Project Description:

The proposed project, in Fort Smith, involves construction of a new medical clinic, renovations to the existing medical/office building, and demolition of the small annex building to provide more room for parking. The purpose of the project is to expand the number of exam rooms, convert to a patient-centered-medical-home-model, expand medical education opportunities, and improve overall operations.

This location is one of six Regional Program sites in Arkansas that is directly involved in training Family Physicians as its core education program. Overall, there are eight Regional Program Centers in the state providing services to the citizens of Arkansas.
