"SECTION 1. DO NOT CODIFY. Legislative findings.

The General Assembly finds that:

(1) Historically, a business has been required to submit various applications to numerous state and local governmental agencies to obtain necessary licenses, permits, and approvals to conduct business in this state;

(2) State and local governmental agencies do not use a uniform application system to authorize or issue a license, permit, or approval to conduct business;

(3) A business may submit the same basic information through the use of numerous forms, formats, and multiple websites as required by those separate agencies;

(5) States that make required transactions among businesses and governmental agencies faster, easier, and cheaper than compared to other states will provide a competitive advantage for businesses and encourage economic development within the state; and

(6) The State of Arkansas should strive to become a national leader for online interaction between business and government through the establishment of a state business portal within the office of the Secretary of State to provide a single, secure portal to transact business with the intent to improve efficiency, eliminate redundancy, streamline the establishment of businesses, improve accountability, and enhance economic development within this state.
