~~26-51-805. Consolidated corporate returns.~~

~~(a)(1) All corporations which are eligible members of an affiliated group as that term is defined in 26 U.S.C. § 1504(a) and (b) as of January 1, 1989, which affiliated group files a federal consolidated corporate income tax return pursuant to 26 U.S.C. §§ 1501-1505 as of January 1, 1989, may elect to file a consolidated Arkansas corporate income tax return.~~

~~(2) However, only corporations in the affiliated group that have gross income from sources within the State of Arkansas that is subject to taxation under the provisions of the Arkansas Income Tax Act, as amended, § 26-51-101 et seq., shall be eligible to file consolidated corporate income tax returns in Arkansas.~~

~~(2) However, in the event that the General Assembly amends or supplements the Arkansas Income Tax Act, § 26-51-101 et seq., in a manner which would substantially alter the method of allocating or apportioning net income or loss subject to the Arkansas Income Tax Act, § 26-51-101 et seq., or in computing the tax due from the affiliated group, then the affiliated group may revoke the election to file an Arkansas consolidated corporate income tax return effective for the income year to which any such change to the Arkansas Income Tax Act, § 26-51-101 et seq., is effective.~~

~~(e) In any case of two (2) or more corporations, whether or not affiliated, owned, or controlled directly or indirectly by the same interests, the director may distribute, apportion, or allocate gross income, deductions, credits, or allowances between or among such corporations if he determines that the distribution, apportionment, or allocation is necessary in order to prevent evasion of taxes or clearly to reflect the income to any such corporation. ~~the concept of 26 U.S.C. § 482 as of January 1, 1989, as that section applies to corporations.~~

~~(f) In computing Arkansas consolidated taxable income or loss to which the tax rate is applied, the separate net income or loss of each corporation which is entitled to be included in the affiliated group shall be included in the consolidated net income or loss to the extent that its net income or loss is separately apportioned or allocated to the State of Arkansas in accordance with the provisions of § 26-51-701 et seq.~~

~~(g) This section is specifically designed to clarify the filing of consolidated corporate income tax returns with the Revenue Division of the Department of Finance and Administration and is to amend the Arkansas Income Tax Act, § 26-51-101 et seq. "SECTION 1. Arkansas Code § 3-4-201(c), regarding the number of permits that may issued, is amended to read as follows:

(c) The board ~~is further given the discretion to~~ may determine the number of permits ~~to be~~ granted in each county of this state or within the corporate limits of ~~any~~ a municipality of this state to determine the location ~~thereof~~ and the persons to whom ~~they~~ the off-premises retail liquor store permit shall be issued, under the following conditions:

(1)(A) The number of permits allowing the off-premises sale of vinous (except wines), spirituous, or malt liquor in any county ~~or political subdivision which~~

that permits the sale shall not exceed a ratio of one (1) permit for every ~~four thousand (4,000)~~ six thousand (6,000) population residing in that county ~~or~~ subdivision.

(a) In counties in which only a portion of the county is authorized to sell intoxicating liquors, the entire population of the county shall be used to calculate the number of off-premise retail liquor store permits that may be issued in that county.

(B) Population of the area involved shall be determined by the most recent population figures established in a census by the Bureau of the Census of the United States Department of Commerce or other appropriate governmental subdivision;

(2) New permits which may be issued in a county or subdivision thereof following a regular census shall be issued under the following restrictions:

(A) Additional permits may be issued on a ratio of one (1) for every additional ~~four thousand (4,000)~~ six thousand (6,000) population within the area;

(B) Any qualified applicant may apply for a permit. Qualifications are to be set from time to time by the board and its determination of the public convenience and advantage;

(3)(A) If it is determined that a county ~~or political subdivision thereof~~ is entitled to additional permits when warranted by a census, the board ~~will~~ shall announce prior to the last date for applications the number of new permits, if any, which may be issued ~~therein~~.

(B) ~~In the event that such~~ If regular census population figures decline in a given county, ~~or political subdivision thereof, no~~ existing permits shall not be cancelled or revoked for that reason, and the quota ratio shall not be applied ~~thereto~~ until the population in the county ~~or political subdivision thereof~~ reaches a number equalling equaling one (1) permit to every ~~four thousand (4,000)~~ six thousand (6,000) population ~~therein~~, nor shall any new permit be issued ~~therein~~ until the population warrants.

(C) ~~No transfer~~ A transfer of locations from one county to another county shall not be allowed.

(D) ~~In the event that any~~ If a holder of a permit for the sale of vinous (except wines), spirituous, or malt liquor surrenders a permit in a county ~~or municipality thereof~~ where the ratio no longer meets the ~~one to four thousand (1:4,000)~~ one to six thousand (1:6,000) requirement, ~~no~~ new applications ~~will~~ shall not be accepted until that ratio is reestablished at an approved census;

(4)(A)(i) ~~In the event~~ If a permit holder does not conduct business under any permit issued for a period of more than thirty (30) days, the permit shall be surrendered to the director and shall be placed on inactive status.

