

ITEM D – Handout #1
Questions to and responses from U of A

Richard and Mr. Martinson:

Per Committee and public's request, could you please respond the following questions by Tuesday, September 10?

1. How is the new UA Bookstore charge program different from the one introduced in July, 2005?

In **2005** the limit was set at \$800 based on data from National Association of college stores average course martial purchases by students. Students were able to charge books and supplies through-out the semester. The balance had to be paid by the end of the term.

In **2013** the limit has been set at \$690. This amount was investigated and set by the university's financial aid office and is based on the average course material cost per student per semester. Students can charge their course materials only during the times listed below for a given term:

Summer 2013: May 14, 2013 — July 5, 2013

Fall 2013: August 3, 2013 — September 30, 2013

Spring 2014: January 2, 2014 — February 17, 2014

2. Do participating students sign a Charge Agreement? Is there a maximum amount that can be charged? What is it?

Participants have to have a valid student ID. Their status as a current registered student is validated through the ID office. Participating students sign on the cash register receipt acknowledging the receipt of merchandise and agreement to pay. There is a maximum amount that can be charged for course materials. The maximum amount is \$690.

3. Provide the UA Bookstore textbook sales in dollars and units from Aug. 1 through Sept. 3 for 2012 and 2013, broken down daily.

Please see attached.

4. Provide the gross textbook rental sales in dollars and units for Aug. 1 through Sept. 3 for 2012 and 2013, broken down daily.

Please see attached.

5. How many students are enrolled in the Bookstore Charge Program and how many have participated this fall?

As of September 3, 2013, 3,431 students had participated in this program.

6. What is the total textbook sales amount for students using the Charge Program for Fall 2013 in dollars?

\$1,016,384

7. Using the answer to number 6, what is the % of charged textbook sales to overall textbook sales?

Approximately 30%

8. Provide a list of other items being charged, including, but not limited to calculators, clickers, i-Pads, computers, printers, highlighters, etc. with dollar amounts for each.

Please see attached.

9. How were the students informed of this new program and when? Did the UA send out emails to students or staff informing them of this program? Have UA staff or faculty encouraged student participation in the program?

New students and parents that attended the Treasurer's Office Money Matters sessions at orientation were told about the new program as part of the general information provided. Information about the program was included in the Fall information email that went to all enrolled students in July 2013. This email also included drop information, withdrawal information, financial aid disbursement information, payment plan information and payment information. Students registered in the University Bookstore customer loyalty program were informed by email. The Bookstore also provided information to students and parents about this program during the summer new student orientation information fair (private stores also participate in the orientation fair). This information was also posted on the Bookstore website.

10. How long do students have to pay off the charges accumulated during a semester?

The payment deadline for the fall semester was September 30, 2013. Students could sign up for payment plans to pay in monthly installments with the final payment on November 30, 2013. If the charge is not paid, the students can't enroll in the spring semester.

11. What is the maximum amount that can be charged?

\$690 per term with the limitations given above,

12. Is any interest being charged on the balances, if so, what is the rate? Are there other fees or expenses associated with the Charge Program?

No interest is charged. The University charges a one-time per semester \$25 fee for any student that participates in the tuition and fee payment plan, regardless of what eligible charges are made.

13. Are penalties assessed for late payments? What are they? Are there penalties for non-payment?

There are no fees charged for late payments. There is a hold on the student's account that prevents registration and transcript/diploma release.

14. Minutes from Spring 2006 show \$38,000 was outstanding from the previous fall semester Charge Program at the UA Bookstore. How much of that was paid off and when and how much did the University write off? Which unit at the UA covered that cost?

A total of \$1,673,361.48 was charged for that fall semester. Of that amount \$1,669,664.03 was paid, \$2,878.94 was written off (0.17%), and \$818.51 is still outstanding (.05%). The amount written off was an expense to the Bookstore.

Thank you in advance for your response to these questions.
