3 SECTION 4. Arkansas Code 19-4-519 is amended to read as follows:

4 19-4-519. Appropriations code manual and Performance-Based Budget Transfers.

5 (a) After the General Assembly has enacted the various appropriation
6 measures for the support and operation of the state government and its
7 agencies, the Chief Fiscal Officer of the State shall prepare a complete code
8 manual setting out all of the appropriations of the General Assembly, the
9 purpose of the appropriations and the funds, fund accounts, or accounts from
10 which the appropriations are made and shall classify them in accordance with
11 the titles and definitions as enumerated in this chapter.

12 (b) After establishing the appropriation items and classifying them under
13 the provisions of this chapter in strict conformity to the intent and
14 purposes of the appropriation acts, and within the limitations of the
15 revenues and funds available for these purposes, it shall thereafter be
16 unlawful for the Chief Fiscal Officer of the State or any disbursing officer
17 of any state agency to transfer from an appropriation item, the purpose of
18 which is defined under the provisions of this chapter, to any other
19 appropriation item of a different classification and purpose as defined in
20 this subchapter except where permitted by law.

21 (c)(1) If a state agency or program within the state agency has received a
22 performance-based appropriation from the General Assembly, the state agency
23 may request approval from the Chief Fiscal Officer of the State and the
24 Legislative Council or Joint Budget Committee to transfer a portion of the
25 performance-based appropriation from one program to a performance-based
26 appropriation of another program or programs. An institution of higher
27 education shall submit the transfer request to the Department of Higher
28 Education which shall then forward the request to the Chief Fiscal Officer of
29 the State, with the Department of Higher Education's recommendation and
30 comments.

31 (2) Accompanying the transfer request shall be documentation reflecting
32 the need for the transfer and the effects that the proposed transfer may have
33 on the performance goals and targets as approved by the General Assembly and
34 the Legislative Council for the programs.

35 (3) The Chief Fiscal Officer of the State may approve, disapprove or
36 modify the requested transfer.

1 (4) If the transfer request, when combined with other approved
2 transfers for the applicable programs, proposes to increase or decrease any
3 of the applicable appropriations for the fiscal year by more than five
4 percent (5%) and by more than one hundred thousand dollars (\$100,000), the
5 Chief Fiscal Officer of the State shall submit his recommendation along with
6 the request to the Legislative Council or Joint Budget Committee for its
7 review, approval, disapproval or modification. Otherwise, the decision of the
8 Chief Fiscal Officer of the State on the transfer request shall be reported
9 to the Legislative Council or Joint Budget Committee in the same month as the
10 decision is made.

11 (5) The Legislative Council or the Joint Budget Committee, after
12 consultation on the merits and justification of the request shall notify the
13 Chief Fiscal Officer of the State of the decision. In no event shall a
14 transfer be approved by the Legislative Council that, when combined with
15 other approved transfers for the applicable programs, would increase or
16 decrease a performance-based appropriation provided by law by the General
17 Assembly by more than ten percent (10%).

18 (6) The Chief Fiscal Officer of the State shall, after receiving the
19 notification, make the appropriate adjustments on the books of the State.

20 (7) The amounts listed in the performance-based budget sections in
21 appropriation acts for funding sources shall be estimates of available
22 resources to finance the appropriations in the appropriation section of the
23 state agency's appropriation act and the state agency may, upon approval of
24 the Chief Fiscal Officer of the State, revise those funding estimates from
25 time to time as funds may or may not become available.

26 (8) Determining the maximum amount of appropriation and general
27 revenue funding for a state agency each fiscal year is the prerogative of the
28 General Assembly. This is accomplished by delineating such maximums in the
29 appropriation act(s) for a state agency and the general revenue allocations
30 authorized for each fund and fund account by amendment to the Revenue
31 Stabilization Law. Further, the General Assembly has determined that state
32 agencies' programs which receive performance-based appropriations may operate
33 more efficiently if some flexibility is provided under the provisions of this
34 subsection. Therefore, it is both necessary and appropriate that the General
35 Assembly maintain oversight by requiring prior approval of the Legislative
36 Council or Joint Budget Committee as provided by this section. The

1 requirement of approval by the Legislative Council or Joint Budget Committee
2 is not a severable part of this section. If the requirement of approval by
3 the Legislative Council or Joint Budget Committee is ruled unconstitutional
4 by a court of competent jurisdiction, subsection (c) of this section is void.

5
6 SECTION 5. Arkansas Code 10-3-509 is amended to read as follows:

7
8 §10-3-509. Meeting during the interim.

9 (a) The House members of the Joint Budget Committee shall serve as an
10 interim committee to be known as the House Interim Budget Committee.

11 (b) The Joint Budget Committee and the House Interim Budget Committee shall
12 be authorized to meet during the interim to work on budgetary and other such
13 matters as come before the Joint Budget Committee.

14 ~~(b)(c)~~ (c) The members of the Joint Budget Committee shall be paid per diem and
15 mileage reimbursement from moneys appropriated for the payment of per diem
16 and mileage for members of the General Assembly when attending meetings of
17 interim committees.

18

25 ~~board or commission and an annual report summarizing the board's or~~
26 ~~commission's activity during the previous twelve (12) months. The filings~~
27 ~~shall be made available to the Governor upon his request.~~

28 ~~(b) In January of each year, the following state boards and~~
29 ~~commissions shall file their mission statements and annual reports with the~~
30 ~~Legislative Council:~~

31 ~~(1) Abstracters' Board of Examiners, § 17-11-201;~~

32 ~~(2) Arkansas State Board of Public Accountancy, § 17-12-201;~~

23 SECTION 7. EMERGENCY CLAUSE. It is hereby found and determined by the
24 Eighty-third General Assembly that the current incremental line-item system
25 of budgeting is ineffective in evaluating agency performance; that to
26 implement a replacement system in a reasonable time is a difficult task and
27 that to delay the implementation could cause the inability to meet critical
28 deadlines. Therefore, an emergency is declared to exist and this act being
29 immediately necessary for the preservation of the public peace, health and
30 safety shall become effective on the date of its approval by the Governor.
31 If the bill is neither approved nor vetoed by the Governor, it shall become
32 effective on the expiration of the period of time during which the Governor
33 may veto the bill. If the bill is vetoed by the Governor and the veto is
34 overridden, it shall become effective on the date the last house overrides
35 the veto.