(ii) The permit may remain inactive for six (6) months or until the permit holder notifies the director that he or she is ready to resume business, whichever is longer.

(B) To secure the return of the permit, the permit holder shall file with the director a written statement showing:

(i) That all taxes and fees owing to the state have been paid;

(ii) The reason for the suspension of business

(iii) The date business activity will resume.

(C)(i) The permit holder may petition the board for an extension of inactive status for an additional six-month period.

(ii) The board may grant an initial extension upon a showing by the permit holder and a finding by the board that business circumstances exist to justify an extension, that the delay to return to business was not due to mere deferral or inattention on the part of the permit holder, and that the inactive status should be extended.

(iii)(a) The permit holder may appeal to the board for a second extension of inactive status for an additional six-month period, but only upon a showing by the permit holder and a finding by the board that emergency circumstances exist to justify a final extension.

(b) "Emergency circumstances" are those delays in return to business which are beyond the control, planning, or foresight of the permit holder, including, but not limited to, delays due to natural disasters, pending court actions, building construction problems, and contested insurance claims.

(D) ~~Any~~ A permit remaining on inactive status for a period of more than eighteen (18) months or which has not been granted an extension under the provisions of this subdivision shall expire; and

(5)(A) Nothing in this section and §§ 3-4-202 and 3-4-208, except a permit on inactive status for more than eighteen (18) months after the provisions of subdivision (c)(4) of this section become effective or which has expired in accordance with subdivision (c)(4) of this section, shall be construed as to divest any permit holder holding the permit on July 1, 1991, regardless of the quota ratio, of his permit.

(B) In counties or municipalities which have a ratio lower than the quarter ratio established ~~herein~~ in this section , the permit holder shall be allowed to continue under subdivision (3)(B) of this subsection."

~~23-52-105. General disclosure.~~

~~(a) Every check-casher, as applicable to the services provided, shall post a complete, detailed, and unambiguous schedule of all fees for:~~

~~(1) Cashing checks and making any deferred presentment option thereof;~~

~~(2) The sale or issuance of money orders; and~~

~~(3) The initial issuance of any identification card.~~

~~(b) Each check-casher shall also post a list of valid identification which is acceptable in lieu of identification provided by the person cashing the check. The information required by this section shall be posted at each location at which the check-casher conducts the check-cashing business and in clear, legible letters not less than one-half inch (½") in height. The information shall be posted in a conspicuous location in the unobstructed view of the public within the check-casher's premises.~~

~~23-52-106. Other terms of doing the check-cashing business.~~

~~(a) A check-casher may not purchase a check for the purpose of deferred presentment option without receiving from the customer a written certification that the account upon which the check is drawn is legitimate and open. The certification may be contained in the body of the deferred presentment option agreement required by this chapter.~~

~~(b) Before a check-casher shall present for payment or deposit a check purchased by the check-casher, the check shall be endorsed with the actual name under which the check-casher is doing business.~~

~~(c) Any agreement for a deferred presentment option of a check shall be in writing and signed by the maker of the check. Such written agreement shall contain a written explanation in clear, understandable language of the fees to be charged by the check-casher and the date on which the check will be deposited or presented by~~

~~the check-casher. Without limitation, such explanation shall contain a statement of the total amount of any fees charged for the deferred presentment option expressed both in United States currency and as an annual percentage rate. Enactment of this subsection shall not create any inference that a particular method of disclosure was required prior to April 7, 1999.~~

~~(d) The maker of any check purchased by a check-casher and accepted for deferred presentment option shall have the right to repurchase that check from the check-casher before the agreed date of deposit upon payment to the check-casher of the face amount of that check. If a check-casher accepts a partial payment, that check may not be presented for deposit nor may the check-casher charge any additional fee. A check-casher shall not defer presentment of any check for less than six (6) calendar days nor more than thirty one (31) calendar days after the date the check is sold to the check-casher.~~

~~(e) A check-casher shall issue a copy of the written agreement to each person for whom a check-casher grants a repurchase option and defers deposit of a check.~~

~~(f) A check-casher shall comply with all provisions of state and federal law regarding cash transactions and cash transaction reporting.~~

~~(g) If a check is returned to the check-casher from a payer bank or other financial institution due to insufficient funds, closed account, or a stop-payment order, the check-casher shall have the right to all civil remedies allowed by law to collect the check and shall be entitled to recover any returned check fee authorized by applicable Arkansas law, court costs, and reasonable attorney's fee paid to an attorney who is not a salaried employee of the check-casher.~~

~~(h) If a check is returned to a check-casher from a payer financial institution because there are insufficient funds in or on deposit with the financial institution to pay the check, the check-casher or any other person on behalf of the check-casher shall not institute or initiate any criminal prosecution against the customer who sold such check to the check-casher, unless the check-casher would otherwise be entitled to institute or initiate a criminal prosecution against such customer under applicable Arkansas criminal law and such check is returned to the check-casher because:~~

~~(1) The account on which such check was drawn was closed by the maker of the check, either before or during the term of the deferred presentment option agreement; and~~

~~(2) Payment on the check was stopped by the maker of the check.~~

~~(i) No check-casher may alter or delete the date on any check accepted by the check-casher.~~

