3. If a decision is made to provide treatment, the social worker must agree to accept responsibility for the care of the client.
4. If follow-up care is indicated, the social worker must agree to provide or arrange for such follow-up care.
5. The social worker must keep a documented treatment record, including, but not limited to psychosocial history.
6. At the client’s request, the social worker must make available to the client an electronic or hardcopy version of the client’s treatment record documenting the encounter. Additionally, unless the client declines to consent, the social worker must forward a copy of the record of the encounter to the client’s regular treating provider or treatment team if that provider or treatment team is not the same social worker delivering the service via telemedicine.
7. Services must be delivered in a transparent manner, including providing access to information identifying the social worker’s licensure and other relevant certifications, as well as client financial responsibilities, in advance of the encounter.

8. If the client, at the recommendation of the social worker, needs to be seen in person, the social worker must arrange to see the client in person or direct the client to their regular treating provider or treatment team or other appropriate provider if the client does not have a treating provider or treatment team. Such recommendation shall be documented in the client’s treatment record.

9. Social workers who deliver services through telemedicine must establish protocols for referrals for emergency services.

H. Scope of Practice:
   Social workers may practice social work via telemedicine within the definitions found in Ark. Code Ann. §17-103-103.

I. Confidentiality:
