21 BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF ARKANSAS:
22

23 SECTION 1. Arkansas Code Title 26, Chapter 51, Subchapter 5 is amended
24 to add an additional section to read as follows:

25 26-51-513. Energy efficiency expenditures on eligible residential
26 property.

27 (a) As used in this section:

28 (1) "Contractor" means a taxpayer who is the primary
29 contractor that constructed an eligible residential property;

30 (2) "Eligible residential property" means a newly constructed
31 residential dwelling or manufactured home that is:

32 (A) Located in the state;

33 (B) Substantially completed after January 1, 2009;

34 and

35 (C) Two thousand square feet (2000 sq.ft.) or less in
36 size; and

1 (3) "Eligible energy efficient expenditure" means an energy-
 2 efficient heating or cooling system, insulation material, or system that is
 3 specifically and primarily designed to reduce the heat gain or loss of an
 4 eligible residential property when installed in or on the eligible
 5 residential property including without limitation:

6 (A) Exterior windows, including skylights;

7 (B) Exterior doors; and

8 (C) A metal roof installed on an eligible residential
 9 property, but only if the roof has appropriate pigmented coatings that are
 10 specifically and primarily designed to reduce the heat gain of the
 11 residential property and that meet Energy Star program requirements.

12 (b)(1) There is allowed a tax credit against the income tax imposed
 13 by the Income Tax Act of 1929, § 26-51-101 et seq., for eligible expenditures
 14 incurred by a contractor in the construction of an eligible residential
 15 property.

16 (2) The amount of the tax credit shall be based upon the
 17 following criteria:

18 (A) For an eligible residential property constructed
 19 and certified as forty percent (40%) or more above the specifications of the
 20 International Energy Conservation Code 2003, as it existed on January 1,
 21 2009, the amount of the tax credit is equal to the eligible expenditures, not
 22 to exceed four thousand dollars (\$4,000.00) for the taxpayer who is the
 23 contractor; and

24 (B) For any eligible residential property constructed
 25 and certified between twenty percent (20%) and thirty-nine percent (39%)
 26 above the specifications of the International Energy Conservation Code 2003
 27 as it existed on January 1, 2009, the tax credit shall be equal to the
 28 eligible expenditures not to exceed two thousand dollars (\$2,000) for the
 29 taxpayer who is the contractor.

30 (c) To receive a tax credit under this section, the eligible
 31 expenditure shall be certified by an accredited Residential Energy Services
 32 Network Provider using the Home Energy Rating System.

33 (d) A taxpayer may only claim the tax credit under subsection (b) of
 34 this section one (1) time for each eligible residential property and only for
 35 the taxable year when the eligible residential property is substantially
 36 completed.

1 (e) If the tax credit under this section exceeds the amount of income
2 taxes due or if there are no state income taxes due on the income of the
3 taxpayer, the amount of tax credit allowed but not used in any taxable year
4 may be carried forward by the taxpayer as a tax credit against future income
5 tax liability for a period not exceeding four (4) years following the tax
6 year that the tax credit was initially allowed.

7 (f) The Department of Finance and Administration shall promulgate
8 rules necessary to implement this section.

9
10 SECTION 2. This act is effective for tax years beginning on or after
11 January 1, 2009.