~~(j) No check-casher may accept an undated check or a check dated on a date other than the date on which the check-casher purchases the check.~~

~~(k) Consistent with the nature of a deferred presentment option, no check-casher shall require a customer to provide security for the deferred presentment transaction or require the customer to provide a guaranty from another person.~~

~~(l) Each check-casher shall pay all proceeds in cash for any check purchased.~~

~~(m) No check-casher shall have more than one (1) deferred presentment check outstanding at any time from any one (1) customer per permitted location. A deferred presentment check purchased from any one (1) customer and outstanding at any one (1) time shall not exceed four hundred dollars (\$400).~~

~~(n) A check-casher shall not renew or otherwise consolidate a deferred presentment option transaction with the proceeds of another deferred presentment option transaction made by the same customer.~~

~~23-52-107. Qualification for check-casher permit.~~

~~A check-casher permit applicant shall satisfy the following requirements to qualify for a permit under this chapter:~~

~~(1) The applicant shall have a minimum of cash or other liquid assets of at least twenty thousand dollars (\$20,000) for the operation of each location at which the applicant will engage in the check-cashing business and shall be required to post with the State Board of Collection Agencies a fifty-thousand-dollar bond payable to the State of Arkansas;~~

~~(2) The financial responsibility, financial condition, and business experience of the applicant shall reasonably warrant the belief that the applicant's check-cashing business will be conducted in accordance with this chapter. In determining whether this qualification has been met and for the purpose of investigating compliance with this chapter, the board may review and approve the following:~~

~~(A) The relevant business records and the capital adequacy of the applicant; and~~

~~(B) The competence, experience, and financial ability of any person who is a member, partner, director, officer, or five percent (5%) or more shareholder of the applicant or who otherwise controls the applicant;~~

~~(3) The requirements set forth in subdivisions (1) and (2) of this section shall be continuing in nature; and~~

~~(4) The board shall deny an application for a permit to conduct a check-cashing business or for renewal of a permit if the applicant or any person referred to in subdivision (2)(B) of this section has a felony conviction involving~~

dishonesty, fraud, or deceit, provided the crime is substantially related to the qualifications, functions, or duties of a person engaged in the check-cashing business.

~~23-52-108. Form of application for permit.~~

~~(a) Each application for a check-cashing permit shall be in writing in a form prescribed by the State Board of Collection Agencies and shall include at least the following:~~

~~(1) The legal name, residence, business address, and telephone number of the applicant;~~

~~(2) If the applicant is a partnership, association, limited liability company, or corporation, the name and address of every member, officer, and director; and~~

~~(3) Such other data and information as the board may require with respect to the applicant and its directors, officers, partners or members.~~

~~(b) For each location at which the applicant wants to engage in the check-cashing business, each application for a permit shall be accompanied by both of the following:~~

~~(1) An initial permit fee of five hundred dollars (\$500) which shall not be subject to refund; and~~

~~(2) A financial statement showing that the applicant has at least twenty thousand dollars (\$20,000) in liquid or other cash assets available for the operation of the check-cashing business prepared in accordance with standard accounting practices and procedures.~~

~~23-52-109. Board action and issuance of permits.~~

~~(a) Upon the filing of an application in the form prescribed by the State Board of Collection Agencies accompanied by the fees and documents required in this chapter, the board shall investigate to ascertain whether the qualifications prescribed by § 23-52-107 have been satisfied. If the board finds that the qualifications have been satisfied and approves the documents, the board shall issue to the applicant a permit to engage in the check-cashing business in Arkansas at the locations specified in the application as approved by the board.~~

~~(b) No person engaged in the check-cashing business shall conduct any other business within the same location without having obtained prior written approval from the board.~~

~~(c) The check-casher permit shall be kept conspicuously posted in the check-casher's place of business and shall not be assignable or transferable nor moved to another location without permission of the board.~~

~~(d) In addition to the initial permit fee required by § 23-52-108(b)(1), there shall be an annual permit fee of four hundred dollars (\$400) for each office, branch, or place of business of the check-casher, which shall be due on August 1 of each year. The annual permit fee shall be for a one-year period ending July 31 and shall be delinquent on September 1 of each year. There shall be a penalty of ten percent (10%) for each month or part thereof that the check-casher is delinquent in the payment of the annual permit fee. All permit fees collected by the board shall be used by the board in the supervision and examination of check-cashers and the issuance of permits under this chapter.~~

~~(e) A person operating a check-cashing business on April 7, 1999, shall have until the beginning of the next permit year after April 7, 1999, to apply for a permit under this chapter and to pay the required permit fee, and upon qualification and payment of the required fee shall be granted a permit under this chapter. Provided, that the check-casher shall comply with the other provisions of this chapter pending the application.~~

~~(f) A check-casher may voluntarily surrender its permit to the board. However, the check-casher shall not be entitled to receive a refund of any permit fees previously paid. Upon surrender, the check-casher shall immediately make available to the board all books, records, and papers required to be created and maintained under this chapter or regulations promulgated by the board under this chapter.~~

