## **3:15 p.m. Break**

## **3:30 p.m. Energy Resources and Options in Arkansas**

*Panel Moderator*

– Chris Benson, Director, Arkansas Energy Office

### **Electrical Power Generation: Current and Future Perspectives**

- Supply vs. Demand--where are we now? What are the projections for the next 5-15 years? What are Arkansas' significant fossil resources (coal, oil, gas)?
- Re carbon-related concerns--does the power sector in Arkansas/the region anticipate new federal controls? What might they look like? What's an anticipated timeline? How might those affect power generation? Consumption in Arkansas?
- Beyond carbon controls, what are some other key issues or strategies associated with power generation/transmission/distribution in Arkansas (currently and in foreseeable future)?  
– Nick Brown, CEO, Southwest Power Pool

### **Conserving Energy by Building Smarter**

- How much energy is consumed by buildings in Arkansas (by sector, form, etc)?
- What are some strategies for conserving energy consumed in buildings?
- What efforts are underway (in public/private sectors) re building energy conservation?  
– Bob East, CEO, East-Harding Inc., Construction Contractors

### **Transportation Energy**

- Consumption in Arkansas--how much? In what forms? By whom?
- What are key issues re transportation energy in Arkansas?
- What are some strategic options that should be considered in Arkansas?  
– Tommy Foltz, President, Foltz Company LLC

### **Renewable Energy Options**

- What are Arkansas' principal renewable energy options?
- What are some key benefits and challenges?
- What are some strategies for pursuing renewable options?  
– Jim Wimberly, President, BioEnergy Systems LLC

E. Other Business

F. Adjournment
