Schools subject to loss of FFEL/FDSLP eligibility, most recent year $> 40.0\%$

A school is subject to loss of eligibility to participate in the Federal Family Education Loan (FFEL) Program and/or William D. Ford Federal Direct Loan (Direct Loan) Program if the school's FY 2008 official cohort default rate is greater than 40.0%. If a school fails to successfully appeal this sanction, it will lose eligibility to participate in the FFEL and/or Direct Loan Program until September 30, 2012. For more information on this sanction and specific exceptions, please refer to the [Cohort Default Rate Guide](#).

A school does not automatically appear on the loss of eligibility list based on the rates shown in this record because some schools are exempt from sanctions. A school may be simultaneously subject to the sanction based on three years and the sanction based on a single year of higher rates. During the official cohort default rate process, schools are provided the opportunity to adjust/appeal their cohort default rate(s) with the Department. The rates contained at this website do not reflect the outcome of the official cohort default rate adjustment/appeal processes. Please contact the Department's [Default Prevention and Management Division](#) to obtain information on a school's rate and/or eligibility status that may have changed as a result of an official cohort default rate adjustment/appeal.