~~23-52-110. Change of control of check-casher.~~

~~The prior written approval of the State Board of Collection Agencies shall be required for the continued operation of a check-cashing business whenever a change in control of a permitted check-casher is proposed. Control in the case of a corporation shall mean direct or indirect ownership, the right to control twenty-five percent (25%) or more of the voting shares of the corporation, or the ability of a person to elect a majority of the directors. Control in the case of any other entity shall mean the ability to change the principles of the organization, whether active or passive. The board may require information deemed necessary to determine whether a new application is required.~~

~~23-52-111. Regulations.~~

~~The State Board of Collection Agencies is authorized and empowered to promulgate reasonable regulations for the execution and enforcement of this chapter. However, before any rules and regulations promulgated by the board shall be effective, they must be issued in accordance with the Arkansas Administrative Procedure Act, § 25-15-201 et seq.~~

~~23-52-112. Records and inspections.~~

~~(a) Each check-casher shall keep and use in its business any books, accounts, and records that the State Board of Collection Agencies may require to carry into effect the provisions of this chapter and the administrative regulations issued hereunder. Provided, such records may be retained on computer or other electronic storage devices.~~

~~(b) For the purpose of determining compliance with this chapter, the board, at any reasonable time, may cause an examination to be made at a check-casher's place of business of the records and transactions of such check-casher. Each check-casher shall preserve all relevant records for a period of at least two (2) years after making the last entry on any transaction, and the board shall have free access to such records at the check-casher's place of business at all reasonable times during the check-casher's normal business hours. If the board has probable cause to believe that a person has engaged in an activity which violates the provisions of this chapter, the board may compel the production of such books and records of the person as the board has probable cause to believe are relevant to the alleged violation.~~

~~23-52-113. Appeal of permit denial.~~

~~(a) If the State Board of Collection Agencies determines that an applicant is not qualified to receive a permit, the board shall notify the applicant in writing that the application has been denied, stating the basis for denial.~~

~~(b) If the board denies an application or if the board fails to act on an application within ninety (90) days after the filing of a properly completed application, the applicant may make a written demand to the board for a hearing before the board on the question of whether the permit should be granted.~~

~~(c) At the hearing, the burden of proving that the applicant is entitled to a permit under this chapter shall be on the applicant. A decision of the board following any hearing on the denial of a permit may be subject to review in accordance with the Arkansas Administrative Procedure Act, § 25-15-201 et seq.~~

~~23-52-114. Revocation or suspension of permit.~~

~~(a) After notice and hearing, the State Board of Collection Agencies may suspend or revoke any permit if the Chairman of the State Board of Collection Agencies finds that the check-casher either knowingly or through lack of due care has committed one (1) of the following:~~

~~(1) Failed to pay the annual permit fee imposed by this chapter or an examination fee imposed by the board under the authority of this chapter;~~

~~(2) Violated a provision of this chapter or an administrative regulation issued pursuant to this chapter; and~~

~~(3) Made a false statement in the application for the permit or failed to give a true reply to a question in the application.~~

~~(b) If the reason for revocation or suspension of a permit of the check-casher at any one (1) location is of general application to all locations operated by a check-casher, the board may revoke or suspend all permits issued to the check-casher.~~

~~(c) Any hearing under this section shall be held on written notice given at least twenty (20) days prior to the date of the hearing.~~

~~23-52-115. Board remedies for violation of this chapter.~~

~~If after a hearing the State Board of Collection Agencies finds that a person has violated this chapter or any administrative regulation issued pursuant to this chapter, the board may do any or all of the following:~~

~~(1) Order the person to cease and desist violating this chapter or any administrative rules issued pursuant thereto;~~

~~(2) Require the refund of any fees collected by the person in violation of this chapter; and~~

~~(3) Order the person to pay to the board a civil penalty of not more than one thousand dollars (\$1,000) for each transaction in violation of this chapter or for each day that a violation has occurred and continues.~~

~~23-52-116. Consent orders.~~

~~(a) The State Board of Collection Agencies may enter into consent orders at any time with any person to resolve any matter arising under this chapter. A consent order shall be signed by the person to whom it is issued or an authorized representative and shall indicate agreement to the terms contained therein. A consent order need not constitute an admission by any person that any provision of this chapter or any rule, regulation, or order promulgated or issued pursuant to this chapter has been violated, nor need it constitute a finding by the board that the person has violated any provision of this chapter or any rule, regulation, or order promulgated or issued hereunder.~~

~~(b) Notwithstanding the issuance of a consent order, the board may seek civil or criminal penalties or compromise civil penalties concerning matters encompassed by the consent order.~~

~~23-52-117. Complaints.~~

~~(a) Without limiting any other right, power, or remedy of the State Board of Collection Agencies under this chapter or the Attorney General pursuant to authority granted under § 4-88-101 et seq. pertaining to deceptive trade practices, any person aggrieved by the conduct of a check-casher under this chapter in connection with the regulated activities of the check-casher may file a written complaint with the board, which may investigate the complaint.~~

