(8)	06/30/2011	Arkansas Livestock and Poultry Commission	Notifiable Avian Influenza – The purpose of this agreement is to enhance Notifiable Avian Influenza (NAI) surveillance and control cooperatively in the state and to aid in the diagnosis, control and prevention of the spread of NAI in poultry populations. Surveillance and control of avian influenza is essential to maintain free international trade and eliminate production loss due to infection. Sampling, monitoring, testing, and record keeping activities are essential to maintain an active surveillance program for NAI. The information gathering and control procedures instituted constitute the basis for continual program development and improvement	Statewide	U.S. Department of Agriculture/ APHIS	Federal Applicant State Other Total	\$315,000.00 <hr/> \$315,000.00
(9)	06-30-2011	Arkansas Livestock and Poultry Commission	Classical Swine Fever – To obtain a more widespread and unbiased sample for CFS in a surveillance plan, the proposal is to use Arkansas state field personnel to get additional samples while they are accomplishing the testing of the domesticated herds in the state as part of the Arkansas Survey Swine Herds (ASSH herds). These herds are tested by state or private veterinarians to qualify swine for sale at Arkansas markets. The normal surveillance testing is for Brucellosis and Pseudo-rabies. With the inclusion of this plan, those herds normally sampled for these diseases would provide a population that would be relevant to sample for CSF in Arkansas. These herds include both licensed garbage feeding and transition-type swine operations.
