30
31 6-82-2002. Planning grants.

32 (a) As used in this subchapter, a "planning grant" is a grant awarded
33 by the Graduate Medical Education Residency Expansion Board to eligible
34 entities and individuals under this subchapter.

35 (b) The board shall:

36 (1) Allocate funds appropriated for purposes of this subchapter;

1 (2) Award a one-time planning grant under this section to an
2 entity in this state that:

3 (A) Has never had a graduate medical education program;
4 and

5 (B) Is eligible for Medicare funding of graduate medical
6 education;

7 (3) Award planning grants on a competitive basis according to
8 the criteria adopted by the board under its rules; and

9 (4) Determine the number of planning grants awarded and the
10 amount of each planning grant.

11 (c)(1) An application for a planning grant under this section shall be
12 submitted by an entity to the board no later than July 15 of the year
13 preceding the year for which the planning grant will be used.

14 (2) The board shall award a planning grant to an eligible entity
15 under this section no later than August 15 of the year in which the eligible
16 entity's application was submitted.

17 (d) An entity that is awarded a planning grant under this section and
18 establishes additional first-year residency positions after the receipt of a
19 planning grant is eligible for additional funds for each position
20 established.

21
22 6-82-2003. Planning grants for program expansion or new programs.

23 (a) The Graduate Medical Education Residency Expansion Board shall
24 award planning grants to enable entities with existing graduate medical
25 education programs to:

26 (1) Increase the number of first-year residency positions; and

27 (2) Provide for the establishment of new graduate medical
28 education programs with first-year residency positions.

29 (b) The board shall determine the number of planning grants awarded
30 under this section and the amount of each planning grant awarded under this
31 section.

32 (c) A planning grant under this section shall be used to support the
33 direct resident costs to the graduate medical education program, including
34 without limitation stipends and benefits.

35 (d) An entity applying for a planning grant under this section shall:

36 (1) Include a plan for receiving accreditation for the increased

15 under this section, the board shall award the entity with the graduate
16 medical education program an equal planning grant amount for the following
17 fiscal year, not to exceed three (3) fiscal years.

18
19 6-82-2004. Priority of planning grants – Adjustment of amounts.

20 (a) If the Graduate Medical Education Residency Expansion Board
21 determines that the number of first-year residency positions proposed by
22 eligible applicants under § 6-82-2003 exceeds the amount of funding
23 appropriated for the planning grants under this subchapter, the board:

24 (1) May give priority for up to fifty percent (50%) of the
25 funded first-year residency positions to be in primary care or other critical
26 shortage areas in this state; and

27 (2) Shall not reduce planning grant amounts awarded for each
28 resident position, but may proportionately reduce the number of positions
29 funded for each graduate medical education program.

30 (b) If the board determines that, based on the applications it has
31 received for planning grants under § 6-82-2003, the entire appropriation for
32 planning grants under this subchapter shall not be awarded for a particular
33 year, the board may transfer and use the funds appropriated to award planning
34 grants under § 6-82-2002.

35
36 6-82-2005. Planning grants for additional years of residency.

1 (a) If the Graduate Medical Education Residency Expansion Board
 2 determines that funds appropriated under this subchapter are available after
 3 all eligible planning grant applications under §§ 6-82-2002 and 6-82-2003
 4 have been funded, the board shall award planning grants from excess funds to
 5 support medical residents who:

6 (1) Have completed at least three (3) years of residency; and

7 (2) Are enrolled in a residency program in a field in which this
 8 state has less than eighty percent (80%) of the national average of
 9 physicians per one hundred thousand (100,000) people, as determined by the
 10 board.

11 (b) The board shall determine the following with respect to planning
 12 grants under this section:

13 (1) The amount of a planning grant awarded under this section;

14 (2) The number of planning grants awarded under this section;

15 and

16 (3) The residency fields in which recipients of planning grants
 17 under this section work.

18 (c) A planning grant under this section shall be used to support the
 19 direct resident costs to the graduate medical education program, including
 20 without limitation stipends and benefits.

21 (d) The board shall distribute a planning grant amount for a residency
 22 position under this section only upon receiving verification that the
 23 applicable residency position has been filled.

24
