive services cases and 74 ICPC cases.

This is while the Division was equipped with 385 family service workers, which on average includes 90 staff dedicated to investigations full time and another 34 staff who conduct investigations while also carrying other cases.

Types of Cases at the End of the Quarter

One foster care case is equal to one child in care; one in-home or supportive services case constitutes an entire family, many of which have multiple children.

Caseloads Handled *During* the Quarter

This shows the number of cases that cycled through the system anytime during the quarter (as opposed to those open at the end of the quarter, described above).

The Division oversaw 10,280 investigations; 4,973 children in foster care; 3,289 in-home protective services cases; 1,246 DR cases; 179 supportive services cases; and 100 interstate compact for the placement of children (ICPC) cases.

Types of Cases Served During the Quarter

Quick Facts

Average Caseload

The average caseload statewide stood at just below 28 cases per worker at the end of the quarter. This exceeds standards of about 15 cases per worker set by the Child Welfare League of America. The average caseload for each county as of June 30, 2014 is presented in Appendix E.

Foster Homes

Foster Homes and Beds

There were 1,231 licensed foster family homes open at the end of the fourth quarter statewide.

During the quarter 149 new foster homes were opened and 155 were closed.

Appendix F displays the closure reasons for the 155 foster homes that closed during the quarter.

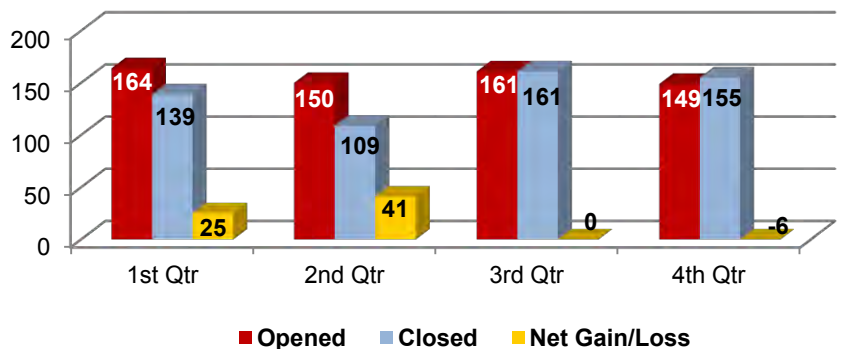

Average Caseload at the End of Month

Number of Foster Homes and Beds at the End of Quarter

Number of Foster Family Homes Opened and Closed During the Quarter

Quick Facts

Ratio of Foster Home Beds to Foster Children

Foster Bed to Foster Child Ratio

The ratio of licensed foster home beds to children in foster care was less than one (0.72) at the end of the quarter, giving workers few choices of where to place children.

Percentage of Foster Families with True Reports of Maltreatment

Percentage of Foster Families with True Reports of Maltreatment

Five reports in which foster parents were identified as alleged offenders were determined to be true during the quarter. Based on the 1,396 foster homes active during that period, the percentage of foster families with a true report of maltreatment was 0.36 percent.

Appendix G provides more detail on maltreatment reports concerning foster homes.

Appendix A: Breakdown of Child Maltreatment Reports Received During the Quarter and Substantiation Rates of Maltreatment Investigations⁴

	DCFS				CACD		
	Total Assessments Assigned for DR	Total Assessments Assigned for Investigation	True Investigations	Percent True	Total Assessments Assigned for Investigation	True Investigations	Percent True
First Quarter 2014	643	5,848 <i>5,791 Closed</i>	1,327	23%	1,331 <i>1,263 Closed</i>	558	44%
Second Quarter 2014	1,062	6,214 <i>5,453 Closed</i>	1,232	23%	1,318 <i>1,271 Closed</i>	539	42%
Third Quarter 2014	1,008	5,364 <i>4,887 Closed</i>	1,134	23%	1,167 <i>1,113 Closed</i>	468	42%
Fourth Quarter 2014	943	6,358 <i>5,843 Closed</i>	1,286	22%	1,297 <i>1,253 Closed</i>	537	43%

⁴ The data cited in this appendix run two months behind the referenced quarter (e.g., the fourth quarter refers to 2/1/2014 through 4/30/2014); as a result, the numbers cited in this appendix differ from those cited throughout the report which considers the actual quarter. This is because investigations have a 45-day completion timeframe and this allows enough time to pass to measure the disposition of the investigations. An investigation is excluded from the calculation of the substantiation rate in the event that it has not yet been closed (and thus a disposition has not yet been rendered).

