WHEREAS, Mrs. Bumpers spearheaded the Every Child by '74 campaign of volunteers, which immunized over 350,000 Arkansas children in one day, achieving one of the highest immunization rates in the country; and

WHEREAS, Mrs. Bumpers moved to Washington D.C. in 1974 after her husband's election to the Senate where she promoted this program as a national model along with help from the White House, Centers for Disease Control and Prevention and the Department of Health and Human Services, known then as the Department of Health, Education, and Welfare; and

WHEREAS, in 1991, after a measles epidemic killed over 200 children, Mrs. Bumpers and former First Lady Rosalyn Carter along with the Carter Center launched the national Every Child by Two campaign, with the goal of assuring immunizations for all children by the age of 2, which contributed to an immunization rate of 90% for children under 2; and

WHEREAS, in 1999, President Bill Clinton along with Congress created at the National Institutes of Medicine the Betty and Dale Bumpers Vaccine Research Center; and

WHEREAS, in 2001, Mrs. Bumpers testified before the United States Senate Health, Labor and Pensions Committee about the need for a systematic delivery of vaccines and supported legislation to require health plans to cover childhood immunizations; and