~~(b) In the course of the investigation of the complaint, the board may do any or all of the following:~~

~~(1) Subpoena witnesses;~~

~~(2) Administer oaths;~~

~~(3) Examine any individual under oath; and~~

~~(4) Compel the production of records, books, papers, contracts, or other documents relevant to the investigation.~~

~~(c) If a person fails to comply with a subpoena of the board under this chapter or to testify concerning any matter about which the person may be interrogated under this chapter, the board may petition any court of competent jurisdiction for enforcement.~~

~~(d) The permit of any check-casher under this chapter who fails to comply with a subpoena of the Chairman of the State Board of Collection Agencies may be suspended pending compliance with the subpoena.~~

~~(e) A person who willfully makes charges in excess of those permitted by § 23-52-104 or a person who willfully engages in the check-cashing business in violation of this chapter is guilty of a Class A misdemeanor.~~

~~(f) Any action for a civil remedy under this chapter by the board or any other person against a check-casher must be commenced within five (5) years after the action or inaction giving rise to the right to seek such a civil remedy."~~

(b)(1) After a regional economic development partnership has been formed, a municipality or county within the geographic region in which the regional economic development partnership is located may elect to join the regional economic development partnership by adopting an ordinance to that effect.

"SECTION 1. NOT TO BE CODIFIED. Legislative intent. The General Assembly finds that:

(1) Nonresidential large business consumers of electricity and natural gas know best which energy efficient investments to make in their businesses and should be allowed to choose how their available capital resources are best invested to save energy in their facilities;

(2) Energy efficiency measures implemented by non-residential large business consumers of electricity and natural gas provide the same kinds of system benefits for their utility suppliers and other customers as are provided by a mandatory utility-managed energy efficiency program;

(3) A mandatory requirement that non-residential large business consumers of electricity and natural gas pay for their utility supplier energy efficiency programs ensures that some large business consumers will be forced to pay for programs that directly compete with their own energy efficiency investment capital; and

(4) States adjoining Arkansas have implemented simple energy efficiency program opt out mechanisms for their business consumers, putting Arkansas non-residential business consumers at a significant competitive disadvantage relative to competitors in states such as Texas and Oklahoma.

SECTION 2. Arkansas Code § 23-3-405 is amended to read as follows:

23-3-405. Authority of Arkansas Public Service Commission — Rates and charges - Exemption.

(a)(1) The Arkansas Public Service Commission is authorized to propose, develop, solicit, approve, require, implement, and monitor measures by utility companies which cause the companies to incur costs of service and investments which conserve, as well as distribute, electrical energy and existing supplies of natural gas, oil, and other fuels.

(2) After proper notice and hearings, the programs and measures may be approved and ordered into effect by the commission if it determines they will be beneficial to the ratepayers of such public utilities and to the utilities themselves.

(3) In such instances, the commission shall declare that the cost of such conservation measures is a proper cost of providing utility service. At the time any such programs or measures are approved and ordered into effect, the commission shall also order that the affected public utility company be allowed to increase its rates or charges as necessary to recover any costs incurred by the public utility company as a result of its engaging in any such program or measure.

(b) Nothing in this subchapter shall be construed as limiting or cutting down the authority of the commission to order, require, promote, or engage in other energy conserving actions or measures.

(c)(1) A nonresidential rate payer of a public utility company having a minimum peak electrical demand of one megawatt (1 MW) or an annual natural gas usage of seventy thousand million British Thermal Units (70,000 MMBTU) may provide a certification of exemption to the commission no later than March 1 of any year stating that they have implemented or will implement a measure or have made or will make an investment designed to provide energy savings for the nonresidential rate payer.

(2)(A) Upon receipt of the certification of exemption under this subsection, the commission shall notify the public utility company of the exemption.

(B) Beginning on June 1 following notification of the exemption:

(i) The nonresidential rate payer shall not be required to participate in the programs or measures required by the commission under this section;

(ii) The public utility company shall cease billing all of the accounts of the nonresidential rate payer for the programs and measures required by the commission under this section; and

(iii) The nonresidential rate payer shall not be eligible to participate in public utility company energy efficiency programs.

Chief Clerk

Upon motion of Representative Barnett, **HOUSE BILL NO. 1450** was placed back on second reading for the purpose of amendment.

AMENDMENT NO. 1 TO HOUSE BILL NO. 1450

Amend **HOUSE BILL NO. 1450** as originally introduced:

Delete Section 1 and 2 in their entirety and substitute:

"SECTION 1. Arkansas Code Title 15, Chapter 72 is amended to add an additional subchapter to read as follows:

Subchapter 11 — Carbon Dioxide Storage

15-72-1101. Title.

This subchapter shall be known and may be cited as the "Arkansas Carbon Dioxide Storage Act".

15-72-1102. Legislative finding.

(a) The General Assembly finds that:

(1) Carbon dioxide is a substance that occurs naturally in the environment as a result of biological processes and that exists as a gas at standard temperature and pressure;

(2) Carbon dioxide is released during combustion of any material that contains carbon including coal, natural gas, oil, and wood, all of which exist in abundance and the production and use of which is one of the foundations of our state's economy;

(3) Carbon dioxide is currently being released into the atmosphere in substantial volumes through the combustion of such materials as coal, natural gas, oil, and wood;

(4) For many years, technologies for the injection, use, and storage of carbon dioxide in underground geologic formations have been developed and successfully used for the extraction of underground natural resources such as oil and natural gas;

(5) The storage of carbon dioxide in underground geologic formations may be an effective means for reducing the release of carbon dioxide into the atmosphere from anthropogenic sources;

(6) The transportation and storage of carbon dioxide in underground geological formations and for beneficial use or reuse in industrial and commercial applications is expected to increase in the United States and in Arkansas due to initiatives by federal, state, and local governments, industry and commerce, and other interested persons and may present an opportunity for economic growth and development for the state; and

(7) The United States Environmental Protection Agency is moving forward with regulations that may require industry to address carbon dioxide emissions, and recent federal regulatory developments, including the United States Environmental Protection Agency Underground Injection Control Program for Carbon Dioxide Geologic Sequestration Wells, make it prudent and appropriate to allow for the transportation of carbon dioxide and the storage of carbon dioxide in underground geologic formations as an alternative to its release into the atmosphere.

(b) The General Assembly also finds that:

(1) The transportation and storage of carbon dioxide will benefit the citizens of the state by reducing carbon dioxide emissions;

(2) Carbon dioxide may have potential for use in other industrial and commercial processes and applications;

(3) Transportation and storage of carbon dioxide may allow for the orderly withdrawal and use or reuse as appropriate or necessary, thereby allowing carbon dioxide to be available for commercial, industrial, or other uses, including the use of carbon dioxide for enhanced recovery of oil and gas;

(4) the protection of private property rights and interests are essential and may be impacted by the underground storage of carbon dioxide; and

(5) It is the public policy of this state and the purpose of this subchapter to provide for a coordinated statewide program for the transportation and storage of carbon dioxide in underground geological formations and also to fulfill the state's primary responsibility for ensuring compliance with the federal Safe Drinking Water Act, 42 U.S.C. § 300f et seq., including recent regulations concerning the underground injection of carbon dioxide.

(6). The risks and technology for the injection of carbon dioxide on a commercial scale are not entirely known and in the development stage with only pilot projects being completed and as such there is sufficient time for the legislature to study all issues associated with this matter.

(c) The General Assembly further finds that:

(1) Liability issues surrounding long-term storage of carbon dioxide must be addressed in order to encourage the development of projects under this subchapter;

(2) Liability insurance is a key component of the injury compensation structure contemplated in this subchapter;

15-72-1103. Definitions.

As used in this act:

(1) "Carbon dioxide" means naturally occurring, geologically sourced, or anthropogenically sourced carbon dioxide, including without limitation its derivatives and all mixtures, combinations, and phases of carbon dioxide, whether liquid or gaseous, stripped, segregated, or divided from any other fluid stream, material, or substance;

(2)(A) "Carbon dioxide transmission pipeline" means a pipeline, a compressor, a meter and associated equipment and appurtenances used for the purpose of transporting carbon dioxide in this state for underground storage in this state or another state.

(B) "Carbon dioxide transmission pipeline" does not include carbon capture equipment located at the generator of the carbon dioxide or a pipeline that is part of a storage facility;

(3) "Oil or gas" means oil, natural gas, coalbed methane, or gas condensate;

(4) "Person" means an individual, corporation, company, firm, partnership, association, trust, joint-stock company or trust, venture, municipal, state, or federal government or agency, or any other legal entity, however organized;

(5) "Reservoir" means that portion of any underground geologic stratum, formation, aquifer, cavity, or void, whether natural or artificially created, including without limitation oil and gas reservoirs, salt domes, or other saline formations, oil and gas formations, or coal and coalbed methane seams that are suitable for or capable of being made suitable for the injection and storage of carbon dioxide;

(6) "Storage" means the placement and long-term or short-term underground storage of carbon dioxide in a reservoir;

(7)(A) "Storage facility" means the reservoir, the underground equipment and pipelines internal to the storage operation, storage wells, monitoring wells, and surface buildings and equipment utilized in the storage operation, including pipelines owned or operated by the storage operator used to transport carbon dioxide from one (1) or more capture facilities or sources to the storage and injection site or sites.

(B) "Storage facility" does not include carbon capture equipment located at the generator of the carbon dioxide;

15-72-1104. Authority to Accept

(a) The Arkansas Public Service Commission may prescribe, enforce, and implement safety standards for carbon dioxide transmission pipelines subject to this subchapter in accordance with and to the extent that the pipelines are subject to the Arkansas Natural Gas Pipeline Safety Act of 1971, § 23-15-201 et seq.

(b)(1) This subchapter does not apply to:

(A) The use of carbon dioxide as a part of or in conjunction with any enhanced recovery operation where the sole purpose of the project is enhanced oil, coalbed methane, brine, or natural gas recovery; or

(B) A natural gas storage operation certificated by the Federal Energy Regulatory Commission or the Oil and Gas Commission.

