This bill amends § 27-21-109 by adding additional defenses to prosecution for a violation of operating an all-terrain vehicle (ATV) upon a public street or highway. The bill adds as defenses to prosecution if the vehicle operator can show the purpose for riding on the public street or highway was to get from:

1. The off-road trail where the operator parked the motor vehicle used to transport the all-terrain vehicle to another off-road trail; or
2. The operator's private property to an off-road trail or to a tract of land that is private property. However, the vehicle may not travel more than 5 miles on a public street or highway.

The bill further defines private property to mean real property that the operator of the vehicle owns, leases, resides at with the owner or lessee, or is staying at for a specific period of time as an invitee, including without limitation a (1) vacation resort; (2) rental cabin; (3) deeded timeshare; or (4) right-to-use timeshare.

This bill requires the operator to carry proof when operating an ATV on a public street or highway of his or her property interest in the private property and the location of the private property. The operator must display this proof upon demand of a law enforcement officer. This proof shall apply to any person operating the vehicle with a person who is authorized to operate an all-terrain vehicle on a public street or highway.
