SECTION 4. EMERGENCY CLAUSE. It is found and determined by the General Assembly of the State of Arkansas that in December 2020, several vaccines or immunizations for coronavirus 2019 (COVID-19) were approved for distribution to the citizens of the United States; that the State of Arkansas has received limited quantities of vaccines or immunizations for coronavirus 2019 (COVID-19) and plans to make vaccinations or immunizations for coronavirus 2019 (COVID-19) available to citizens of this state through a phased process; that citizens of this state have expressed concerns about being forced to receive a vaccination or immunization for coronavirus 2019 (COVID-19) without consideration of their religious, philosophical, or medical reasons or information about the safety of a vaccine or immunization for coronavirus 2019 (COVID-19); and that this act is immediately necessary to protect the safety and health of the citizens of this state who have religious, philosophical, or medical reasons for not receiving a vaccination or immunization for coronavirus 2019 (COVID-19) or who have concerns about the safety of a vaccine or immunization for coronavirus 2019 (COVID-19). Therefore, an emergency is declared to exist, and this act being immediately necessary for the preservation of the public peace, health, and safety shall become effective on:

(1) The date of its approval by the Governor;
(2) If the bill is neither approved nor vetoed by the Governor,
the expiration of the period of time during which the Governor may veto the bill; or

(3) If the bill is vetoed by the Governor and the veto is overridden, the date the last house overrides the veto.
