Governor Asa Hutchinson
250 State Capitol
Little Rock, AR 72201

Dear Governor Hutchison:

I am pleased to submit to you the Department of Human Services' Medicaid Transformation Savings Scorecard and Quarterly Report, which covers the third quarter of State Fiscal Year (SFY) 2018. As you know, the purpose of the Scorecard is to track progress towards your goal of achieving \$835 million in savings. The savings we are tracking are from our Medicaid Transformation initiatives over the period SFY 2017-2021 in the Traditional Medicaid program from the baseline established by the Legislature's Health Care Task Force. The Task Force projected net savings of \$153 million in SFY 18. As the SFY 2018 Q3 report shows, year-to-date Medicaid spending is \$354 million lower than the Task Force projection for SFY 2018. Of this amount, \$165 million in savings are a result of Transformation initiatives.

Traditional Medicaid spending in SFY 2017 and SFY 2018 combined is \$529 million *lower* than the Task Force projections for this time period, of which \$258 million in net savings are a result of Transformation initiatives thus far.

The third quarter marked the beginning of enrollment in two important initiatives—the Provider-led Arkansas Shared Savings Entity (PASSE) and dental managed care. The PASSE is designed to serve Individuals who have significant Behavioral Health (BH), Developmental Disabilities (DD), or Long-term Services and Supports (LTSS) needs. These individuals are identified through what is known as an Independent Assessment Developmental Screen. As of March 28, 2018, 10,673 assessments and screens had been completed. Of these, 7,490 had BH or DD needs that made them eligible for PASSE services. By March 28, a total of 3,104 had been enrolled in one of the four PASSEs. During calendar year 2018, these individuals receive only care coordination through the PASSEs. In January 2019, the PASSEs will accept full risk for all services for their members. The Task Force did not project any savings from a BH and DD organized care model until SFY 21.

Overall, the Scorecard shows that Traditional Medicaid spending is not only lower than the Task Force projected for SFY 2018, but actual spending in Q3 2018 also was lower than Q3 2017. Through your leadership, and with the support of the Legislature, Medicaid is becoming more financially sustainable while ensuring services for those most in need remain intact.

Sincerely,

Cindy Gillespie

Medicaid Transformation Savings Scorecard and Quarterly Report

Q3 SFY2018 Report

A Three Section Report to Track Medicaid and Savings

- DHS is obligated to provide a quarterly report beginning with the first quarter of SFY18 that:
 - Includes a dashboard or scorecard to track savings from reforms approved by the Health Care Task Force (HCTF). The reforms target “at least \$835 million” in savings from traditional Medicaid.
 - Reports on all Medicaid programs to monitor spending and savings across the programs.
 - Measures the impact on Medicaid spending and other quality/performance indicators from implementation of provider-led organized care in Arkansas.
- Act 802 requires DHS to submit to the Bureau of Legislative Research an initial report on September 1, 2017, to establish the baseline for the quarterly reports.
- Act 802 further provides:
 - If project (sic) savings in an amount less than five percent (5%) of the goal are not achieved during any two (2) consecutive quarters unrelated to non-claims based performance, the department **shall develop additional reforms to achieve the savings goals** (emphasis added.)”
 - “If legislative action is required to implement the additional reforms ..., the Department may take the action to the Legislative Council or the Executive Subcommittee of the Legislative Council for immediate action.”
- DHS will submit these quarterly reports to BLR on or before the thirtieth day following the end of a quarter.