Appendix B: Summary of Reports Involving Child Fatality

True Fatality Reports

Child	County	Age	Race	Gender	Date of Death	Allegations or Preliminary Cause of Death	Placement at the Time of Incident	Relationship of Alleged Offender to the Child	Agency Conducting the Investigation	Legal Action By the Department	Services Provided Prior to the Incident	Services Provided After the Incident
Nicholas Johnson	Greene	<1	White	Male	4/8/2014	Inadequate Supervision	In-Home	Family Member	CACD	None	None	PS Case
Zamiya Watson	White	<1	White	Female	6/19/2014	Physical Abuse	In-Home	Family Member	CACD	None	None	None
Aaliya Wilson	Saline	<1	White	Female	4/8/2014	Inadequate Supervision	In-Home	Family Member	CACD	None	None	None
Stephen Wilson	Benton	<1	White	Male	5/20/2014	Inadequate Supervision	In-Home	Family Member	CACD	None	PS Case	FC Case

Unsubstantiated Fatality Reports

There were no unsubstantiated child fatality reports during the fourth quarter of SFY 2014.

Pending Fatality Reports

Child	County	Age	Race	Gender	Date of Death	Allegations or Preliminary Cause of Death	Placement at the Time of Incident	Relationship of Alleged Offender to the Child	Agency Conducting the Investigation	Legal Action By the Department	Services Provided Prior to the Incident	Services Provided After the Incident
Chaniya Lambert	Drew	1	Black	Female	5/3/2014	Neglect	In-Home	Family Member	CACD	None	PS Case	FC Case
Andy Tmyokwe	Washington	1	NAPI	Male	6/20/2014	Inadequate Supervision	In-Home	Family Member	CACD	None	None	None

Appendix C: Summary of Reports Involving Near Child Fatality

True Near Fatality Reports

There were no true near child fatality reports during the fourth quarter of SFY 2014.

Unsubstantiated Near Fatality Reports

There were no unsubstantiated near child fatality reports during the fourth quarter of SFY 2014.

