DEPARTMENT OF HUMAN SERVICES, DIVISION OF MEDICAL SERVICES

SUBJECT: ARKIDS-3-18 (ARKIDS-B); EPSDT-1-18 (Early and Periodic Screening, Diagnosis, and Treatment) Services

DESCRIPTION:

Statement of Necessity
The Arkansas Medicaid State Plan states “Medical Screens are provided based on the recommendations of the American Academy of Pediatrics.” These additions are based on those recommendations.

Rule Summary
Effective January 1, 2020, Arkansas Medicaid will revise the Child Health Services/Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) Manual and the ARKids First B Manual to:

- Add one (1) well-child visit for thirty (30) months, seven (7) years, and nine (9) years old to the periodicity schedule to comply with the recommendations of the American Academy of Pediatrics, as required by the Arkansas Medicaid State Plan.
- Add specific details concerning well-child screens based on the Bright Futures Guidelines of the American Academy of Pediatrics, as required by the Arkansas Medicaid State Plan.

PUBLIC COMMENT: No public hearing was held. The public comment period expired on September 17, 2019. The Department received no public comments.

Per the agency, this rule does not need CMS approval.

Additionally, Kathryn Henry, an attorney with the Bureau of Legislative Research, asked the following question: Your statement of necessity indicates that, “The Arkansas Medicaid State Plan states ‘Medical Screens are provided based on the recommendations of the American Academy of Pediatrics.’” It also states that the additions in this rule are based on those recommendations. Did the American Academy of Pediatrics recently change its recommendations, or are you making these rule changes to comport with older recommendations? RESPONSE: We’re implementing recommendations that were updated in February 2017.

The proposed effective date is January 1, 2020.

FINANCIAL IMPACT: The agency states that the amended rule has a financial impact.

The cost to implement the federal rule or regulation is $1,641,886.00 for the current fiscal year ($473,027.00 in general revenue and $1,168,859.00 in federal funds) and
$3,283,773.00 for the next fiscal year ($933,577.00 in general revenue and $2,350,196.00 in federal funds).

The total estimated cost by fiscal year to state, county, or municipal government to implement the rule is $473,027.00 for the current fiscal year and $933,577.00 for the next fiscal year.

The agency further states that there is a new or increased cost or obligation of at least one hundred thousand dollars ($100,000) per year to a private individual, private entity, private business, state government, county government, municipal government, or to two (2) or more of those entities combined. Accordingly, the agency provided the following written findings:

(1) a statement of the rule’s basis and purpose
   Adding an additional well-child screening should help prevent developmental delays or disability, keep immunizations up to date, and help decrease expenditure costs if issues are detected and treated early.

(2) the problem the agency seeks to address with the proposed rule, including a statement of whether a rule is required by statute
   To detect developmental delay and disability early.

(3) a description of the factual evidence that:
   (a) justifies the agency’s need for the proposed rule; and
   (b) describes how the benefits of the rule meet the relevant statutory objectives and justify the rule’s costs
   Early detection of any developmental problems or delays helps decrease expenditures in the long run.

(4) a list of costly alternatives to the proposed rule and the reasons why the alternatives do not adequately address the problem to be solved by the proposed rule
   No less costly alternatives are proposed at this time.

(5) a list of alternatives to the proposed rule that were suggested as a result of public comment and the reasons why the alternatives do not adequately address the problem to be solved by the proposed rule
   No alternatives are proposed at this time.

(6) a statement of whether existing rules have created or contributed to the problem the agency seeks to address with the proposed rule and, if existing rules have created or contributed to the problem, an explanation of why amendment or repeal of the rule creating or contributing to the problem is not a sufficient response
   Existing rules have not contributed to the problem.
(7) an agency plan for review of the rule no less than every ten (10) years to determine whether, based upon the evidence, there remains a need for the rule including, without limitation, whether
(a) the rule is achieving the statutory objectives;
(b) the benefits of the rule continue to justify its costs; and
(c) the rule can be amended or repealed to reduce costs while continuing to achieve the statutory objectives.

The agency monitors state and federal rules and policies for opportunities to reduce and control cost.

LEGAL AUTHORIZATION: Pursuant to Arkansas Code Annotated § 20-76-201(1), the Department of Human Services ("Department") shall administer assigned forms of public assistance, supervise agencies and institutions caring for dependent or aged adults or adults with mental or physical disabilities, and administer other welfare activities or services that may be vested in it. The Department shall also make rules and take actions as are necessary or desirable to carry out the provisions of Title 20, Chapter 76. Public Assistance Generally, of the Arkansas Code. See Ark. Code Ann. § 20-76-201(12).

Additionally, Ark. Code Ann. § 20-77-107(a)(1) specifically authorizes the Department to "establish and maintain an indigent medical care program." The Department and its various divisions are further authorized to promulgate rules, as necessary to conform to federal statutes, rules, and regulations as may now or in the future affect programs administered or funded by or through the Department or its various divisions, as necessary to receive any federal funds that may now or in the future be available to the Department or its various divisions. See Ark. Code Ann. § 25-10-129(b).

Per the agency, these rule revisions are further being implemented to comply with 42 U.S.C. §§ 1396a(a)(43), 1396d(a)(xvii)(4)(B), 1396d(r), and 42 CFR §§ 441.50-441.62.

Yes______ x______ No__________________________

Revised June 2019
If YES, the agency is required by Ark. Code Ann. § 25-15-204(e)(4) to file written findings at the time of filing the financial impact statement. The written findings shall be filed simultaneously with the financial impact statement and shall include, without limitation, the following:

(1) a statement of the rule’s basis and purpose; 
Adding an additional well-child screening should help prevent developmental delays or disability, keep immunizations up to date, and help decrease expenditure cost if issues are detected and treated early.
(2) the problem the agency seeks to address with the proposed rule, including a statement of whether a rule is required by statute;
   To detect developmental delay and disability early.
(3) a description of the factual evidence that:
   (a) justifies the agency’s need for the proposed rule; and
   (b) describes how the benefits of the rule meet the relevant statutory objectives and justify the rule’s costs;

Early detection of any developmental problems or delays helps decrease expenditures in the long run.

(4) a list of less costly alternatives to the proposed rule and the reasons why the alternatives do not adequately address the problem to be solved by the proposed rule;
   No less costly alternatives are proposed at this time.

(5) a list of alternatives to the proposed rule that were suggested as a result of public comment and the reasons why the alternatives do not adequately address the problem to be solved by the proposed rule;
   No alternatives are proposed at this time.

(6) a statement of whether existing rules have created or contributed to the problem the agency seeks to address with the proposed rule and, if existing rules have created or contributed to the problem, an explanation of why amendment or repeal of the rule creating or contributing to the problem is not a sufficient response; and
   Existing rules have not contributed to the problem.

(7) an agency plan for review of the rule no less than every ten (10) years to determine whether, based upon the evidence, there remains a need for the rule including, without limitation, whether:
   (a) the rule is achieving the statutory objectives;
   (b) the benefits of the rule continue to justify its costs; and
   (c) the rule can be amended or repealed to reduce costs while continuing to achieve the statutory objectives.
   The agency monitors State and Federal rules and policies for opportunities to reduce and control cost.
