5. Office of Health Information Technology Health Information Exchange
 The office of Health Information Technology requests additional appropriation due to the delay in payment of Fiscal Year 13 invoices. The delay was due to the need to substantiate and verify the costs were allowable for the cooperative agreement under the Federal Health Information Technology for Economic and Clinical Health Act. The vendor invoices received at the end of Fiscal Year 13 were incomplete and lacked sufficient documentation to approve payment at year end. There is sufficient available state matching appropriation to meet this increase in federal appropriation.
