Subtitle
TO CREATE THE PARTNERSHIP FOR PUBLIC FACILITIES AND INFRASTRUCTURE ACT; AND TO REGULATE PUBLIC-PRIVATE PARTNERSHIPS FOR PUBLIC FACILITIES AND INFRASTRUCTURE.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF ARKANSAS:

SECTION 1. Arkansas Code Title 22 is amended to add an additional chapter to read as follows:

CHAPTER 10
PARTNERSHIP FOR PUBLIC FACILITIES AND INFRASTRUCTURE ACT

Subchapter 1 — General Provisions

22-10-101. Title.
This chapter shall be known and may be cited as the “Partnership for Public Facilities and Infrastructure Act”.

22-10-102. Legislative findings — Purpose.
The General Assembly finds that:
(1) There is a public need for the timely acquisition, design, construction, improvement, renovation, expansion, equipping, maintenance, operation, implementation, and installation of public infrastructure and government facilities within the state that serve a public purpose;

(2) The public need for government facilities and public infrastructure may not be satisfied by existing methods of procurement or funding available to the state;

(3) There are inadequate resources to develop public infrastructure and government facilities for the benefit of citizens of the state, and there is demonstrated evidence that public-private partnerships can:

(A) Promote the timely and cost-efficient development of public infrastructure and governmental facilities;

(B) Provide alternative and innovative funding sources to governmental entities; and

(C) Allow governmental entities to leverage and supplement the developmental cost of public infrastructure and governmental facilities through private funding and participation by the private sector in governmental incentive and tax programs that are not otherwise available to governmental entities; and

(4) It is necessary to authorize the formation of public-private partnerships that may result in the ability to develop private projects for public infrastructure and government facilities in a more cost-efficient and timely manner, resulting in increased benefits to the public safety and welfare of the citizens of the state and substantial cost benefits to the governmental entities and the public.