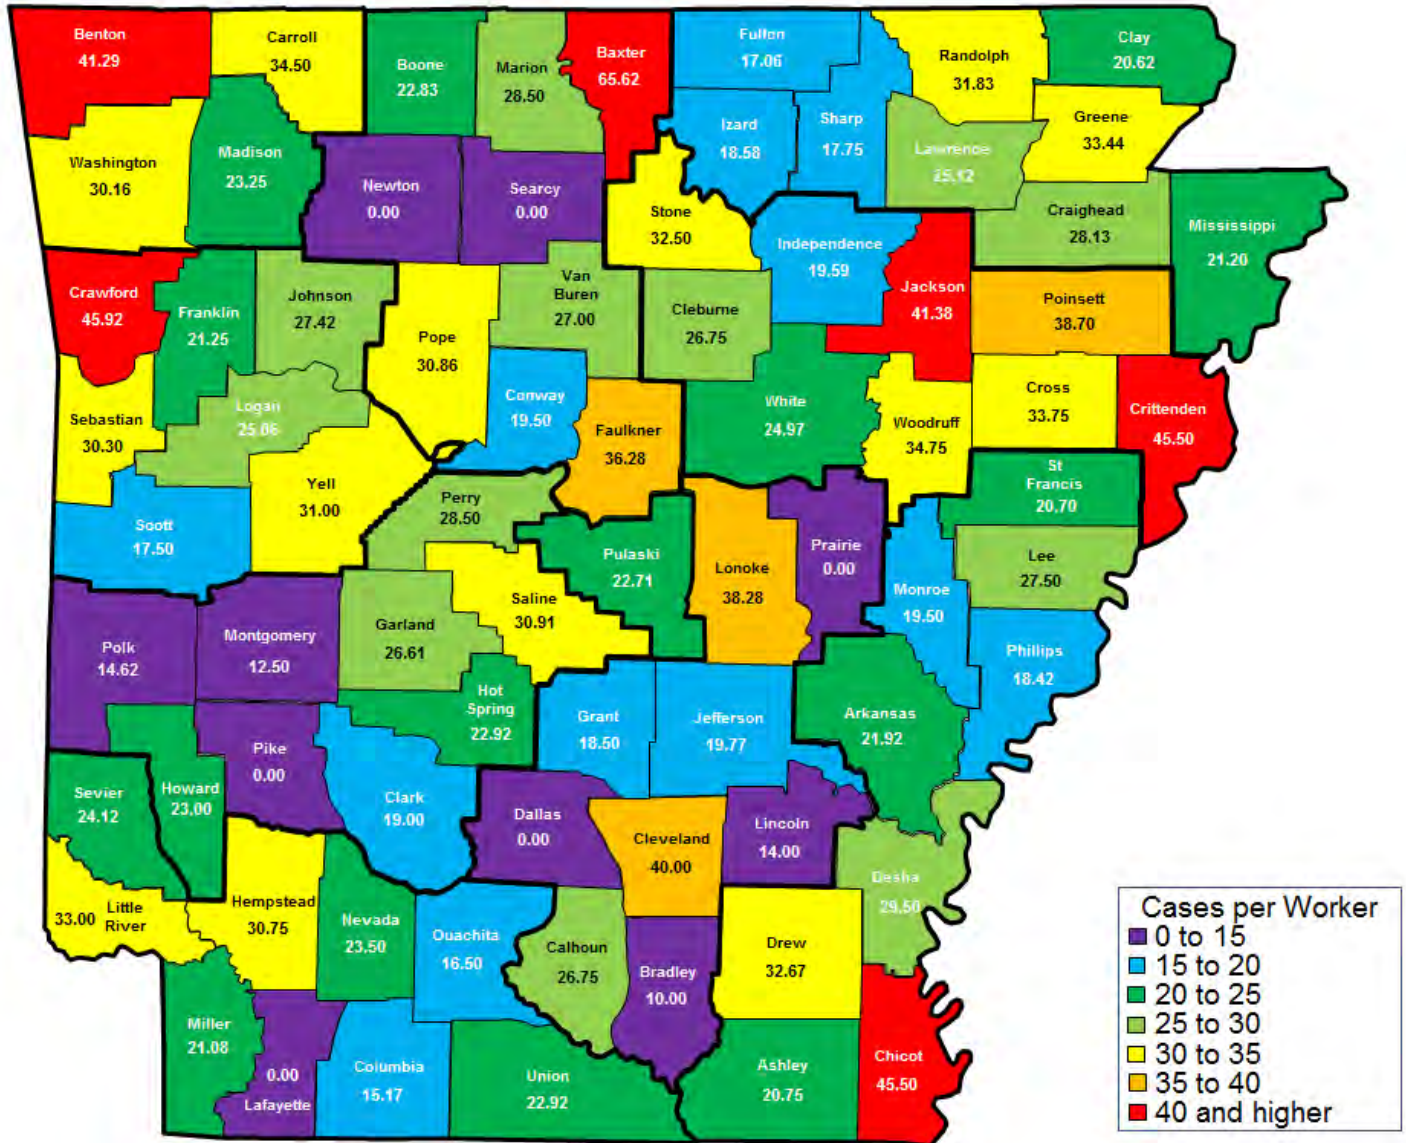

Pending Near Fatality Reports

There were no pending near child fatality reports during the fourth quarter of SFY 2014.

Appendix D: Fatalities of Children in Foster Care Who Did Not Receive a Maltreatment Investigation

There were no fatalities of children in foster care who did not receive a maltreatment investigation during the fourth quarter of SFY 2014.

Appendix E: Average Caseload as of June 30, 2014, by County

Due to the fact that Newton, Prairie, Searcy, Dallas, Lafayette and Pike counties did not have any family service workers at the end of the quarter, their cases were assigned to workers from other counties.

Appendix F: Foster Home Closure Reasons

Appendix G: Summary of Foster Care Maltreatment Reports

Characteristics of Children in Foster Care Involved in Allegations of Maltreatment, 4th Quarter SFY 2014

One hundred and thirty-two reports of alleged maltreatment, involving 148 children in foster care, were received by the hotline during the fourth quarter of SFY 2014.

In 32 reports involving 36 children, foster parents⁵ were identified as the alleged offenders. As shown by the following chart, five of those reports were found to be true and all five homes were subsequently closed.

**Foster Home Maltreatment Reports
4th Quarter SFY 2014**

True	Unsubstantiated	Pending
5	27	0

All allegations of maltreatment concerning foster homes are investigated by the Crimes Against Children Division (CACD) of the Arkansas State Police. DCFS staff do not actively participate in the investigation of these reports. Allegations of maltreatment regarding foster homes require the agency to assess the safety of all children residing in the home.

The following charts describe the characteristics of the 36 foster children involved in allegations of maltreatment—with foster parents as the alleged offenders.

⁵ This includes foster family homes and therapeutic foster homes

Race/Ethnicity

Gender

Allegation

County of Foster Homes in Which Alleged Maltreatment Occurred

County	Number of Children Involved in Maltreatment Report	County	Number of Children Involved in Maltreatment Report
Pulaski	6	St. Francis	2
Jefferson	5	Washington	1
Sebastian	3	Van Buren	1
Pope	3	Crittenden	1
Polk	2	Crawford	1
Faulkner	2	Craighead	1
