Senator Sample,

Act 960 of 2017 allows state agencies who plan to publish information to do so through an electronic format. The Act also requires agencies who decide to publish that information electronically to notify the Legislative Council within 30 days of its decision and the justification for the decision.

Our Board is planning to make a rule change soon that involves our Code of Professional Conduct. ACA 17-12-203(c) requires that any amendment to our Code of Professional conduct be mailed to every licensee along with a notice of the proposed effective date of the amendment.

We have decided to email our licensees the required information instead of mailing it due to efficiency and cost considerations. If you have any questions or concerns please let me know.

Best Regards,
