16 (B) The State General Services Miscellaneous Agencies Fund Account
 17 shall consist of:

18 (i) Those general revenues as may be provided by law;
 19 (ii) Nonrevenue income derived from services provided by the various
 20 agencies and programs funded from the State General Services Miscellaneous
 21 Agencies Fund Account; and

22 (iii)(a) Federal reimbursement received on account of eligible
 23 expenditures of the various agencies and programs receiving primary support
 24 from the State General Services Miscellaneous Agencies Fund Account.

25 (b) ~~In the event there are not sufficient funds available in the State~~
 26 ~~General Services Fund Account to support the amounts appropriated from the~~
 27 ~~State General Services Fund Account, the Chief Fiscal Officer of the State~~
 28 ~~shall determine the amount of moneys to be made available for each of the~~
 29 ~~appropriations made from the State General Services Fund Account. (1) In the~~
 30 event that the amount of funds estimated to be available for the
 31 Miscellaneous Agencies Fund Account is less than the total of the
 32 appropriations made from the Miscellaneous Agencies Fund Account, the Chief
 33 Fiscal Officer of the State shall use the following procedure to determine
 34 the amount of each appropriation to be financed after full funding is
 35 provided for all national and regional association dues:

36 (A) Determine from each appropriation the lesser of the estimated

1 expenditures for the fiscal year preceding the fiscal year for which the
2 funding level is to be determined and the amount of the appropriation for the
3 fiscal year for which the funding level is to be determined. This result
4 shall be called the "base appropriation".

5 (B) From the amount determined in (A) subtract the amount appropriated
6 for the fiscal year for which the funding level is to be determined. This
7 result shall be called the "improvement level".

8 (C) The sum of the amounts determined in (A) shall be subtracted from
9 the estimated amount to be available in the Miscellaneous Agencies Fund
10 Account.

11 (D) If the amount estimated to be available for the Miscellaneous
12 Agencies Fund Account is less than the sum of all base appropriations then
13 the amount of funding to be made available to each appropriation shall be
14 determined by multiplying each appropriation's base appropriation percentage
15 of the sum of all base appropriations by the amount estimated to be available
16 for the Miscellaneous Agencies Fund Account.

17 (E) If the amount estimated to be available for the Miscellaneous
18 Agencies Fund Account is greater than the sum of all base appropriations,
19 each appropriation shall first receive full funding of its base appropriation
20 and then its proportionate share of the amounts determined in (B) based upon
21 the total of all improvements levels.

22 Upon completing the procedure above, the Chief Fiscal Officer of the State
23 shall notify the Legislative Council.

24 (F) Provided, however, the Chief Fiscal Officer of the State shall
25 determine for any appropriation authorized for a biennial period, the portion
26 of the biennial appropriation that shall be used in the computations as "base
27 appropriation" and that portion which shall be used as the "improvement
28 level".

29
30 (2) The Department of Finance and Administration may, upon approval of the
31 Chief Fiscal Officer of the State and the Arkansas Legislative Council or the
32 Joint Budget Committee transfer any savings that may accrue in any fiscal
33 year in the Miscellaneous Agencies Fund Account to the Department of Rural
34 Services, Science and Technology Authority, Soil and Water Commission and the
35 Spinal Cord Commission to enable those agencies to fund critical needs of
36 grant and service recipients across the state with the savings from other

1 agencies funded by the Miscellaneous Agencies Fund Account.

2 Determining the maximum number of employees and the maximum amount of
 3 appropriation and general revenue funding for a state agency each fiscal year
 4 is the prerogative of the General Assembly. This is usually accomplished by
 5 delineating such maximums in the appropriation act(s) for a state agency and
 6 the general revenue allocations authorized for each fund and fund account by
 7 amendment to the Revenue Stabilization Law. Further, the General Assembly
 8 has determined that the Department of Finance and Administration may operate
 9 more efficiently if some flexibility is provided to the Department of Finance
 10 and Administration authorizing broad powers under this subdivision.
 11 Therefore, it is both necessary and appropriate that the General Assembly
 12 maintain oversight by requiring prior approval of the Legislative Council or
 13 Joint Budget Committee as provided by this subdivision. The requirement of
 14 approval by the Legislative Council or Joint Budget Committee is not a
 15 severable part of this section. If the requirement of approval by the
 16 Legislative Council or Joint Budget Committee is ruled unconstitutional by a
 17 court of competent jurisdiction, this entire section is void.

18