(c)(1) This subchapter does not amend the Arkansas Water and Air Pollution Control Act, § 8-4-101 et seq.

(d) This subchapter does not affect the jurisdiction of the Arkansas Pollution Control and Ecology Commission or the Arkansas Department of Environmental Quality with respect to water and air pollution control or other matters within their respective jurisdictions.

(e) This subchapter does not affect the requirement that a person apply for and obtain a permit as provided by the Arkansas Water and Air Pollution Control Act, § 8-4-101 et seq.

(f)(1) The Arkansas Department of Environmental Quality may administer on behalf of the state, subject to the approval of the Governor, its own program for the underground injection of carbon dioxide for the purpose of geologic sequestration within its jurisdiction in lieu of that of the United States Environmental Protection Agency under the federal Safe Drinking Water Act, 42 U.S.C. § 300f et seq., as it existed on February 1, 2011.

(2) The Arkansas Department of Environmental Quality may submit to the Administrator of the United States Environmental Protection Agency an application for approval of a program that the Arkansas Department of Environmental Quality proposes to establish and administer for the underground injection of carbon dioxide for the purpose of geologic sequestration as provided in Section 1422 of the federal Safe Drinking Water Act, 42 U.S.C. § 300f et seq., as it existed on February 1, 2011.

(3) The Department, the Arkansas Pollution Control & Ecology Commission and the Oil and Gas Commission shall:

(A) Meet the requirements of Section 1422 of the federal Safe Drinking Water Act, 42 U.S.C. § 300f et seq., as it existed on February 1, 2011, relating to the underground injection of carbon dioxide for the purpose of geologic sequestration; and

(B) Enter into interagency written agreements or understandings that may be necessary or convenient for the delegation or sharing of responsibility or administration relating to the underground injection of carbon dioxide for the purpose of geologic sequestration.

(g) No agency of state government or political subdivision of the state may regulate a facility or activity for the purpose of the transportation, storage, or withdrawal of carbon dioxide for the purpose of storage in underground geologic formations except as expressly authorized under this subchapter.

(h) No person or entity may construct or operate any part of a carbon dioxide storage facility without first obtaining a permit from the Arkansas Department of Environmental Quality. No authorizing permits by any state agency to proceed under this chapter or otherwise for any carbon dioxide storage facility shall be issued until June 30, 2013.

15-72-1105. Delegation of Authority

(a) The legislature, after the interim study named herein, shall empower the proper agencies with authority to provide for a coordinated statewide program for the transportation and storage of carbon dioxide in underground geologic formations which shall be determined by the legislature and implemented no later than June 30, 2013. Such agency rules shall, at a minimum, address such issues as the following:

(1) The public necessity for a proposed storage facility or carbon dioxide transmission pipeline;

(2) The economic reasonableness of a proposed storage facility;

(3) The suitability of the location of a proposed storage facility, including its reservoir;

(4) The environmental impact of a proposed storage facility or carbon dioxide transmission pipeline;

(5) Financial requirements, including long-term financial assurance or responsibility, for the construction, operation, monitoring, closure, remediation and long-term care of a proposed storage facility;

(6) Public notice and comment, including the opportunity for a public hearing, on the need for a proposed storage facility or a proposed carbon dioxide transmission pipeline and on any permit to construct or operate a storage facility or carbon dioxide transmission pipeline;

(7) Permits to construct and operate a proposed storage facility that contain conditions reasonably necessary to protect against pollution or escape of carbon dioxide from the reservoir;

(8) The quality of carbon dioxide to be managed at a proposed storage facility so as to not compromise the rights of landowners, human health, the environment, or the safety and efficiency of the reservoir;

(9) Cooperative agreements with other states or state agencies for the purpose of regulating carbon dioxide storage facilities or carbon dioxide transmission pipelines that extend across state boundaries; and

(10) Civil penalties for violations of rules adopted pursuant to this subchapter.

(b) The Oil and Gas Commission, the Arkansas Pollution Control & Ecology Commission, and the Arkansas Department of Environmental Quality shall provide a report to the House Insurance and Commerce Committee no later than June 30, 2012, describing their progress and their proposals to address the requirements of subsection (f) of 15-72-1104 and subsection (a) of this section, including without limitation each of the items enumerated in subsection (a).

(c) All rules and regulations adopted under this subchapter shall be reviewed by the Joint Interim Insurance and Commerce Committee, and by the Joint Interim Public Health and Welfare Committee.

(d) Each agency named herein shall propose how to address the issues cited within this subchapter to the legislature within the time frame outlined.

15-72-1106. Ownership of reservoir and pore space.

(a)(1) A conveyance of the surface ownership of real property shall be deemed to be a conveyance of the reservoir and pore space in all strata below the surface of the real property, except in the following circumstances:

(A) The ownership interest in the reservoir and pore space has been previously severed from the surface ownership;

(B) The ownership interest in the reservoir and pore space has been explicitly reserved from the conveyance of the surface ownership; or

(C) The ownership interest in the reservoir and pore space has been implicitly reserved from the conveyance of the surface ownership by the placement of a restriction or limitation on the use of the surface estate.

