Tony:

We do not change the slot allocation. The same number of slots will be allocated to each school. The appropriation will fund the as many slots as possible. Many times not all of the incoming slots are used by each school so the decreased appropriation could still cover the slots that are filled.

The ARHEG schools have to either contract directly with SREB or ADHE to participate in this program. The asterisk represent the SREB contract schools and the plus signs represent the ADHE contracted schools.

Thanks,

*Tara Smith*

Tara, The legislator further requested that the slots available for the requested appropriation reductions for the upcoming biennium be shown to the right of the indicated slots. I stated to them it was my understanding that the below slots are for the current fiscal year. Can you produce that please? Also, should the legislator know what the asterisk and plus signs denoted mean?

**Subject:** Another Q please

Dr. Purcell,

I have received a request for the number of "slots" funded from the Higher Ed. Grants Fund Account's Medical Professions appropriation.

Thank you.
