A.S.E.A. to Offer Tuition Reduction on Classes through University of Phoenix

The Arkansas State Employees Association is making a new benefit available to its members through A.S.E.A.'s Partners Program: association members now receive a 10% reduction on the cost of tuition at the University of Phoenix for any associate, bachelor's, master's and doctoral degrees, certificates, and individual courses. The University has two campuses in Arkansas and also offers a variety of online degree programs.

The University offers accredited programs in Business, Criminal Justice, Nursing, Information Technology, and a variety of other fields. It has a campus in Little

University of Phoenix

learning center in Rogers; online classes begin on a weekly basis and are designed to accommodate the schedules of working students. "We couldn't be more pleased to add this new benefit to the growing list of discounted services being offered to A.S.E.A.'s members," said association program director John Bridges. "We very much appreciate the importance of continuing education—not to mention the significance of being able to save money during these difficult times." Those interested in learning more about programs being offered are encouraged to visit the University of Phoenix's

Phoenix, continued from page 1

special page for association members at phoenix.edu/arkstate and request additional information. The University is accredited by the Higher Learning Commission and is a member of the North Central Association (ncahlc.org). "We are greatly excited to have the University as our new partner," said A.S.E.A. executive director Danny James. "This is exactly the sort of benefit that we want to present to our members—one that encourages new horizons while also remaining conscious of practical concerns."
