Re: A Report on Legislative Hearings for the 2018 Interim Study on Educational Adequacy

Dear President Dismang and Speaker Shepherd:

The House Interim Committee on Education and the Senate Interim Committee on Education
(Education Committees), pursuant to the provisions of Arkansas Code Annotated 10-3-2101 et
seq., are pleased to submit their report on the legislative hearings held for the purpose of
completing the 2018 interim study on the adequacy of the state’s system of public education.

The 2018 Adequacy Report consists of two (2) volumes. Volume I contains the initial findings
and recommendations of the Education Committees. Volume II contains copies of all materials
presented to the Education Committees for this adequacy review.

As you will see in Volume I, the Education Committees made the following recommendations
for changes concerning educational adequacy:

<table>

| **Definition of Adequacy**   | The definition the General Assembly uses for educational adequacy should be amended as follows:  
1. The standards included in the state’s curriculum and career and technical frameworks, which define what all  
Arkansas students are to be taught, including specific grade level curriculum; and a mandatory thirty-eight (38)  
Carnegie units defined by the Arkansas Standards of Accreditation to be taught at the high school level; and  
opportunities for students to develop career readiness skills;  
2. The standards included in the state’s testing system. The goal is to have all, or all but the most severely  
disabled, students perform at or above proficiency on these tests; and  
3. Sufficient funding to provide adequate resources as identified by the General Assembly.  |
| **Special Education**        | House: Add $4 million to Catastrophic Occurrences funding for a total of $17,020,000 in FY20 with the  
understanding that this amount can be changed during budget hearings.  
Senate: No change from FY19 funding level ($13,020,000).  | House: Provide no increase to Catastrophic Occurrences funding in FY21, leaving the funding at  
$17,020,000 for FY21 with the understanding that this amount can be changed during budget hearings.  
Senate: No change from FY20 funding level ($13,020,000).  |

March 5, 2019

Following the submission of the November 1, 2018 Final Report on the Legislative Hearings for the 2018 Educational Adequacy Study, we found it necessary to increase the foundation funding amounts for the upcoming biennium of school years 2019-2020 and 2020-2021.

Due to the increased costs of submitting the school district portion to the teacher retirement system, the foundation funding amounts were increased by $16 the first year and $33 the second year.

The increased foundation funding amounts were provided in HB1685 as filed March 5, 2019 during the 2019 Regular Session.