(2)(A) A conveyance of the surface only in an original severance deed shall be sufficient to reserve to the grantor the reservoir and pore space.

(B) A conveyance or reservation of coal, oil, gas, coalbed methane, and other minerals shall not be sufficient as a conveyance or reservation of the reservoir and pore space.

(b) If, notwithstanding subsection (a) of this section, prior agreements and conveyances remain uncertain as to the ownership of the reservoir and pore space, ownership of the reservoir and pore space in the strata below the surface is vested in the owner of the surface above the strata.

(c) This section is not intended to change, impinge upon, or impair any existing rights to store underground, extract, mine or otherwise produce coal, oil, gas, coalbed methane, or other mineral interests, including rights under the Underground Storage of Gas Law, § 15-72-601 et seq., or to prevent any party from asserting adverse possession of the reservoir and pore space."

SECTION 2. Do. Not Codify. The Utilities Subcommittee of the House Insurance and Commerce Committee shall study and review:

(1) The impact of the underground storage of carbon dioxide on private property rights and interests;

(2) The use of available legal mechanisms for the amalgamation of property rights necessary for the orderly development of carbon dioxide storage facilities;

(3) Liability of carbon dioxide storage facility operators, carbon dioxide transmission pipeline operators, generators of carbon dioxide that has been injected into a carbon dioxide storage facility, and other persons with interests in a carbon dioxide storage facility upon completion of injection operations;

(4) The use of financial mechanisms or instruments for payment of the costs of long term monitoring, maintenance, remediation and liability claims associated with carbon dioxide storage facilities;

(5) The availability of liability insurance as components of a state program to ensure that there are adequate funds to provide for the safe and secure storage of carbon dioxide, to address conditions that pose a threat to human health and the environment; and to compensate landowners and others who may suffer damages as a result of carbon dioxide storage activities, for as long as carbon dioxide is stored underground;

(6) The manner in which private property owners whose lands may be acquired and used for carbon dioxide storage, and other interested persons will be notified of any and all regulatory proceedings related to the storage of carbon dioxide; and

(7) Reforms to existing laws that may be necessary to facilitate carbon dioxide storage, which will impact the landowners whose property may be utilized for carbon dioxide storage, and to protect human health and the environment from the potential adverse effects that may occur as a result of carbon dioxide storage."

"WHEREAS, Mr. Kirkbride Potts, a young bachelor, came to Arkansas by covered wagon in 1828; married Pamela Logan, a member of a pioneer family south of the Arkansas River; and the couple settled at the foot of Crow Mountain in Pope County, Arkansas; and

WHEREAS, Mr. Potts homesteaded one hundred and sixty (160) acres, began clearing and farming, and was a respected citizen in the valley; like many other Americans in the late 1840's, Mr. Potts decided to mine for gold in California but was not successful in that endeavor; but he recognized the opportunity to supply meat to the hungry prospectors and organized three (3) successful cattle drives back to California; and

WHEREAS, with a large family of eleven (11) children, Mr. Potts in the 1850's began the construction of a two-and-a-half story home, which was modeled after the great houses back in his home state of Pennsylvania; almost all of the wood used in construction was cut on the homesteaded acres and hauled by oxen to Cagle's Mill, where it was sawed into lumber; the boards were hand-planed and marks of the plane bits are still visible in the attic; the bricks used in the nine (9) fireplaces were made on the premises and the molds and racks used to make the bricks are on display in the house; the doors and windows, many still with the original glass panes, were brought by keel boat up the Arkansas River; mantel boards over the fireplaces and the simple decorative woodwork in the parlor are the only architectural frills in the house; it was a functional frontier home, stage depot stop, and a well-known social center between Memphis, Tennessee, and Fort Smith, Arkansas, in those early days; and it took eight (8) years to complete the home; and

WHEREAS, the rooms on both the first and second floor are 20 x 20 with a 12-foot wide central hall; the parlor was used for state occasions, tea parties, and musicals; all of the Potts family daughters were married in front of the fireplace; governors, military officers, and Cherokee chiefs shared the hospitality and delicious fare assured by Mrs. Potts; and the home served as the first post office in the area and the original postal desk used by Mr. Potts is on display in the museum; and

WHEREAS, in 1857, the United States Government passed legislation to establish an overland mail route to transport mail and passengers to California; Mr.

John Butterfield from upstate New York was awarded the huge contract and the Potts home was a scheduled stop on the Butterfield Overland Mail route; the stagecoach traveled almost three thousand (3,000) miles one way, and they accomplished the set goal with the first trip in September of 1858 taking less than the allotted time of twenty-four (24) days; but the stage route was short-lived due to the beginning of the Civil War; and

WHEREAS, the Potts family provided legendary food and comfortable boarding for travelers and local visitors for three (3) generations; in 1970 the home was obtained by Pope County with the purpose of converting it to a museum; it is maintained by the Pope County Historical Foundation, a volunteer board; and in addition to the original well house and smoke house, there are several cabins on the grounds that display other facets of local history along with this jewel of Arkansas,"
